Students Giving Money and Time to Build Running Track

BOOSTERS SHOW GREAT SPIRIT

Interest in track is steadily increasing. This sport is Alfred's latest intercollegiate activity, and its popularity here is bound to grow. A special meeting of the Track Club, held for 7 o'clock tonight at Kenyon Hall, will discuss student labor for the building of the new board track.

The actual site of the track, just south of the tennis courts, was surveyed last week by Mr. Conroe and three members of the Board. Friday afternoons are in position for supports, and $300 worth of equipment is needed before the spring. This will soon be a reality.

ASSEMBLY DANCE MARKED BY FOOTBALL AWARDS

Winners of Varsity Sweaters Cheered During Intermission

LARGEST SOCIAL EVENT HELD THIS YEAR

Academy Hall, attractively decorated in purple and gold, was the scene last Thursday evening of one of the most enjoyable dances ever held in Alfred. It was another instance of the success of the student body at planning events. The3.50 was raised.

The dance attendance from the surrounding towns was a further proof of the growing popularity of Alfred dances. No small credit for the favorable result belongs to Merriam's Orchestra whose excellent music left nothing to be desired.

LADIES' AID TO GIVE PASSERS A FAVORABLE PLAY

"LITTLE WOMEN" THIS THURSDAY EVENING

The famous four-act play "Little Women," to be given Thursday evening at Piemans Hall for the benefit of the Ladies' Aid, is one play which seems to always gain in popularity. The secret of its appeal is easily explained. It has been worked over and polished many times until it is perfect. Those who have never seen "Little Women" are urged to be at Piemans Hall Thursday evening. Many people will be glad to see it the second and third times.

PASSERS APPEAL TO TAKE FIVE-GAME-TRIP NEXT WEEK

TEAM LEAVES NEXT TUESDAY

The next Varsity game, scheduled with Rochester College of Optometry, for Wednesday evening, Feb. 15, is one game to be played on the preceding evening at the Rochester. It was necessary for the Rochester team to play a game on that evening but was not available. The visitors were positively told that they would play at 7 p.m. on Wednesday, Feb. 15.

STUDENT FRIENDSHIP CAMPAIGN OPENS AT ASSEMBLY

Goal Set at $600

HONOR SYSTEM BROUGHT UP FOR DISCUSSION

Able and sincere appeals for the Student Friendship Fund were made at Assembly Wednesday morning by Virginia Randolph, representing the Y. W. C. A. and Don Fredrick, president of the Y. M. C. A. A goal of $600 has been set, and if this amount can be raised it will provide two scholarships at Roberts College, Constantinople, and aid two needy students now at Corn- holt.

Following the Assembly, a student body meeting was called to discuss the Honor System. Coach Webber and Dr. Ferguson also brought news of the board track.

The new college catalogue has been prepared, and will soon be available to those students who wish them.

THIEL QUINT WINS ANOTHER GAME FROM VARSITY

Visitors Show Speed and Team Work

STANTON HAS UNACCOUNTABLE SKILL IN SHOOTING}

The game was called at 3:15 and for several minutes after the starting whistle was blown and the ball given to the initial time by the referee, it looked as if the game would easily go to Alfred. The Purple five by means of lightning quickness and fast shooting worked the ball after time after time to their own end of the court where an easy lay-up would be taken, but the ball would fall into the hands of the Pennsylvania team. The Thiel team scored several times and the Purple was in the lead by three points, but for the first five minutes the Al- fred team seemed to have lost all courage. They put their shoulder to the part of the Purple passers, and resulted in a final score of 28-26.

Girls' VARSITY, FIRST GAME, BEATS THE WELLSVILLE HIGH 18-9

Team Composed of Under- class Girls Plays Well

Last Wednesday night as a preliminary to the regular Varsity game between Alfred and Thiel, the girls Varsity basketball team defeated the Wellsfield high school girls by a score of 18-9, in one of the fastest girls games ever witnessed on the Alfred court.

The scoring was started by Miss Teal, shortly after the beginning, and each team scored a third. At the end of the first half the score stood 19-16 in favor of the Wellsfield team. The second half was nearly a repetition of the first except that in this period the Wellsfield team took a little more time in registering seven points.

A great deal of the credit for this success must go to the efficient guarding of the Alfred team.

The Wellsfield girls played hard and well, but their weakness seemed to be in their inability to shoot, and their unfamiliarity with girls rules. Many times the visitors girls, by clever passwork, would work the ball under their basket, but would lose it again when an easy shot was missed. The visitors being unusual to girls rules were fooled many times.

From A Faint Blue Glow
To Modern Miracles

EDISON saw it first—a mere shadow of blue light streaking across the terminals inside an imperfect electric lamp. This “flick” of electric current, an obstacle to lamp perfection, was soon banished by removing more air from the bulbs.

But the ghostly light, and its mysterious disappearance in a high vacuum remained unexplained for years.

Then J. J. Thomson established the electron theory on the transmission of electricity in a partial vacuum—and the blue light was understood. In a very high vacuum, however, the light and apparently the currents that caused it disappeared.

One day, however, a scientist in the Research Laboratories of the General Electric Company proved that a current could be made to pass through the highest possible vacuum, and could be varied according to fixed laws. But the phantom light had vanished.

Here was a new and definite phenomenon—a basis for further research.

Immediately, scientists began a series of experiments with far reaching practical results. A new type of X-ray tube, known as the Coolidge tube, soon gave a great impetus to the art of surgery. The Kinetron and Photron, followed in quick succession by the Dynatron and Magnetron, made possible long distance radio telephony and revolutionized radio telegraphy. And the usefulness of the “faint” family has only begun.

The troublesome little blue glow was banished nearly forty years ago. But for scientific research, it would have been forgotten. Yet there is hardly a man, woman or child in the country today whose life has not been benefited, directly or indirectly, by the results of the scientific investigations that followed.

Thus is that persistent organized research gives men new tools, makes available forces that otherwise might remain unknown for centuries.

FOOTLIGHT CLUB WORKING HARD ON JULY 4TH

Much progress is reported in the rehearsals of the Footlight Club play, "The Importance of Being Earnest." The Club members are eager to give this English farce by Oscar Wilde its best performance, and hope that it will be a great success.

The emphasis of the rehearsal is on the comedy and the character work of the actors. The costumes are being carefully selected and the scenery is being prepared. The set is to be a drawing room, and the play opens with a party scene.

The cast includes: John Smith as Algernon Moncrieff, Mary Brown as Gwendolen Fairfax, and Harold Davis as Cecily Malloy. The play opens on July 4th at the Firemen's Hall.

THIRD PLAY: "THE IMPORTANCE OF BEING EARNEST"

The third play of the Summer Stock season is "The Importance of Being Earnest" by Oscar Wilde. Rehearsals are in full swing at the Firemen's Hall, and the opening night is set for July 4th.

The cast includes: John Smith as Algernon Moncrieff, Mary Brown as Gwendolen Fairfax, and Harold Davis as Cecily Malloy. The play opens on July 4th at the Firemen's Hall.
