## Student Print Management Coming in Fall Semester 2011

To better prevent waste and foster greater environmental awareness on campus, ITS will implement Student Print Management beginning in Fall semester 2011.

ITS is currently gathering data about student printing to determine an appropriate student print quota. At the end of spring semester a committee (composed of students and faculty) will recommend a print quota.

In the Fall semester 2011, students will be able to print the number of allotted pages, after which they will be able to buy additional printed pages through a secure Web page that is linked to their accounts. The cost per page will be 3 cents (for both single-sided and duplex printing).

To learn more about the print management program and how you can decrease the number of pages you print, please visit the ITS Print Management page:

<http://our.alfred.edu/its...>

ITS will also be offering a course on environmental printing practices which will be open to students and employees. Watch Alfred Today for further details.

Alfred University's Orientation program is designed to assist new students in becoming part of the AU community and to help them feel comfortable with academic and student life on campus. In order to accomplish this, we rely on Orientation Guides (OG), a team of enthusiastic and knowledgeable AU students who want to make a difference for their peers.

Being an OG is a volunteer position involving participation in training Aug. 22-24 and the Orientation program itself, Aug. 25-28.

Please consider volunteering for this great experience. Applications are due in the Office of Student Activities and Powell Campus Center, by 4:30 p.m., Friday, April 1.

### **Waste Diversion Programs?**

Hello,

For my senior project I am comparing data from a waste audit I did in fall of 2008 and fall of 2010. I am looking to describe any and all programs which could have affected what was put into, or diverted from, the waste stream.

Below are the programs I am aware of. If you know of any others which would affect the waste stream of the University between 2008 and 2010, please e-mail me at [kmd4@alfred.edu](mailto:kmd4@alfred.edu) and let me know.

Thank you!
