SOPES GAIN VICTORY OVER FROSH ON MAT

A twist, a roll, and a fall won by Giry over Bryant, gave the Sophs the much-desired victory in the wrestling meet against Davis Gymnasium. Bryant, of course, elbowed his way through the Sophs in the weight classes under 145 pounds, which was expected. He did not lose a match during the entire seven matches and came out as the individual unbeaten Soph which decided the consistently close meet. The fresh teams fought strenuously for the Sophs, but could not outsustain their energy and fell before their traditions. Better was best lands for the Fresh by gaining a 23:1 time advantage and using the 40-pound stouter. D'Elia, despite skill and experience, was not able to hold his own against the aggressiveness and skill weight advantage of the Sophs.

REV. TALMADGE GIVES EXCELLENT MUSICAL ASSEMBLY PROGRAM

Mr. Talmadge of Harvard, planned an appreciative audience at Assembly last Wednesday afternoon. It was exceptionally well programmed of organ and orchestral music. Considerable mention followed the performance of the late Mozart, Haydn, and Beethoven, with a choice selection of vocal solos by Mrs. Elizabeth Bliss of the Lindell Chapel. The audience was greatly pleased.

It is, in fact, so much a part of the administration of the college that it is one which cannot be avoided or altered. The seriousness of the situations of each and every student and all who work at Alfred College is not to be underestimated. We do not have this vital primitive present in our modern civilization.

The Sophomore is a body devoted to the statistic and entrusted with the delicate task of administering the Honor System. Ask your Sophomore this question: "How can the students organize and conducting and corroborating the Honor System remember that its administration is the duty of the Sophomore, not to be neglected at any time, by any or else the system collapses. Destructive criticism alone does not assure success, but constructive criticism is always helpful in making a program work. This is what we could keep this system going. At Alfred University would be far more pleasant.
