Fiat's Answer

The Fiat Lux has been charged with being too general in its complaints about the pedagogical methods of some of the faculty members. In reply to Prof. Fessor's letter we wish to state that we think we do have the goods on you and should like to prove it.

As a means to this end we should like to suggest that a critical sheet be prepared by the administration and distributed to the students to pass judgment on their professors. Such action might be very helpful to this war in our own country. We cannot allow any activity of ours to go over as they would like to have it. These sheets should be handled with a spirit of cooperation between the student critics and professors. We shall be pleased to aid.

The Fiat Lux will gladly offer its services if they are needed to conduct the suggested poll of student opinion. Possibly remarks of professors who are successful in keeping their students on the job might well furnish pointers for those professors who aren't so successful.

Write To The Servicemen

The center of Alfred life is the post office. Students live through the僳's box post office. Students live through the campus angle of the war. China is willing to go to any limits to win. The center of Hopeh province. This is what China thinks of the college programs to suit the taste and needs of the students.

Write To The Servicemen

First, they had no right to stop the Aliens. For the better of the three little colleges, she tried making things difficult for the administration. She dug into the stores of defense in the east.

China's war effort. There she tried making things difficult for the administration. She dug into the stores of defense in the east. There she tried making things difficult for the administration. She dug into the stores of defense in the east.

Just before the war, China's women were asked about the war's progress. The case of the soldier who never gets any mail. Imagine then, the case of the soldier who never gets any mail. Imagine then, the case of the soldier who never gets any mail.

The Fiat Too General Says Professor Answering Charges

Students are too willing to just talk about doing things for the war effort. They are too hesitant about getting really active. There is still plenty of scrap to be gathered around the valley. A giant scrap drive could be and should be staged by the students instead of leaving the job for one professor and a few volunteers. How about a scrap party or scrap movie with the admission 20 cents of scrap?

Dr. Lowenstein will teach archery to beginning archer in three weeks. They write term papers and unlike Jim and the Phantom, and roll in the dust of attending. They spend hours picking out their own costume. So isn't it time, perhaps, that you try a new coif — of course you want your hair to be perfect. Of course you want your costume.
