Event Title: IEA Visiting Artist: Ray Ferreira

March 13-17, 2016

The Institute for Electronic Arts at the School of Art and Design of the New York State College of Ceramics

Sponsored by: The Institute for Electronic Arts and the Division of Expanded Media

Ray Ferreira, of Brooklyn, NY, will be at the Institute for Electronic Arts for an artist residency over the week of March 13th. Ray, who received his MFA from Hunter College in 2016, uses Englishes, Spanishes, and body languages to explore ways, which his body is manifested and manifests worlds, and ways his body aims to create a different ontoepistoethics. He views his texts as modular, pieces coming into and out of existence, stretching across spaces, times, and matters.

During his residency, Ray intends to explore his texts using the IEA's analog and digital tools to further explore his texts and create new mixes. He will be experimenting with what happens when the spiral goes out of control - as in different systems - exploring what happens when audiovisual textures weave in and out as the text dances around.

The Institute for Electronic Art's Visiting Artist Program is sponsored in part by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.
