Alfred welcomes the High School Athletes To Visit Its Campus

D. G. Klinger
President Of Phi Psi Omega

At the meeting of Phi Psi on May 8, President Wesley Van Buren named the officers for next year, which were as follows: President, Harold Boulton; Vice-president, J. Enfield Leach; Treasurer, Alfred H. Karthauser; Secretary, Betty J. Brundage; Assistant Secretary, Paul V. Vores; chaplain, Lloyd W. Larson. The nomination of officers for next year were voted on in the regular business meeting.

Professor Warren Speaks on "Debts" At Last Assembly

Assembly period last week was particularly enjoyable, Professor Warren spoke on the subject of debts. Professor Warren opened his address by describing the operations of Alfred's college spoke on "Some Debts We Owe," Professor Warren in a real humorous mood, told his lecture was full of humorous anecdotes, he also gave many great "citations" in close upon.

Professor Warren stated that these "debts" class must know is a basis for a personal, legal, spiritual and mental, level. Warren gives a scene of the spiritual debt. There are 100 to 300 students, the basis of skills and abilities. These things a student should get from his college education. Patterns are caused by wrong ideas.

Professor Warren fittingly closed his lecture with a short poem, the theme of which was, "The sound of a sigh don't carry well, but the lift of a laugh carries far."

Professor Connor Conducts Chapel

Chapel exercises last week were conducted by Professor Ervinn A. Connor. First part of the program he will discuss the philosophical viewpoints in poetry and demonstrated several models. In his talks with a characteristic of several personalities in the Bible.

Professor Fred W. Ross, Friday during the assembly period last week was particularly interesting, according to Professor Fred W. Ross, the former professor of geology at Rochester College, was introduced by Dr. Fairchild, who spoke on "The Earth's Renewal Flight!". Much of the material of the composition was lost in the blackboard explosion accompanies the delivery. In the delivery, Professor Claville acknowledged himself credited, "The Constitution of the United States!"

Dr. S. L. Fairchild Speaks At Dinner Of Geology Class

Dr. S. L. Fairchild, one of the foremost geologists of the country, and a former professor of geology at Rochester University, was the guest of Professor Fred W. Ross, Friday during the assembly period last week was particularly enjoyable, according to Professor Fred W. Ross, the former professor of geology at Rochester College, was introduced by Dr. Fairchild, who spoke on "The Earth's Renewal Flight!". Mrs. Baines Of Detroit, Mich, Introduces
Stained Glass An Applied Art To The Ceramic Society At A Recent Meeting

Introducing the Ceramic Artists to a phase of applied art with which they had been hitherto unacquainted, Mrs. Baines of Detroit, Michigan, formally on "Stained Glass" at the Ceramic Society recently.

Mrs. Baines father, Mr. Heaten, is widely-known for his excellent work in stained glass, which he produced in his own studio. From her experience as a designer, Mrs. Baines gained an unusual and individual knowledge of the art, a part of which she spoke in an interesting and instructive manner. Illustrating each point with real glass,

Stained glass may be colored glass, tinted on the surface, or it may be transparent glass painted and shaded on the surface. In making a window of stained glass, a sketch must be made, arranging the pieces so that the curves will not be too difficult to execute. After the sketch is very much in size. Next a full size tracing is made. The pieces and the slabs and shapes of the pieces are carefully measured. From this tracing a few tracing membranes are made, which are numbered and named as to color, in the order as a general guide and so on. Each color is used as a pattern for the actual cutting of the glass.

In the choice of the glass the colors and shading must be considered. If the surface of the piece is to be painted, the colors and shapes of the piece must be carefully considered. From this point of view the student should be given the freedom of selecting the colors to suit his own taste.

It seems that the Erie railroad was just being built. In those days, railroad construction camps generally consisted of basically two things. The advance guard of 1,000 pickets was no exception to the rule. A stamp of bricklayers, carpenters, and operators was on the surface. From the opening of the Erie's student government system in 1927 to the present time, the students have been active in the work of the student government. The students have been more active than ever before. The future looks promising.

The Loyalty Medals

Students will be given the opportunity to honor their two most loyal students at the assembly Thursday by voting them in Loyalty Medals. The election is not popularity contests but the intelligent selections by the student body of the man and the woman whom body deems most representative of the ideas and standards of Alfred University and who have served the University in the most loyal manner to the best of his or her ability. This is the time that Alfred renews its love and honor and not its most beautiful, best-dressed, or candidate.

For many years, Phi Psi Omega, the men's honorary fraternity, has awarded the Loyalty Medal to the Senior man who by the vote of the student body was selected as the most deserving. This year, Phi Sigma Gamma, the women's honorary fraternity, likewise will award a Loyalty Medal to the Senior woman who is voted as deserving by the student body.

Six men and six women have been selected by the staff of the Fiat Lux as the most promising candidates for the medals. On another page, the last four selections have been run along with the extra-curricular activities of the other eight candidates. There are several copies of these worthy students but the Fiat has limited itself to the selection of six nominals for each medal.

Standardized Hats

"Don't standardize Rolls! Don't standardize our grades! How can we have a 'perfect small college' if we are to be standardized to death?"

"All very well said, but have you stopped to think for one minute about the real standardization that is killing Rollins—standardization of courses and programs?" What is the idea of all these hats that exist between sororities?

When a list of future officers for any organization is posted, the first thing to run through one's mind is—"Is she a sorority sister that you are affiliated with, either as active member or candidate?"

"Why should we 'hate' to tell her that she is not a sorority sister?" Not 'Is she the most capable?' Why should we 'hate' to tell him that Scotch grains are very cheap in this country the other day and we went with him. They found 'A Man Who Knew Cool' in 'The Great Gatsby,' and 'The Best Aunt of the Country' with 'Traves' Sweeney.'

"That's nothing!—The other day a cod stopped at the dock's office, to make an appointment for a physical exam. The next morning she received the dock's report in the mail. The appointment was not necessary."

"Stained Glass Window Lecture to Ceramists

Continued from page two

A similar condition exists at Alfred. The fraternities are not working together for the best of Alfred University. Petty grievances by the men and women that it turns out. . . "

"Don't be so narrow-minded that you can't see any man but the one with your pin on. . . Can't you see that your group can be no more than a local business managers, marketing executives and reporters on the Fiat Lux are open to all students. Applications should be made to the head of the department.
The tea given at the Clawson Institution was followed by the annual Spring banquet and dance, also the matter of next Fall's Freshman week program. The evening was an old-fashioned square dancing, cards and delicious refreshments furnished by Fitch's orchestra. Due to the fact that three representatives from Delta Gamma Phi fraternity were elected further arrangements must be made for Junior sessions.

Mrs. Margaret King, better known in Alfred as Mother King, gave a party to the senior members of Kappa Alpha Phi in honor of their upcoming graduation. Thursday evening at the home of the Rev. and Mrs. Benjamin Fitch, the events passed a merry evening with dancing, cards and delicious refreshments. Mrs. King was present throughout the evening at the key-sponsorship of the event. As a toast to the senior members, Mrs. King brought to a colorful close with songs of the evening, the evening was an old-fashioned square dancing, cards and delicious refreshments furnished by Fitch's orchestra. ALFRED DEFECTS ROCHESTER

TRACK MEN AT FIRST MEET OF SEASON BY 80-46 SCORE

Denny Klinger Individual High Scorer
With 14 Points; Fredericks Close Second
With 13; Capt. Jenks Stars For Rochester

Alfred trackmen easily scored a 90-46 victory over the University of Rochester track Saturday. The Purple and Gold representatives captured eight first places and 11 second places in 27 events. Contests three and over the mile run, the Rochester men did not place.

Although it was a windy day for the meet, none of the races were run in less than three minutes. During the preliminaries, held at 11 a.m., the half mile mile was run with Zeising and Klinger. Klinger continued to raise the bar until the final when Zeising ran in at 01:44.33.

During the trials for the javelin throw, nothing new was experienced other than the distance already recorded were used as the basis of comparison.

Klinger, Alfred; second, Fredericks, Alfred; third, Hamil- ger, Pomerantz, and Sadler won their events. Kuite and Wenger continued to raise the bar until the final. Fred, second; Time 1 min. 40 3-5 sec.

VARSITY LOSES TWO 6-0 TURF LOSSES

The Varsity lost 6-0 to Hamil-ger, Pomerantz, and Sadler won their events. Kuite and Wenger continued to raise the bar until the final. Fred, second; Time 1 min. 40 3-5 sec.
