Alfred's return to track supremacy became evident at the sprints, where the Purple and Gold placed first in the 100-yard dash and third in the 220-yard dash. The team met Rochester until a 9.96 score of McFadden's in the 100-yard dash was scored. They also placed second and third in the 220-yard dash. Eberhardt, the only freshman on the track team, placed third in the high jump. McFadden also turned in a nice performance, stepping time 10.3 in the 100-yard dash.

Robinson, who had come to be considered the star of the team, had his record for the 100-yard dash, 10.6 seconds, broken by his new time of 10.4 seconds. With but two weeks practice under his belt, this time was considered a great feat.
Opinions

Editor of The Fiat Lux:

As an editor of The Fiat in 1933-34, I would venture to present the position of your column to one as free from grudges and biases as your editorial is on the publishing of the honor system. The dissenter's point of view seems to be held by your apparent inclination to gloss over the failure of what you choose to call "another noble experiment." May I suggest that life calls for two types of honor codes. One, such as the honor system, is laid down by people in concrete form to cope with their own practical problems. The other, less tangible, implies a decent respect for good in itself, quite apart from how it works. The breakdown of one signifies a loss of moral and social endurance, and the other, the more gracious fruits of individual vindictiveness.

Sincerely,
Hubert D. Bliss

Possibly Mr. Bliss' viewpoint might be illustrated by the following excerpts from the Bill News of St. Lawrence University. The articles do not necessarily reflect the Fiat Lux viewpoint, but illustrate the change in student sentiment as well as showing the apparent status of the honor system in recent days.

The Good Samaritan

The student publication of Alfred University reviews their doings and says commenting on the situation of the honor system at St. Lawrence University. It suggests, after reviewing briefly the recent abolition of the system on its own campus, "Perhaps the samefaculties of St. Lawrence may solve the problem there (at St. Lawrence) as well.

We had long thought of enlisting faculty aid, but hardly know how to go about it. As the writer of a commendation printed in this issue pointed out, the faculty and administration are as interested in the university as the students themselves, and should have a voice in it. So far the faculty has remained silent, trusting perhaps that the students would work out their own solution. But the students themselves were unable to do so. The traditions of a system which, for eighteen years has tyrannized class and faculty, did not function there any better than here. That's just what they did to the honor system out. Down at Alfred they do things right.

SCALP AND BLADE TO DONATE AWARD TO BEST ATHLETE

The Aldred chapter of the Scalp and Blade fraternity held its annual award banquet for high school students who are attending Alfred University and for whom it decided to give an award each year to the most outstanding athlete for the year.

The award will take the form of a trophy entitled a gold or silver plate for the inscription of the names. A new trophy will be presented to the university by the society every year.

A pole-vaulting and track meeting staff will vote on the award, basing their choices on athletic conduct, personal, individual, continuous participation, and general athletic integrity.

Members of the Scalp and Blade are Alfred Brown, president; VaZe Thornton, secretary-treasurer; Frank Schumppelt, William Devoss, Robert Noble and Horace Collier. The three members include Elder Kin, Thomas Ann and Allen Reshman.

SPEAKING CONTEST TO BE HELD THURSDAY

Final details are in readiness for the Interclass Speaking and Debate Contest which will be held in Alumni Hall Thursday afternoon. Professor M. O. Bourne, 32, manager of the contest, states that all schools that have schools will be represented in the affair.

The contest for all members will begin at 4 P.M., and the boys' speaking will be given at 8 P.M. It is noted that only three gifts are entered and that 30 boys will compete. An interesting feature of the affair will be the speeches of the state entries from Belair and James, among which will be present "The Death Penalty".

Judges for the contest include President F. O. Davis C. Davis and Dean I. A. Conroy, and the remaining judges have not yet been announced. It is reported that the contest this year will be more of a review from which the winners will be able to compete in the state contest this June.

SHAPPER SETS NEW JUMP RECORDED

Continued from page one.

169 Yard and—first, Vance, R. (A); second, Graham (A); third, Morrissey (R), Time, 16.2 seconds.

109 Yard Bunt—first, Vance, R. (A); third, Croswell (R). Time, 2 minutes 10 seconds.

Two Hops—first, W. W. Coon (A); second, Mafl (R); third, Phillips (R). Time, 16 minutes 25.2 seconds.

130 Yard High Jumper—first, Backer (A); second, Schonauer (A); third, Warte, Time, 16.2 seconds.

229 Yard Low Jumper—first, Schonauer (A); second, Warte (A); third, McNearney (R); Time, 16.2 seconds.

NEW BUILDING IS LARGEST SCHOOL UNDER ONE ROOF

As notified in last week's Fiat Lux, the class in General Methods took a trip to the Bertans-Franklin High School in Rochester.

Dr. Campbell, who arranged the trip, was more than pleased with the result. The outing was a success both scholastically and socially. Two buses and four or five cars conveyed the Alfred delegation to Rochester. Principal Butterfield and Vice-principal Wolford did all in their power to welcome the visiting students. Guides were furnished to escort the visitors but even so, several were lost in the labyrinth of corridors.

The class rooms were inspected while students reported or performed various work in the laboratories which are very extensive and extremely well equipped. At noon the cafeterias were visited (we think there are three of them all told). The food was excellent and the prices were moderate. Below are some facts concerning this high school, which is considered to be the largest under one roof.

Many interesting and exciting events occurred during the trip and it is one that will long be remembered by many of the participants.

The corridors, all together, extend for 24 miles.

Over one million each of face bricks and of glazed bricks are used in the building. These are laid in courses of 21 layers, making 24 miles of walls.

The electric conduit would extend for 24 miles (115,000 feet).

The electric wire in the same, 47 miles (165,000 feet).

The electric wire in the same, 47 miles (165,000 feet).

The electric wire in the same, 47 miles (165,000 feet).

The electric wire in the same, 47 miles (165,000 feet).

The electric field covers 6 acres.

The whole school campus comprises 21 acres.

The gymnasium floors combined, are 2500.

The gymnasium, equipped with bleachers, will seat 2400 people.

The small assembly hall will accommodate about 402.

There are 1220 seats in the cafeteria.

The small assembly hall will accommodate about 422.

Ten kinds of shop work are available.

The assembly hall has a capacity of 2100.

There are 1200 seats in the cafeteria.

The small assembly hall will accommodate about 422.

Ten kinds of shop work are available.

The post is 382 feet. It is equipped with a battery lasting room for 125 spectators. The ceiling is of sound absorbing Guastavino acoustic tile. There are 18 underwindow lights. 210 watts each, with pyrex lenses. Sufficiently for making the visiting Rochester discus throwers, fast, badly by returning their best throws with the cost still on his back.

DELTA SIGMA PHI

"Tommy" Thomson, Head of our New York Chapters, led us this weekend on his annual inspection tour. We thought we could get away without the usual reconstruction but "Tommy" even Gouithened the inspection.

We are very glad to announce the installation of Professor Charles D. Buchanan, and Evanne Ingram. We are also happy to announce the Formal Initiation of Louis Ochse, Thomas du Pro, William Kinsey, Neil Turner, Kenneth Leach, James Bicka, Robert Wharry and Charles Roberts.

Among the alumni who attended the Spring Formal were "Dick" Lyon, "Pat" Perrone, "Ken" Nobals, "One" Larson. Guests were Mr. and Mrs. Lyons.
