### Experimental Documentaries by Video Artist Ghen Dennis

A screening and presentation by Ghen Dennis will take place Tuesday, Oct. 25, 1:30 P.M., Harder 427.

Informed by early cinema, feminist film theory, and experimental documentary forms, Ghen Dennis' film and video work takes an interest in ideals around technological invention, empire, travel, and the social organization of private and public space. Her hand-processed films, videos and sound work evoke an aesthetic of the excavated or found object and tell alternate stories of politicized actual spaces, most recently post-Katrina New Orleans.

### Help to Restock Women's Shelter in Owego

AU graduate student Julie Ilowiecki is raising support for Domestic Violence Awareness Month by organizing a drive for the women's shelter in Owego, which was badly damaged in the recent flooding.

In the aftermath of the recent upstate New York flooding, the women's shelter in Owego is without many basic essentials. Ilowiecki is working with John Dougherty, AU chief of Public Safety, to collect items to support the shelter and help its staff and residents recover from the loss.

Items to be collected in the drive include household items such as dishes, pots and pans; bed and bath linens; personal care products, including baby diapers, shampoo, soap, toothbrushes, deodorant and personal hygiene products; and children's books and toys.

Collection boxes are located at the AU Lea Powell Institute for Children and Families, Sayles Street,

Alfred; the AU Wellness Center, Park Street; the Science Center; and the Powell Campus Center at the Domestic Violence Awareness table.

### Lecture: Frankenstein Lives! The Continuing Relevance of Mary Shelley ♦s N

Speaker: Dr. Timothy Madigan, St. John Fisher College  
Tuesday, Oct. 25 at 7 p.m.  
Nancy Howe Auditorium  
David A. Howe Public Library  
155 N. Main St., Wellsville  
585-593-3410

Written almost 200 years ago, "Frankenstein" is a story of a man obsessed with creating artificial life. Yet some basic themes of Mary Shelley's novel eerily echo today's discussion on fetal tissue research, artificial intelligence, life-extension, and human cloning. This talk addresses why the novel continues to fascinate us, and why the story of Victor Frankenstein and his tortured creation lives on in popular culture.

This library-sponsored program is free and open to the general public.
