Please Use New Revised Forms for Hiring!

Once again we have found it necessary to revise our Recruitment Requisition and Personnel Action forms. Edits were made to prepare for Web Time Entry of our employees (yes it is coming!) and we also found that we needed to include some additional information that is necessary for payroll to have, in order to be in compliance with wage and compensation law.

The forms are available on the HR Web site at the following link and are data-enterable for your convenience. Also attached are PDF copies of the forms for those whose computers are not compatible.

Please discard any copies of the old versions of the forms so that we can get them out of circulation.

Seeking Faculty Input on Technology/Media Outreach

"I'm looking to hear from current academics who were in college when computers first started to be integrated into campus life. Roughly, this would encompass academics who finished their undergrad schooling in 1984, '85, '86 or '87. I'm interested in profiling a generation of academics who have spent their careers sandwiched between 1) older colleagues who might be resistant to technology, and 2) younger colleagues who are "digital natives" and don't remember academe before computers. How has being in this position affected how they view technology and the upheaval it has caused in higher education? To be clear, I am not looking for computer-science professors or technology historians (though they are welcome to contribute their narratives). I am looking for all professors, from early adopters to reluctant users, whose experiences in academe straddle the seminal moment computer companies started seeding campuses with personal computers." Contact: Steve Kolowich, steve.kolowich@insidehighered.com

Deadline is Wednesday, July 21
