

MUSICAL ASSEMBLY THE NEW CHEMISTRY WINS HEARTY APPLAUSE BUILDING WILL OPEN APPLAUSE SOON

Mrs. Seidlin a Most Popular Entertainer

ATTENDANCE LARGE

On last Wednesday morning Agricultural Hall was the scene of one of the most interesting assemblies we have held this year. The musical program presented by Mrs. Seidlin was very fine and it was delightfully annotated with talks on contemporary composers and their music. Moszkowski, Debussy, Rachmaninoff, Paderevski, and MacDowell were discussed. Of all the selections given the work of Debussy, as played by Mrs. Seidlin, was perhaps most appealing to those in attendance. Everyone felt keenly the picturesque quality in the music and all were highly appreciative of the splendid work.

Considerable enthusiasm was shown by all those present and it is hoped that Mrs. Seidlin will consent to play again in assembly at some time during the year.

KLAN ALPINE HOLDS ANNUAL SLEIGH RIDE

Supper and Dance at Almond

A party of eighty people, composed of members and guests of Klan Alpine Fraternity enjoyed a sleigh-ride to Almond Thursday night. The merry-makers left the Fraternity house at five o'clock, and, despite a fine drizzle of rain and slush-filled roads, gave every evidence of a lack of dampening of spirits, throughout the trip down. When the sleighs drew up with their occupants before Woodman's Hall, a delightful and bountiful supper was waiting, due to the excellent work and plans of the ladies of the community. It is needless to state that the supper was appreciated.

Directly following the repast, all adjourned to the dance-hall where "Benny" and "Jimmy" presided. These two popular musicians were at their best and kept the dancers well-supplied with music until ten o'clock, and the dance was not the least feature of the evening.

All too soon were the sleighs drawn up and "re-loaded" and the jolly group set out for Alfred, to arrive there happily satisfied that the sleigh-ride had been a decided success.

YEAR BOOK STAFF MAKES FINAL APPEAL

Last Chance To Order Copies

PICTURES ON SALE

The final campaign for subscriptions for the 1914 Kanakadea will begin tomorrow when an opportunity will be given those who have failed to order their copy, to do so after Assembly. That all the copies ordered by the Board will be sold, there is no doubt and it behooves those who have not placed an order as yet to do so Wednesday morning.

The Kanakadea pictures will again be on exhibition Wednesday afternoon in the basement of the library and orders will be taken at that time.

Great Improvement Over Old Lab.

PREPARING TO MOVE

University students are looking forward with pleasure to opening of the new chemistry building. It is fast nearing completion and it is expected that in the near future it will be ready for use. Conditions in the old laboratories have become so congested with the increase in registration that it is nearly impossible to accomplish the work that should be done. In addition to this, the apparatus is in a bad state of repair. Many other factors make all concerned anxious to see the new building opened for use so that these difficulties will be removed. Enough additional apparatus such as laboratory tables, has been purchased to increase the capacity of the chemistry laboratories at least fifty per cent.

There will be five new tables in the inorganic laboratory which should well accommodate the present number of students. An automatic hydrogen sulphide generator will be installed which is piped directly to the hood, thereby eliminating much of the unpleasant odor and inaccurate work caused by the leakage of the gas in the old labs.

In addition to the large lecture room, which is equipped with a large lecture-demonstration table, there will be one small balance room, a room for issuing supplies to students and a store-room.

The building is to have as modern equipment as possible throughout and although it is not considered in any way elaborate or luxurious, it will permit efficient and thorough instruction and experimental work.

DELTA SIGMA PHI INITIATES

Installation Banquet One of Largest

ALUMNI PRESENT

The installation of Alpha Zeta Chapter of Delta Sigma Phi was commemorated last Saturday evening at their home by the formal initiation of ten new members, followed by their fourth annual banquet.

Over forty active, alumni and faculty members of Delta Sigma Phi were in attendance at the banquet. This was served, under the direction of C. E. Smith, at 6:30 P. M. Between the courses the banqueters were well entertained by the "Delta Sig Banjo Trio." One number made up of several appropriate, even though somewhat personal ditties, composed and rendered by George Blumenthal '20, made a tremendous hit.

Following the coffee and mints, Pres. Campbell gave a brief summary of Delta Sig's activities during the past year. Acting as toastmaster he introduced the speakers of the evening to discuss these various phases in detail. Johnny Clarke '20, seemed a fitting choice to open the session by telling of the "good old days." While

Feb. 24—Jamestown at Jamestown.
Feb. 28—University of Buffalo at Alfred.
March 3—Rochester School Optometry at Rochester.

INTER-MURAL LEAGUE GOING STRONG

Ag Seniors and College Juniors Undefeated

INTEREST GROWS

The Juniors by annexing their third victory, took a firm and possibly secure hold on first position. The other three teams are closely bunched below the mark. Two bitter and hard fought battles brought the largest number of students to Academy Hall than has attended any other inter-class contests.

The first game, between the Juniors and Seniors, ending in a 15-11 victory for the Juniors, was all that was predicted and hoped for. The contest may be characterized as the roughest and best-natured inter-class game seen on the court this year. The Juniors got away to a fast start and kept the upper class from netting a field goal during the initial half. The Juniors led at the end of the half, 8-2. With three years of an unrivaled class athletic tradition back of it, the Seniors fought gamely to overcome the lead. By the time they had closed the gap to within two points, playing became fast and furious, with particular stress on the latter. A basket from the field by Drummond, in the last two minutes of play ended all possibilities of a Senior victory.

Though not fanned by the class rivalry of two previous years, the underclass battle was no less bitter. After two extra periods of playing time, the Frosh emerged at the top of a 24-20 score. The Sophs had a two point margin at the close of the first half but the underclass closed this up to an even score 16-16, at the close of the game. Five minutes more of playing gave each one more point. The last period, the Frosh took the lead by a four point margin.

AG GAMES

No progress as regards the games played was made in the Ag League for the past week. The only scheduled

WESTMINSTER HERE THURSDAY

Pennsy Five Has Long String of Victories

VARSITY OUT FOR REVENGE

After a two weeks' period of inactivity, the Varsity five clashes with Westminster, next Thursday night at Academy Hall.

It is reasonably safe to predict that this will be one of the best battles, if not the best, to be seen on the Alfred court this season. The Pennsylvania aggregation is coming here with a fast growing string of victories which upon last report numbered six. Among these are wins over West Virginia, Thiel and Geneva. * As Westminster started this line of victories by defeating Alfred at New Wilmington, three weeks ago, the Purple quint is especially anxious to chalk up a defeat on the visitors' Scoreboard.

Though Westminster has defeated the Varsity in the initial game and has scored wins in recent games, Alfred followers have no reason to despair.

As the Varsity's margin of defeat was but two points, and this on a strange floor, the outcome of the match can easily be seen to be problematical. Granting that Westminster has undoubtedly taken wonderful strides forward, the same can easily be said of the Alfred five. In the last game a decided and marked improvement was noticeable. Coach Wesbecher has spent the last two weeks in smoothing off the rough edges and developing the team as a whole. Weak spots have been remedied and the best quint that has ever represented the Purple and Gold in the past few years, will take the floor next Thursday night.

* Ed. Note—Westminster's string of victories was broken last week, however, by a three point defeat by University of Pittsburgh.

WRESTLING TEAM HAS WORKOUTS

New Sport Is Popular

MANY CANDIDATES

Wrestling, one of the most important and popular of indoor collegiate sports, bids fair to become firmly established in the athletics of Alfred University.

All indications point to the fact that a wrestling squad is to become a reality. Its popularity is due to the physical development of the contestants and the interest of the spectators. Because of this interest, wrestling is gradually creeping into the smaller Universities where indoor sports are restricted. Coaches of all branches of athletics heartily endorse this sport on account of the physical fitness derived therefrom. It forms fine training for all men, especially football and track men during winter months where other forms of training are impracticable. The sport is one of the few where there is no chance for serious physical injury to the contestants.

The wrestling squad of A. U. will have opportunities that very few of the smaller universities and colleges enjoy. Professor Seidlin, who was intercollegiate champion and a Cornell letter man, is interested, and will coach the squad. He will work out with the light-weights and the welter-weights while Coach Wesbecher will devote his time to the development of the heavy-weights. Alfred is very fortunate in having a number of men who have had previous experience.

An inter-mural match is being arranged for the near future which

Continued on page four

game was postponed to the later date. That the Seniors have clinched the flag, however, there is scarcely any doubt.

SECOND ASSEMBLY SATURDAY NIGHT

Plans Being Made For Year's Largest

The second college assembly dance dated for Saturday, Feb. 10th, bids fair to be the most enjoyable dancing party of the year. With the strain of mid terms eased and the accompanying period of social inactivity broken, all should prepare for a real good time.

The College orchestra of six pieces will furnish the music under the capable leadership of Benjamin Volk. No orchestra which has played here, is more popular than this pleasing combination.

The addition of Harry Okean, bass violinist, to the original five, has improved the orchestra immensely. Mr. Okean is an accomplished musician.

"CLARENCE" COMING THURSDAY

TARKINGTON COMEDY SHOULD MAKE HIT

Cast Includes Students

On Feb. 15, "Clarence," a four-act comedy by Booth Tarkington, the well-known American dramatist, will be presented in Firemen's Hall under the auspices of the Ladies' Aid Society. This play represents the true American humor characterizing its author and should prove a treat to all spectators. Below is given the cast of characters:

Mrs. Martyn Belle Sisson
Mr. Wheeler Charles Adamec
Mrs. Wheeler Ruth Whitford
Bobby Wheeler Harold Hamilton
Cora Wheeler Margaret Prentice
Violet Pinney Hazel Truman
Clarence Thomas Moor
Delia Frances Witter
Doniwiddie Frederick Gorab
Huber Stein Alvin Dunbar
Tickets are now on sale at Ellis' Drug store.

N. Y. S. A.

STUDENT SENATE NOTES

The following amendment to the School rules was adopted last Tuesday at a meeting of the Student Senate: No Special student will be allowed to participate in any class athletics outside the Freshman class until he has made the required number of credits of a class, that is, he must have 48 credits to play with the Junior class and 96 credits to play with the senior Class, otherwise, he must remain with the freshman class, regardless of the length of time he has been in school.

Suggested changes in the School rules should be handed to any member of the Student Senate before the end of February.

SENIOR CLASS PINS

The Ag seniors are wearing their new class pins and rings this week. The design is in the form of an oval. Around the border of the oval are the words "N. Y. State School of Agriculture, 1923" while in the center of the oval in raised letters are the letters, "A. U."

COUNTRY LIFE NOTES

At the election of officers to serve the rest of the term and the beginning of the next school year, the following were elected: president, Elizabeth Stow; vice president, Mr. Waite; secretary and treasurer, John V. Humphrey.

Last Wednesday night a victrola dance was held at Ag School. About fifteen couples were present.

TAU SIGMA ALPHA

The Domestic Science girls of the Tau Sigma Alpha entertained at their Club for luncheon Feb. 2, the color scheme being red and white. Clever and appropriate place cards guided the guests to their seats. Mrs. Kenyon, matron of the club, acted as hostess.

Dot Schroeder and Katy Campbell spent Thursday night in Hornell at the home of Virginia Flint.

The Kitchen Band performed at the Home Bureau entertainment at Alfred Station last Saturday night. The trip each way was in the form of a sleigh ride party which included

Continued on page four

MORGAN HALL NOTES

The cabinet girls of the Y. W. C. A. gave a surprise for Fredora Moore Tuesday evening.

The Morgan Hall girls patronized the movies in Hornell Saturday.

Louise Gratz was a guest of Betty Robie in Cuba Saturday and Sunday. Margaret Kinney and Alma Wise were among those who enjoyed the Klan sleigh ride Thursday night.

BRICK NOTES

A short program was given Saturday night in "Utopia," the proceeds of which are to help furnish the recreation rooms on the fourth floor of the Brick.

Helena Crandall read several humorous selections to an appreciative audience. The feature of the evening was a short sketch written by Freddie Vossler, entitled "An Antitoxin for Love."

The acting was admirable, the various members of the cast interpreting their parts with skill and sympathy. The cast follows:

Mabel Harrington
Catherine Neuweisinger
Donald Dwight Edith Teal
Maid Edith Jones
Porter Eleanor Craig

Ruth Dean of Hornell spent the week-end with Anna Martin and Constance Spalding.

"The way of an Eagle in the air"

CENTURY after century men broke their necks trying to fly. They had not troubled to discover what Solomon called "the way of an eagle in the air."

In 1891 came Samuel Pierpont Langley, secretary of the Smithsonian Institution. He wanted facts. His first step was to whirl flat surfaces in the air, to measure the air pressures required to sustain these surfaces in motion and to study the swirls and currents of the air itself. Finally, in 1896, he built a small steam-driven model which flew three-quarters of a mile.

With a Congressional appropriation of \$50,000 Langley built a large man-carrying machine. Because it was improperly launched, it dropped into the Potomac River. Years later, Glenn Curtiss flew it at Hammondsport, New York.

Congress regarded Langley's attempt not as a scientific experiment but as a sad fiasco and

refused to encourage him further. He died a disappointed man:

Langley's scientific study which ultimately gave us the airplane seemed unimportant in 1896. Whole newspaper pages were given up to the sixteen-to-one ratio of silver to gold.

"Sixteen-to-one" is dead politically. Thousands of airplanes cleave the air—airplanes built with the knowledge that Langley acquired.

In this work the Laboratories of the General Electric Company played their part. They aided in developing the "supercharger," whereby an engine may be supplied with the air that it needs for combustion at altitudes of four miles and more. Getting the facts first, the Langley method, made the achievement possible.

What is expedient or important today may be forgotten tomorrow. The spirit of scientific research and its achievements endure.

Entered at the Alfred Post Office as
second-class matter.

Where is the old pep? That is
what Prof. Wingate wants to know.
And while it doesn't take any Profes-
sor in music to see that singing in
Assembly has taken a decided slump
this year, this natural query, never-
theless aids in emphasizing the prob-
lem.

That this lack of spirit is principal-
ly due to unfamiliarity with the songs,
j Prof. Wingate believes. Therefore
the natural suggestion, so often heard,
i follows: "Bring your songbook." This,
applies to all classes as the volume
of sound in all quarters of the hall
seems to be wonderfully harmonized.

In connection with this subject and
also touching another problem regard-
ing College pep, another suggestion
has been offered by an observer. This,
to the effect that the cheer-leaders
be given the platform for about five
minutes, before the singing is schedul-
ed.

That this would raise the efficiency
and volume of the music for the fol-
lowing ten minutes is probable. The
fact that the cheer-leaders could prob-
ably not be induced to wear those
white trousers ought not to detract
much from the old fight put into the
opening part of assembly.

Acting upon the last suggestion
would also serve a second purpose in-
tending toward increased efficiency in
the organized cheering of the student
body. The signs of life exhibited in
the last basketball game is worthy
of comment and is a marked advance
upward along this line. Those who
have given the matter any considera-
tion, believe that further improvement
in this department should follow.

It is hoped that Prof. Wingate, with
the support of the student body, will
be enabled to carry out these two sug-
gestions, and thus secure a two-fold
advantage. Certain it is that nothing
so saps the spirit and life of a college
as half-hearted singing or cheering.

Several rods southwest of Burdick
Hall and in the east central portion
of that specified section of the campus
which is denied the freshmen, there
stands a pole projected vertically
heavenward, some sixty-five feet. It
is built of iron pipe several different
sizes coupled together and tapering
toward the upper end. It is sur-
mounted by what was once a shining
brass ball.

This article of college paraphernalia
greatly resembles a giant projected
telescope with the eyepic pointing up-
ward. It is a curious bit of apparatus

and its exact relation to the college
curriculum has become, of late, the
subject of much conjecture. It is
well cared for. Every few years a
gang of men is hired to lower this bit
of iron pipe to the ground, when a
fresh coat of shiny green paint is
properly administered to the exterior
surface. After the paint has suffi-
ciently dried, the pole is again rais-
ed where it again sways peaceably in
the breeze until the next coat is due
as the next class moves up.

As has been mentioned, this pole
is the subject of much conjecture.
Some say that it was placed on the
campus for the use of the mathematics
department, as a problem in surveying.
Others say that the ball at the sum-
mit is merely the target for aspiring
young marksmen about the village,
and true it is that the once shiny
dome is now dented in many places
by the bullets of mischievous young
sharpshooters. It is also stated that
this piece of landscape architecture
was placed where it is by the Univer-
sity Trustees solely for the use of the
underclasses for the display of class
numerals, and for the purpose of cre-
ating keen class rivalry; a most logi-
cal conclusion. When the class of
'25 moved up, its members hoisted the
American flag where so often flutters
before the wind the story of a class
victory.

At least, it is a well-preserved bit
of mechanism and the rope dangling
therefrom will never be frayed from
hoisting the stars and stripes.

THE ENGLISH CLUB MEETS WEDNESDAY

MISS LAIR TO REVIEW BOOK

Another very interesting program
is in store for the English Club meet-
ing at 7:30 Wednesday evening in the
English room. There will again be
movies; this time Dickens' "The
Cloister and the Hearth" and Elliot's,
"Adam Bede," will be shown. In
addition Miss Lair will review a book.
An informal discussion will probably
follow.

With the present program the Eng-
lish Club has plenty of entertainment
combined with its educational fea-
tures. Therefore those who have
not yet joined and are interested in
the problems studied should apply.

SENATE MEETING January 30

The meeting was called to order
by the president, the minutes of the
last meeting were read and accepted.

The following dates were placed on
the calendar:

April 12—Footlight Play

April 21—Theta Theta Chi Banquet

April 28—Frosh, Soph plays.

Attention is called to Article III,
Sec. I of the Honor System—Anyone
detecting a violation of this Honor Sys-
tem shall rise to his feet and give
an immediate, impersonal, public
warning to that effect—No more than
two such warnings shall be given to
any one student during an examina-
tion week, etc.

This applies to a short quiz and to
mid-terms as well as to finals.
Adjournment.

NOTICE

Those mailing contributions to the
Fiat should remember that no article
will be published until it is signed.
Merely a nome de plume will not do.
This has always been the policy in
the past and to avoid trouble this
rule will be adhered to as usual this
year.

ROBERT M. CAMPBELL TO SPEAK AT CERAMIC CONVENTION

SENIOR ENGINEERS PLAN- NING TO ATTEND

Pittsburgh This Year's Meeting Place

Ten students in the Ceramic School
are planning to attend the Twenty-
fifth Annual Convention of the Ameri-
can Ceramic Society which will be
held this year at Pittsburgh on Feb-
ruary 12 to 16. The Ceramic Society
publishes every year, a journal of its
meetings which is invaluable to the
Ceramic student since every phase of
the Ceramic industry is discussed,
and papers given on every subject.

While in former years the Con-
vention has been of more or less
importance to the students of the
Ceramic School at Alfred, it takes on
an added meaning to the school this
year because Robert M. Campbell '23,
is to give a paper at this year's meet-
ing.

Mr. Campbell's paper gives an ac-
count of the work in which he was en-
gaged this summer. Assisted by Leon
Smith '23, and supervised by Frank
Lobaugh, a former Alfred student,
Mr. Campbell conducted an investi-
gation on kiln burning at the Roches-
ter Clay Products Co., at Rochester,
Pa.

Besides Mr. Campbell, there are
several Alfred students who intend
to visit the convention this year.

SECOND COLLEGE ASSEMBLY

The second college assembly will
be held at Alumni Hall, Saturday, Feb.
10th, at 8 P. M. Music by the Col-
lege Five. Bill \$1.25. For college
people only, except by invitation.

ALUMNI

Milo B Greene, ex-'69 is recovering slowly from a severe attack of the grip.

The funeral of Frank G. Place ex-'80 was held at the home Saturday, Feb. 3d.

Born, Jan. 19th, to Mr. and Mrs. Ivan L. Fiske of Bradford, Pa., a son, Gordon Lyman.

Miss Iola Lanphere '20 of Silver Springs was a week-end guest of friends in town.

Frank C. Shaw '07, of Caledonia, N. Y., was greeting friends in Alfred, Tuesday, Jan. 30.

Adolph Vossler '20, of Wellsville stopped in town for the Delta Sigma Phi initiation and banquet.

John dark '20, came up from Johnsbury, Pa., where he is teaching, for the Delta Sig banquet and initiation.

B. Colwell Davis, Jr., '20, left Alfred recently for Detroit, Mich., where he has a position with the Packard Motor Co.

Mrs. Milton Carter '24, of Reynoldsville, Pa., is visiting her parents, Mr. and Mrs. Wm. H. Langworthy, at Alfred Station.

Clesson O. Poole '18, of Binghamton was a recent Alfred visitor. New York State is his present territory for the Aluminum plant with which he is connected.

Helen Chaffee '22, Verda Paul '22, Gladys Stephens '22, Margaret Marley '22, were in town over the week-end after attending the Teachers' Conference at Hornell on Friday.

Alumni will be interested to know that Treasurer Curtis F Randolph of the University, who underwent an operation recently for an infected gland of the neck, returned home from the Bethesda Hospital, Friday, Feb. 2.

The Fiat takes great pleasure in reporting the birth of a daughter to Mr. and Mrs. Hubert Bliss of New Bedford, Mass. Hubert Bliss '17 and his wife, formerly Julia Wahl '18, each held the editorship of the Fiat Lux for a year.

Miss Bessie Lee Gambrill, Professor of Philosophy and Education at Alfred, 1909-12, and who has since been head of this same department at New York State Normal College, has recently been appointed assistant professor at Yale Graduate School.

PERSONALS

Dean Paul E. Titsworth preached in Canaseraga in the Union Baptist-Presbyterian church last Sunday.

Tomorrow night there will be a meeting of the Wee Playhouse for the purpose of reading plays for future presentation.

The reading recital which was scheduled to be given by Mrs. Mix's class tonight, has been postponed until Feb. 27.

Dean Titsworth, Prof. Seidlin, Prof. Wingate and Director Champlin attended the fourth annual conference of principals and teachers held in Hornell last Thursday. Prof. Wingate directed the singing for the day. Director Champlin, Prof. Seidlin and Dean Titsworth also took part in the day's program by addressing sections in Agriculture, English and Mathematics.

Y. W. C. A.

The meeting Sunday evening was led by Evelyn Tennyson. The subject was "The A B C of Christianity." Poems were read which illustrated the points which were brought out and a helpful talk was given by Evelyn.

Next Sunday's meeting will be on "Seven Candles of the Orient" led by Margaret Gross.

DELTA SIGMA PHI INITIATES

Continued from page one

not saying so in as many words, he gave the impression that those were the days when the Registrar's office didn't spend as much time in juggling figures.

McMahon, Ahern, Stryker, Holley and Dunbar spoke at some length, during the evening and placed the problems of the chapter before the members from all angles. Drake '26, spoke regarding the impressions of the new members.

Director Binns spoke on "The Relations of Faculty to Students," while Director Champlin traced the growth of athletics in Alfred. He put in a plea that Alfred men be on a continual outlook for athletes and to see that they were given a right start in life by being sent to Alfred.

Dr. Norwood, while covering amply his rather technical subject, "Finances of the Chapter," did not disappoint his listeners by confining himself solely to his topic.

In conclusion, the toastmaster introduced President B. C. Davis as the main speaker of the evening, speaking on "Fraternalities and their Ideals," and presenting to the new Delta Sigs, as well as to the old men, much material for thought, as to what their fraternity should mean both to them and to the outside world.

Faculty members "present at the banquet were President B. C. Davis, Director C. F. Binns, Dr. J. N. Norwood, Director A. E. Champlin, Prof. J. B. Shaw and Prof. C. Potter. Alumni members attending were Johnny Clarke '20, Duff Vossler '20, and Chas. Smith, Ag '18.

The ten new members who received final initiation into the fraternity were: Miles E. Drake '25, J. Lawrence Grady '26, Gordon L. Borden '26, Paul R. Babcock '26, Lawrence C. Lobaugh '26, Paul G. Kelley '26, Frank A. Daly '26, Chester P. Lyons '26, Robert B. Martin '26, Frederick L. Coots '26.

LAURA B. GARRETT

For two successive years Laura B. Garrett gave lectures in Teachers' College, Columbia University, New York. She is recommended highly by Charles Eliot of Harvard and many other educators in the East. Philemon F. Sturges of Morristown, N. J., writes to Mrs. Garrett: "I have seen what a deep interest you have created in the three very different groups you have had under instruction, and all those to whom I have spoken of your talks testify to the stimulating and reverent methods of your presentation of a vital subject." Richard C. Cabot of Boston says: "I feel that the greatest benefit to your hearers will come from your contagious enthusiasm and as that enthusiasm is aroused by the contemplation of nature, you will be likely to convey a similar enthusiasm to your pupils and thereby help them to better ideals of conduct in matters of sex, as well as every other direction." These are but a few of the very many kind words that come to us with regard to Mrs. Garrett, who is to be with us in Alfred so soon. Let us make it our personal responsibility in making her few days here worthwhile for ourselves and for our friends.

WRESTLING TEAM HAS WORK-OUTS

Continued from page one will include all of the seven classes. The winners of each of these and the runners-up will receive points towards their numerals.

A room on the first floor of the Gym has been equipped with a mat, and set aside for the squad. These quarters will be open at all times and all men interested in this sport should report here Wednesday at 5 P. M. A large number of candidates is expected, and the squad will serve as a foundation for an intercollegiate team to come later.

several male members of the Ag School.

The class of Rural Teachers attended a Teachers' Conference at Hornell last Friday.

Special comment can be made on the neat and attractive pins the Ag girls have adopted for the Tau Sigma Alpha. They are a narrow and long, plain pin with a black center, surrounded by a band of gold and greek letter Tau Sigma Alpha in gold upon the black center. The girls are to be congratulated on the progress they have made with the Ag Sorority this year and the rest of the student body joins in wishing them success for the coming years.

TUESDAY ASSEMBLY

Coach Wesbecher gave an interesting paper on Football last Tuesday at Assembly.

The following seniors will have charge of Assembly Thursday morning: David Smith, Lela Thornton, Percy Stentford and Lale House.

A LITTLE BIRD TOLD ME

The other day while waiting for a class in the dairy building Jack Cornwell tried to weigh himself. He found that with his own shoes on, he weighed 220. With them off he weighed 184 pounds and that the overshoes themselves weighed about 2 pounds. Now we leave it to your judgment, doesn't it prove that something is either wrong with Cornwell, the scales or his overshoes?

Prof. Robinson has started to test out the incubators in preparation for the spring hatching season. The different students had to test out their own incubators and regulate them. The following morning, the Ag School janitor did not have to get up steam for the school, because most of the class had a good head of steam in their incubators and piping it up was the only difficulty in heating the School the next morning.

The present grip epidemic has offered a good alibi for heavy sleepers to stay away from eight o'clock classes.

Mr. McAhon has solved the high cost of living. Now he buys his

bread at Wheaton's and orders coffee at Andy's to drink while he eats the bread. Mac has not fully recovered, from trying to find an Irish produce dealer in New York.

Kratsel went to sleep in the post office with his hat in his hand last Wednesday and when he woke up he found he had two dollars and four cents. Frank Lampman thought he would try that at Ellis' Drug store but the best he could do was four Wrigley wrappers, a bar of bad chocolate and two El candies.

Watch out or next week the little bird may see you doing things.

Betty Stow (pardon the little bird,) President Stow of Country Life, made a very effective and blushing speech of acceptance and thanks when she was installed as president of that organization. Brainard was heard to say yesterday, "Uh uh uh uh uh uh." A nickles worth of peanuts to the man who solves the mystery. Joe

Laura requests that everyone refrain from, looking at him in the library as it makes him laugh.

What will the little bird see next week?

PUBLIC SALES

We have purchased 22,000 pair U. S. Army Muuson last shoes, sizes 5% to 12 which was the entire surplus stock of one of the largest U. S. Government shoe contractors.

This shoe is guaranteed one hundred per cent solid leather, color, dark tan, bellows tougue, dirt and waterproof. The actual value of this shoe is \$6. Owing to this tremendous buy we can offer same to the public at \$2.95.

Send correct size. Pay postman on delivery or send money order. If shoes are not as represented we will cheerfully refund your money promptly upon request.
