MAKE USE OF SIDEWALKS

Spring at last is here! "Commemoratim too, is almost at hand! How proud we shall be to "show-off" our beautiful campus to our Commoners' visitors. The grass is so green and the trees are leafing so attractively and even the penguins are pushing up such firm and vigorous stalks that our campus is really picturesque. Can there be a blemish anywhere?

What is that ugly glaring streak across the park? There is also a wide-trodden path showing across the Brick lawn—the nearest way? Can there be a blemish anywhere? No set of doubts should last longer than thirty minutes when four or more are waiting.

NEW PLAN FOR FIAT LUX CALENDAR

Do you or do you not want the Fiat Lux calendar included in the paper in the future? Does it mean anything to you? Has it any importance? Does it render you a service or help you in any way?

To the past the Calendar has been compiled by one reporter, searching hither and thither to get information, and likewise probing and becoming a more representative paper. The failure to place higher in the Middle Atlantics. That's not so bad, we're waiting for the courts. No set of doubles should last longer than ten minutes if others are waiting for the courts. No set of doubts should last longer than thirty minutes when four or more are waiting.

—THE CHESHIRE CAT—
Herrick broke the mile record and now we have a record holder at Alfred. 2:50 is stepping out on this track.

Speaking of tracks—the team was in store at having to return to this track. It is a poor one, and if you expect to ever have good teams we should have a better track. The team will not support a team if it can’t see action, so matter how good it is.

On the recent track trip 10 colleges were visited—Hobart, Binghamton, Lamplman, Colgate, Brooklyn, Normal, Lafayette, Lehigh, Middle Atlantic States, Normal, and Bucknell.

Lyon set the bar at 12 feet 1 inch for a new record to be made for it. We were hoping for four, not two.

Stuart had some touch luck. After making a loop of 31 feet 1 inch at Colgate he pulled a tendon and was unable to jump at Lehigh.

Colgate only gave us two from—Pole Vault and Broad Jump—but they had to be broken to some college records to win the race.

Lampman turned a pretty quartet at Colgate—5:15—not bad eh?

The record was for Herrick since they boxed him in the half mile run at Lehigh. They cheered loudly when he pulled out of it for a record in the race.

Running 225 miles in one day is too much for an Event in the stands at intense heat. Let’s, Binghamton, and Frederick.

At the same time the track and field championships were decided at Haverford. Dutton lost first place to the Union men, the championship would have gone to Haverford. The final results gave the title to Sturbridge on a one-half point advantage over Haverford.

Herrick, in placing first in the mile and second in the half mile, was hard plucked. Boasted in the beginning of the half, he got into the open only to be badly boxed again. Free once more, he maneuvered a terrific sprint to pull by all but Cox of Lehigh, with excellent in the stands at intense heat. At the mile, Herrick overtook a bad start by setting the charging pace which slipped three-thirds of a second from the record.

Gibbs of Alfred, and White of N. Y. U., ran the 220 yard low hurdles to a finish, and the judges’ decision gave first place to the New York student. Gibbs also tied with Lewis of Haverford for third place in the high jump at 5 feet 9 inches.

The winning of the Middle Atlantic States Track Championship is most sweet.

In conclusion, Herrick sets new records and by the magnificent performance in every event, the world will never forget the extraordinary values offered, the majority of them below cost.
