The acting for the Rochester game last Friday was quite similar to that of the game we have been used to in all seasons. Rochester had a good team and was more determined than Alfred to be the winner of the game. After they had been beaten once they held no such determination for they knew they had yet to win their first game. It was placed under the usual wet conditions. Early in the game both teams realized that it was useless to try and better conditions any. A very snug group of Rochester did their best to support their team. Alfred had plenty to do. The weather kept a number of loyal supporters away.

The two teams scored before the result of the teams. The first was won a field goal of 16 yards for the winners. The work of their punting, apparently the Rochester's, was the necessary drive.

Several attempts. Chamberlain accounted for numerous

The number of Alfred students is too large to permit of the rudimentary pace in good soc-

EaKANADEA

Kamakades subscriptions will be taken in assembly again this week. Every man and woman who has already paid his or her subscription should be prepared to subscribe Thursday. In order to produce a year book which will reflect the support of every student is necessary, at least to the extent of ordering a book.

This is a crafty proposition. Every subscriber gets his money's worth many times over in the Kamakades. No profits from advertisements. When our book printed will be exactly the number of books ordered. Also absolutely no extra copies will be ordered! This policy is necessary to prevent the study of Thetas which would be obliged to pay for any unused books. Therefore if you have not ordered a Kamakades this fall, do not expect to be able to pick one up next year when the books appear on the market.

Walter Gibbs, photographic editor is collecting snapshots. Please give him any which you have taken immediately.
