You are a "responsible employee" for Title IX

Title IX uses the concept of notice, and imposes obligations for a prompt and effective remedy on colleges and universities when notice of a sex/gender discrimination or harassment is given to a responsible employee. A University has notice if a responsible employee knew, or in the exercise of reasonable care should have known, about the harassment.

A responsible employee:

Has the authority to take action to redress the harassment, Has the duty to report sexual harassment to appropriate University officials,

Is an individual who a student could reasonably believe has this authority or responsibility.

At Alfred University, all faculty and staff are considered responsible employees. The only exceptions are those whose position has privilege for confidentiality (Health Services and the Counseling Center

are the only offices on campus that are not required to report, though they do have responsibility to report non-identifiable information for accuracy in our federal Clery report).

If a student or colleague discloses to you that they have been sexually harassed or assaulted, explain to them that you are required to report the information to the Title IX Coordinator. Share that your role in assisting them is private, but cannot be confidential.

Campus Resources

A victim is encouraged to seek support for her/his emotional and physical needs. A person seeking confidential emotional or health care may contact the following resources. Wellness Center - Counseling Services - 607-871-2300 (calls received after office hours are forwarded to the counselor on call)

Wellness Center - Health Services - 607-871-2400

Off Campus Resources

In addition, there are off campus, community confidential resources that are available. Reports to these confidential resources will not constitute a report to the University and will not result in the University taking any action against the accused. These confidential resources, which may or may not charge services fees, include:

Community Action 24-Hour Hotline 1-888-945-3970

Rape Crisis of the Southern Tier 1-888-810-0093

IEA Visiting Artist: Zorica Colic

May 8-12, 2017

Sponsored by: The Institute for Electronic Arts and the Division of Expanded Media

The IEA welcomes Zorica Colic of New York, NY, as our artist in residence over the week of May 8th.

Zorica, who received her MFA from the Electronic Integrated Arts program of the New York State College of Ceramics at Alfred University. Zorica's work researches how contemporary life is structured and manipulated, with particular emphasis on the implications of the biopolitical management of human life. Through various hybridized forms of display, her works explore the complex relationships between politics, art and consumer worlds, examining how our lives are regulated or defined by taste, by products, and by mass-distributed role models. The goal is to identify new ways to subvert normative mass culture in order to re-contextualize images and signs that have become inflated from over-proliferation.

During her residency Zorica intends to further develop a video project titled Well-beings. These videos bring into focus a person defragmenting into commodity through the technological virtual, while investigating themes such as subtle manipulation of human emotions and behavior amidst current conditions that are hyper-mediated, and increasingly focused on self-presentation. A face no longer functions as the site of identity but rather a terrain equally inhabited by intimacy, familiarity, strangeness, and the anxiety. For her residency, Zorica plans to extend her project into a multi-channel video installation with surround sound, presenting different "heads" or "creatures" put into a conversation.

The Institute for Electronic Art's Visiting Artist Program is sponsored in part by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.
