Mail Server Upgrade During Christmas Break

During this Christmas break, starting Saturday, December 26th, ITS will be upgrading our mail server to Microsoft Windows Exchange Server 2010. This involves moving individual mailboxes from the current server to the new server. When your individual mailbox is being moved, you will not be able to access your email. This process may take several minutes. If you are unable to access your email, please try again in a short while.

During the transition, the <http://webmail.alfred.edu> site will involve an extra step where it will ask for your username a second time. This is necessary so we can determine if your mailbox is on the current server or has moved to the new server. Once the transition is complete, all access to WebMail be handled by the new server and this extra step will not be necessary.

If you experience any email related problems during the upgrade, please call the Help Desk number at 607-871-2222. A technician will be monitoring the voice mail during the break to assist you if there are any issues. In addition, we will be posting regular updates to [http://netstatus.alfred.e....](http://netstatus.alfred.e...) We will use this site to address any problems that may occur and to notify you when the upgrade is complete.
