Is Your Information Correct for the Directory?

It is time to make sure information is correct for the publication of the 2010-11 AU Faculty/Staff Directory. To check your business phone and office location, use the Outlook Global Address list to verify your information. This data is pulled directly from Banner and is the same information used for the Directory and Employee Phone List.

Corrections to your office information can be requested by using the Personnel Data Form below and forwarding it to Human Resources.

The numbers for emergencies, department phones and fax are not housed in Banner. Please review the attachments to make sure the numbers are correct for your area. Changes to department information can be e-mailed to costello@alfred.edu.

PLEASE MAKE SURE YOUR INFORMATION IS CORRECT SO THAT OUR DIRECTORY IS ACCURATE!

Visiting Artist Lecture 5 p.m. Tuesday, Sept. 14 in Holmes Auditorium

Artist Michael Ashkin prompts his audience to reflect on the complex meanings of the built environment. He exhibits both cardboard dioramas and video to investigate peripheral settlements, designs for public squares, and prison architectures, and his constructions operate as both "realist" documents and allegories.

Taking us elsewhere in the world, Ashkin also reminds us that the data we receive about "elsewhere" is often problematically coded.

Ashkin lives and works in Ithaca. He has had solo exhibitions at Andrea Rosen Gallery in NYC since 2002 and has exhibited internationally, recently at Tsinghua University, Beijing, and in 2003 at documenta 11, curated by Okwui Enwezor.

Film Screening: 'All Fracked Up'

SAFE (Students Acting for Equality) are back with DOCUMENTARY TUESDAYS!

Each Tuesday at 7p.m. in Holmes Auditorium we will be screening documentaries that open our eyes

to environmental and human rights issues in the United States and abroad!

The first in the series is "ALL FRACKED UP, a Satirical Documentary" about hydro-fracking in the Marcellus Shale by Jeff and Jodi Andrysick!

(from the directors)

"All FRACKED UP" is a hard-hitting documentary which shows that hydro-fracking is an extreme technology used to obtain extreme energy with potentially extreme dire consequences. Only 6 out of 100 people have gas leases; however, all of us may suffer terrible consequences such as ruined water wells, devastated property values, rural zoning turned into industrial sites, big city pollution, 24/7 loud noise pollution from large trucks, drilling equipment, and compressor stations. Just watch the movie to see what has happened in Pennsylvania.

One highlight of the movie is a revealing interview with Anthony Ingraffea, PhD, a Cornell University professor and researcher who helped develop the technology used to hydrofrack the Marcellus Shale in PA but now opposes the method because of its inherent dangers. Also, interviews with Joseph Heath, Esquire, a long-time environmentally active attorney who just tells it the way it is.

You'll also see the sad horror stories from Dimock, PA as various residents speak about their ruined water wells and property values. And there's much, much more!

Tuesday, Sept. 14 @ 7 p.m. in Holmes Auditorium
We look forward to seeing you there!

University Judicial Board and Peer Review Board Recruitment

We are currently recruiting students, faculty and staff members to serve on our University judicial boards. Our judicial system is designed to hold students accountable for the Student Code of Conduct, change problematic behavior through a structured educational process, and protect the University community.

The judicial system enables the campus community to take an active role in the judicial hearing process. Board members need to possess strong interpersonal and communication skills, sound judgment, personal integrity, and demonstrate respect for others. Hearings are scheduled on an as-needed basis. Serving on a board depends on your schedule and availability.

If you are interested, please contact judicial@alfred.edu or x2132.
