IEA Artist in Residence: Blake Marques Carrington

May 22-26, 2017

The Institute for Electronic Arts at the School of Art and Design of the New York State College of Ceramics

Sponsored by: The Institute for Electronic Arts and the Division of Expanded Media

Blake Marques Carrington will be joining the IEA for an artist residency over the week of May 22nd. Based in Brooklyn, NY, Blake holds an MFA from Syracuse University and works across a wide range of media including digital printmaking, audiovisual compositions, live visuals to accompany performances, and video installation user self produced custom software - all falling a heading he calls "Speculative Forensics". Focusing on the question "can information be lost?" Blake often translates his creations from one medium to another, asking the question of how accurately it could possibly return its original form.

Blake is looking forward to exploring the IEA's sound studio facilities to focus on a couple of full-length albums that are currently in progress. He plans to experiment with the IEA's equipment, including our modular synthesizers, through openness and play while exploring new means of making. Local and student musicians are invited to jam sessions and collaborate on albums and tracks in progress.

The Institute for Electronic Art's Visiting Artist Program is sponsored in part by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.

Chemical Waste Removal

The spring/summer chemical waste removal will occur during May 2017. Both hazardous and non-regulated waste will be accepted.

All chemical waste must be received in your respective Central Accumulation Area (CAA) no later than Thursday, May 25, 2017. All colleges (Harder Hall, McMahon, and Myers CAAs) contact Dean Perry x 2196 or Travis Reed x 2190 for receipt of your hazardous and non-regulated chemical waste.

Completed Hazardous Waste and Non-Regulated Waste Log Forms MUST be sent to EH&S no later than Thursday, May 25th and may be mailed (117 Myers Hall), faxed to x2086, or scanned and e-mailed to: perrydr@alfred.edu. The hazardous waste packers must have this information prior to packing to obtain required approvals from the disposal facility.

All Satellite Accumulation Area labels MUST be filled-out completely with EPA# for respective college, building name, Room # or area name, start date, initials, chemical name(s) of constituents in the accumulation container with volume or weight, and waste characteristics prior to receipt in Central Accumulation. Note: Per EPA regulations you have only 72 hours from an SAA full date to transfer the container to the proper CAA. SAA containers must be capped or sealed with container lid, have clean exterior, and SAA label easily legible. If you have any questions, contact Dean Perry.

All Satellite Accumulation Areas must be empty prior to May 29th, with a notation to that effect made on your submitted May 2017 Satellite Accumulation Area Weekly Inspection sheet. Reminder: Any SAA's which collect waste during the summer and are not empty over the summer must have the weekly inspection log maintained and submitted to EH&S on a weekly basis.

Hazardous and Non-Regulated Waste Log Forms are available at <https://my.alfred.edu/ehs...> under the heading "EH&S Forms".
