Student Print Management This Semester

To better prevent waste and foster greater environmental awareness on campus, ITS will implement Student Print Management beginning fall semester 2011.

Through the print management program, undergraduate students will be able to print 350 pages and graduate students will be able to print 800 pages/semester. After students have exceeded their print limits, they will be able to buy additional printed pages through a secure Web page that is linked to their Banner student accounts. The cost per page will be 3 cents (for both single-sided and duplex printing).

To monitor your printing balance and purchase additional printed pages, you can go to <http://my.alfred.edu/> and click on "My Printing" on the left navigation menu.

To learn more about the print management program and how you can decrease the number of pages

you print, please visit the ITS Print Management page:

<http://my.alfred.edu/its/...>

ITS will offer a course on environmental printing practices which will be open to students and employees. Watch Alfred Today for a schedule of dates and times.

ITS will also offer individual instruction to classes and faculty on technology-based tips to conserve paper printing.

For additional details about this individualized instruction, contact Meghanne Freivald, at freivald@alfred.edu.

Outdoor Warning Sirens Test

Alfred State College has scheduled a test of its outdoor warning sirens on Wednesday, Aug. 31 at 10:10 a.m.

In the event of life threatening emergencies, Alfred State will activate the outdoor warning siren. Any emergency that causes ASC to sound its alarm also has the potential to affect people on our campus. If and when you hear the siren, you should immediately return to a known safe, indoor location.

Information about the emergency, including instructions about what to do, will be communicated via NY Alert. If possible, other methods will be used including WALF broadcasts and postings on entrance doors to academic and residence hall buildings.

Siren Test Wednesday, Aug. 31 at 10:10 a.m.

Familiarize yourself with the siren by listening to the attached audio file.

Planning Publications or Web Pages? Identity Standards in Place

As communications become more varied, more complex, and more frequent in the 21st century, clarity and consistency in communication becomes increasingly more important. The guidelines were developed to help to consistently convey the brand that is Alfred University to our key target audiences. A unified visual presentation benefits all of us by establishing a clear and direct association between our many and varied components.

By adhering to these standards, all divisions, departments, and offices will help project an image of cohesiveness and excellence that plays an important role in attracting high-quality students and faculty. Maintaining this image conveys the sense of stature, history and quality for which the University is known.

The Visual Identity Standards are administered and periodically updated by the Visual Identity Standards Committee. They are responsible for overseeing the University's graphic identity system, maintaining visual standards, and approving use of any representative mark or symbol. This applies to all forms of communication in print, web, and video. Units within the University are permitted to use the Alfred University name and its marks and symbols, according to established guidelines, for purposes of recruitment, development, or general promotion of the institution.

The Visual Identity Standards Committee will consist of the Director of Communications, the Director of Publications/University Designer, the Director of Marketing and the Webmaster. The Director of Communications will serve as chair.

Increase in Internet Bandwidth

ION is currently estimating that the WNY network, which goes through Alfred, will be completed by mid fall 2011 and we could have increased Internet connectivity by Spring semester 2012. Over the last year, ITS has been working with a company called ION to increase Alfred University's bandwidth. ION received a federal stimulus grant to increase Internet connectivity throughout New York State.
