

## **APEX: New program provides opportunities, and funding to make them happen**

12/01/17

We are thrilled to announce the establishment of APEX, a program that will allow juniors and seniors to apply for funding to enhance their career decision-making, increase their opportunities after graduation, and inspire them to find their passions in life. APEX will provide funding one of the following experiences:

### 1. Work experiences:

Internship/Co-op

Clinical placements (e.g. Athletic Training)

Practicum experiences (e.g. Student Teaching)

On-campus internships

Art Apprenticeships/residencies

Volunteerism/Civic Engagement

ROTC

### 2. Study and Research:

Study Abroad or off-campus study

Undergraduate research

Service Learning classes

Capstone projects (i.e. Women's Leadership Academy)

This program has been made possible by generous start-up funding from Michele and Marty Cohen, and will begin in the fall 2018 semester as a pilot program.
