

## Albert Spalding Noted Violinist, to Appear On Forum Program Jan. 19

### Program Date Advanced As Result Of Coming Trip To Entertain Soldiers Abroad

Albert Spalding, concert violinist, will appear at the next Forum program, Wednesday, January 19. This change in date was necessitated because Mr. Spalding will be sent abroad early this spring for special services in the field of psychological warfare.

Mr. Spalding was born in Chicago, on August 28, 1888 of well-to-do parents. He inherited much of his musical genius from his mother, who was for a long time a soloist with the Chicago Symphony Orchestra. At seven he began playing the violin, and later his principal teachers were Chiti, the famous Florentine master, Buitrago in New York, and Lefort in Paris.

When he graduated from the Bologna Conservatory of Music at fourteen he received the highest honors ever accorded anyone since Mozart had made his professional debut in Paris with Adelina Patti at the Chatelet. His American debut was made at Carnegie Hall, New York as soloist with the New York Symphony Orchestra, with which organization he appeared afterwards over forty times. Since then, he has appeared with great success in practically every civilized country where music plays an important part in the national life.

Spalding is today one of the most popular of the world-famous violinists and plays every season from sixty to ninety concerts in the United States, besides an average of about fifty concerts as season in Europe.

While still comparatively a young man, he has made an enviable reputation for himself as a composer. He has to his credit over sixty piano numbers, thirty songs, four chamber music quartets, four orchestral compositions, and endless transcriptions and arrangements.

## Rabbi Movsky Is Counsellor

Rabbi Myron Movsky, of Hornell, has been invited to become Counsellor to the Jewish students at Alfred University by Abram Sachar, National Director of the Hillel Foundations, according to a letter received recently by Chaplain Genné.

The Hillel Foundations maintain full-time directors on the campuses of forty-two American Universities and part-time counselors at eighty-three additional institutions. The work of the Hillel Foundations is sponsored by the B'Nai B'Rith Brotherhood, and provides a religious, cultural and social program similar to that provided by the various denominational foundations for protestant students and Newman Clubs for Roman Catholic students.

While Rabbi Movsky is at work at present with both the military and regular students, the Hillel Counselorship is a civilian appointment, and marks a permanent step forward in the provision of an adequate religious program for the Jewish students and faculty on our campus.

Services are held regularly every Sunday afternoon at 2:30 in Kenyon Chapel. Forums and additional social programs are scheduled from time to time.

## Alfred Men Are Exempt From Gym

Because of conflicting ASTP classes and accelerated programs, physical education requirements for all men students have been curtailed this semester.

The new program as announced by James A. McLane, athletic director, last Thursday is similar to the one in operation prior to February 1942.

Under this setup only four semesters of gym will be required for graduation. Also, classes will meet but twice a week. Three cuts will be allowed and as many as three more can be made up during make-up week at the end of the semester.

Any student desiring extra gym work can arrange for such by getting in contact with Coach McLane.

If a prospective donor is under 21, he should get his parents' consent on one of the slips obtainable at the main desk in the library.

In an interview, Prof. A. Burdet Crofoot, chairman, urged all students who are able to give their pint of blood to this worthy cause. An examination is given every person by the unit's medical staff before the blood is taken.

Professor Crofoot stressed the fact that 200 volunteers are needed to justify the unit's trip from Buffalo to Alfred. He also pointed out that the success of the project depends more than ever this year on the girls of the University since there are so few male students on campus now.

All students who are interested in helping in this work of the Red Cross should drop a postal card to Professor Crofoot, indicating the time which would be most convenient for them to come. Also, he will be available at Physics Lab to take names of interested parties. However, it is necessary that he have all names by Wednesday night so that the schedule can be arranged.

The plan is for the groups to meet at Kenyon Hall at 7:30 p.m. Sunday and to proceed with their student host to the home. Groups will be strictly limited in size to provide the maximum opportunity for conversation and participation by members of the group.

No formal topics will be announced, nor adhered to. Complete informality, relaxation, fun and friendliness will be the keynotes of the evening. Groups are open to all students on the campus. Others will be planned for the near future.

## To You Who Enter

Once again we welcome new students to our campus. To have students entering in January is something rather new at Alfred. We are glad, however, to have you new Cadet Nurses with us.

We hope that each of you will soon feel that you are a real part of Alfred, that you will take an active interest in all the activities and that you will let Alfred become a very real part of you.

Alfred, like all other places, bears witness to the fact that we are living in a world at war. In the past twelve months, we have observed many changes as Alfred has become partly military; as each one of us has become more personally aware of the war and what it means. But Alfred is old and her traditions are deep rooted. Whatever turbulence may be in evidence is on the surface and will not penetrate the spirit which is the heart of Alfred.

It is this spirit of friendliness, sincerity, and worthwhileness which somehow eludes words that we hope you will allow to become part of you—a part that will remain with you always because you have been a student at Alfred.

## A Moment's Stop

We have just passed another gateway along the path of life, the gateway into the year 1944. Perhaps it would be wise to stop for a moment to look back through that gateway down the road along which we have come.

It is a long road full of many curves beyond which we cannot see except through the eyes of history. But the way over which we have traveled during 1943, 1942 and the years just preceding is plainly visible to all. As we look back we see not only the road itself—sometimes hilly and crooked, sometimes level and straight, but the guideposts which lighted that way, as well.

The road of time leads us all in the same general direction—into the future. But we map our individual routes along that road by deciding which guideposts we shall follow. This choice is important for not only do the guideposts light our way at the present but their reflections seem to illuminate and make important other markers which we have not yet reached.

Having stopped to gain a perspective, let us now go ahead along the road which joins yesterday with tomorrow. As we go, let us be careful that the guideposts which we choose to follow on any one today are the ones which we will be glad to have reflected throughout life.

## Boozers Trounce Slip Sticks 61-42

By Pvt. Norman J. Harman

Before a sizable crowd in the College Gym on Sunday afternoon, Boogie's Boozers moved into undisputed possession of first place in the league standings when they trounced the Slip Sticks 61-42. This first defeat suffered by the Slip Sticks dropped them back into a second place tie with the Dragons.

The Boozers wasted little time in jumping out into the lead and with Dan Venor setting the scoring pace, they led 19 to 4 at the end of the first quarter. The first period really decided the ball game, because the Slip Sticks were never able to make any appreciable cut into the Boozers' early lead. The Slip Sticks were unable to penetrate the Boozers' tight zone defense in this session and the four points they scored were made from the foul line. The Slip Sticks played improved ball in the second quarter and actually outscored the victors 17-16, but still found themselves behind 35-21 at half time.

The second half saw the Slip Sticks fighting hard to overcome the Boozers' lead. They were handicapped in their efforts due to a lack of capable reserves and by the end of the game the Boozers had increased their half time advantage to 19 points.

Dan Venor was the high scorer for

the winners with 26 points while Pieper and Vogt led the losers with 11 points each. That the game was closely contested is evidenced by the 23 fouls that were committed—13 of them by the winners.

In the other two games of the afternoon the Jayhawks defeated the Ramblers 33 to 13 and the Infants topped the Rangers 32 to 30. This was a fourth place tie with the Saints.

## COURT DRIBBLES

by Pvt. Norman J. Harman

Both Pieper and Vogt of the Slip Sticks broke the season's scoring record with 30 and 28 points, respectively, as their team walloped the Ramblers 84-17 last Wednesday. The Boozers' Bob Jake has his picture on the cover of the 1943-44 Basketball Guide in an action photo of the game between Illinois, the Big Ten Champions, and Jake's team, Northwestern. The Saints suffered their first loss at the hands of the Dragons 41-31. The Rangers seem to be having the same difficulty in getting into the win column as their hockey namesakes. In their three games the Boozers have averaged 66 points as against 25 for the opposition. This week's schedule will be posted on the bulletin boards.

## Women's Gym Plans Revised

Miss L. E. Creighton, girls' physical director, has made new plans for the second semester of the girls sports program which is a definite change from the former program.

Gym classes will meet twice a week. Three cuts will be allowed a semester and three more cuts taken over this allowance will have to be made up during make-up week. Any more cuts will have to be made up in two class periods instead of one.

The girls have been also classified into sections which come under the Restricted Activities and the Regular Activities groups.

The restricted activities group contains two sections. Section 1 will meet Mondays and Wednesdays, at 8:00 a.m. Section 2 will meet Tuesdays and Thursdays at 9:00 a.m.

Regular activities as follows: Section 1, Mondays and Wednesdays at 9:00 a.m.; Section 2, Mondays and Wednesdays at 10:00 a.m.; Section 3, Mondays and Wednesdays at 11:00 a.m.; Section 4, Tuesdays and Thursdays at 8:00 a.m.; Section 5, Tuesdays and Thursdays at 10:00 a.m.; Section 6, Tuesdays and Thursdays at 11:00 a.m.

## Editor's Mail Bag

Editor, Fiat Lux:

Thanks very much for sending me all those issues of the Fiat. I enjoy them a lot, and even my roommates seem to be interested in the big news from Alfred.

I've meant to write a letter to the editor of the Fiat, it's been one of the big desires of my life to write a letter to the editor, but this will have to suffice. If I can find a couple of days of decent flying weather I should be off to Chapel Hill within a week. I sure hope so—the cold weather is getting the best of me.
