Washington Semester Program Fall 2011

Dr. Heineman of the Social Sciences Division is now taking applications for the Washington Semester Program for Fall 2011.

The Washington Semester Program is sponsored by American University and enables students to spend a semester in Washington, D.C., studying public policy in a variety of areas. Students who have participated in the program have used their experience and contacts to obtain excellent positions in

Washington and elsewhere.

In addition to taking coursework, students will meet with government officials and political leaders in seminar sessions and will participate in an internship of their choosing.

In addition to its major focus on American national government, the program also has a number of options utilizing non-governmental resources in the Washington area, including working with interest groups and art and cultural institutions. Some of these are: journalism, law enforcement, public law, economics, international business, international organizations, and women and politics.

Course credits and grades are fully transferable to the student's transcript. Students can obtain additional information on the program at www.washingtonsemester.co.... Juniors or seniors are eligible to participate, and scholarships are available.

Over the past year, Steve Patterson and Kristin Edward Brown attended the program.

Those interested should contact Dr. Heineman in room 209 of the Olin Building. Applications should be completed by Thursday, March 31, 2011.

International Conference: Knowledge, Culture, Change in Organizations

ELEVENTH INTERNATIONAL CONFERENCE ON KNOWLEDGE, CULTURE, AND CHANGE IN ORGANIZATIONS

Universidad San Pablo CEU
Madrid, Spain
15-17 June 2011

<http://www.ManagementConf...>

The Management Conference and its companion journal are devoted to those intangible drivers which determine not only the livability of organizations for insiders, and their credibility and attraction to outsiders; but also their tangible results in the form of efficiency, effectiveness and productivity. The intangibles of knowledge, culture and change management do not appear on balance sheets, but ultimately do have an enormous impact on 'bottom lines'.
