

96TH FOUNDERS DAY PROGRAM GIVEN

A fitting observance of Founders' Day furnished the program for Thursday's assembly. A procession of the faculty and members of the Senior class, in cap and gown, opened the program, followed by a prayer by Chaplain McLeod. President Davis then gave a brief sketch of the work of the founders of the University and their successors, after which he introduced the main speaker, Dean William E. Weld, Ph. D., L. L. D., of the College of Arts and Science, University of Rochester.

Dean Weld, a man widely-known and widely-versed in the field of education chose as his subject, "Education and the Good Life". The speaker in his opening remarks defined the supreme test of the value of education as being that contribution which education makes to good life. "Good Life," he described as Utopia, civilization or culture, and toward this goal education has three major principles to guide. These principles, Dean Weld explained, are embodied in the following facts. First, the value of a group is more important than the value of an individual; second, long time planning is more important than short changes, and finally intangibles are more significant in the "good life" than tangibles. From this he explained that our map of the world is incomplete without an Utopia, the land of the "good life" and that no Utopian builder is equal to Christ. "As we learn part of our plan for a "good life," it becomes easier and easier to build better plans. The nation not planning for good life in the future is dead," said Dean Weld, in concluding his reasons for the need of this type civilization.

Turning then to the specifications for "good life," he enumerated the following rules. First, a law of maxima, that is every citizen living in such a way as to use his full power of self realization. Too many people do not know how to live the full life. It is not to be interpreted as meaning doing something every minute, but seeking to do new things, for other than the mercenary gain therefrom. Second, there must be a law of individual difference, with no demand for conformity. The speaker emphasized that especially among students at college does one find this conformity and explained to have a culture or a civilization there must be a loss of this with corresponding increase in individual difference. Next, there must be a co-operation. Our hope of freedom must lie in a restraint enforced by collective action, and here must intelligence be employed, for intelligence is the ability to harmonize dissimilar characteristics. Lastly, we must have a harnessing of science to suit man. Here the speaker stated we must have open-mindedness of such a type that will reconcile the truth irrespective of any opinions or judgments formerly held. We must consider the importance of religion especially since with an advance in the knowledge of science comes a decrease in the depths of one's religious feelings. Science today is a very humble ground and most scientists accept the belief that there is a God, powerful and personal. Science, he stated, for the most part does not prevent a man's being a Christian, but makes him a better one, bringing him to a higher and brighter view of God and religion.

In concluding, Dean Weld urged that his listeners not forget that a faith that believes in the possibility of a "Good Life" is the foremost requisite of such an Utopia, and that they not overlook the fact that this Utopia has a negative interpretation meaning "nowhere," as well as the positive one, "the good life".

KAPPA PSI UPSILON HOLDS FORMAL

The Annual Fall Formal of Kappa Psi Upsilon was held Saturday evening. Dinner was served at Hills' Coffee Shoppe at 6:15. The party then motored to the Kappa Psi House, where the dance was held. Music was furnished by the Pyrex Pyrates from Corning.

The house was decorated in black and gold in a very attractive manner. Colored lights added much to the atmosphere. The committee for the Formal was H. R. Rieter, chairman, M. L. Patterson, R. E. Berls, A. S. Arwine and A. C. Reid.

The faculty guests present were: Prof. and Mrs. Wingate, Prof. and Mrs. Burditt, Prof. Bond and Miss Ford.

NEVINS PRESIDENT OF MATH CLUB

During the last part of November, a group of students interested in mathematics met at Kanakadea Hall and organized a Mathematic Club.

A constitution was drawn up and the following officers were elected: President—Varick Nevins
First Vice President—LaVerne Bauer
Second Vice President—Louis Beyea
Treasurer—Lucile Alsworth
Secretary—Helen McCarthy

All upperclassmen who have chosen mathematics as either major or minor are eligible for membership and are invited to attend the meetings to find out the benefits and pleasures which may be derived from the club.

The club will meet every other Tuesday night at Social Hall, the next meeting being December 8th.

The purpose of the organization is to discuss informally the most interesting phases of mathematics for which there is not time in the regular class period.

LETTER OF REGARD REC'D BY PRES. DAVIS

State Executive Committee, Young Men's Christian Associations, H. Ray Sweetman, Executive Secretary.

November 27, 1931

President Boothe C. Davis
Alfred University,
Alfred, N. Y.

Dear Dr. Davis:
I was very much pleased to receive the letter you kindly sent sometime ago reviewing a number of the recent developments at Alfred. I am glad to be counted among the friends of the University, and rejoice with you in the growth that is taking place.

Although one of the oldest colleges in the state it seems to me that there is a spirit of youth about the campus, and new life budding out in almost every phase of the activities and interests one finds there. Surely there must be a source of all this new life, and, if I may so express it, I would like to pay a tribute of admiration to Alfred's President, who with other men, young in spirit, whom he has brought to the campus, is making the old campus new with life and vigor.

I am sure that all of Alfred's friends rejoice in the new buildings which will add so much to the usefulness of the University's physical plant. We also are glad to see its athletic teams making such good account of themselves, and are thrilled at the way in which the student body responds to high idealism and to the excellent leadership of Chaplain McLeod and the cordial reception given to Assembly speakers who come to them.

We have every assurance to believe that when the 100-year anniversary rolls around Alfred will be found coming across the finish line just in the same way her cross-country teams consistently do, well in the lead.

With every good wish,
(Signed) Ray Sweetman.

Robert Razez

ROBERT RAZEY TO CAPTAIN HARRIERS

At the conclusion of Alfred's banner season in cross country, Robert Razez was elected to captain the Saxon harriers for the season of 1932. Razez, a product of Hornell High School, is a veteran of three years of cross country and two years of track at Alfred, and should lead his team to victories next year. In assuming his captaincy, Razez succeeds "Pat" Hughes, who ran his final cross country race for Alfred in the Middle Atlantic championships.

It was voted at the last Faculty Meeting that in order to make up for the four days lost early in November, Friday, December 18th, 1931 and Monday, January 4th, 1932 and Monday and Tuesday, February 8th, and 9th, 1932, be made regular days for college work. And since Friday, December 18th and Monday, January 4th, would both make up Monday and Friday class work, Friday, December 18th, was designated to run on a Tuesday class schedule. Also, the second semester will start on February 8th, instead of the 10th, as advertised in the catalogue.
WALDO A. TITSWORTH,
Secretary to the Faculty.

COLLEGE CALENDAR

- Monday:**
W. S. G. meeting at the Gothic, 5:00 P. M.
- Tuesday:**
Fiat Lux meeting at Gothic, 7:15
Campus Court, 9:00 P. M.
- Wednesday:**
S. D. B. Choir Practice at Church, 7:00 P. M.
University Choir Practice, at Parish House at 7:15 P. M.
Ceramic School open 7:00-9:30 P. M.
- Thursday:**
Assembly at 11:30
Ceramic School open 7:00-9:30 P. M.
- Friday:**
Vesper Organ Recital at church, 7:30 P. M.
Christian Endeavor, Parish House, 8:00 P. M.
- Saturday:**
Theta Kappa Nu dance
Bartlett Dormitory dance
Basketball game, Alumni at Alfred
- Sunday:**
Union Church services at 11:00
A. M. at church
Christ Chapel services at 5:00 P. M. at Gothic
Y. W. C. A. services at Brick 7:30 P. M.
Piano recital at Social Hall, 7:30 P. M.

The football squad of the University of North Carolina has adopted the skunk as its official mascot.

DELTA SIGMA PHI HAS PARTY

On Saturday, Dec. 5, Delta Sigma Phi had its fall formal dinner and dance at the Social Hall.

An appetizing turkey dinner was served at 6:00 o'clock in the dining hall which was lit only by a few of the candles from each table; this together with the singing of fraternity songs added to the congenial atmosphere.

About 8:30 the couples began to dance to the rhythmical strains of Ted Van Order's Merry-men. The guests present were President and Mrs. Davis, Professor and Mrs. Potter, Professor and Mrs. Buchanan, and chaperones; Chaplain and Mrs. McLeod, Coach and Mrs. McLane, and Coach and Mrs. Galloway.

Several alumni were present also, among whom were "Jerry" Jaquiss, "Gus" Larson, Kenneth Nichols, and "Sparrow" Baldwin.

MAT SQUAD PREPARES FOR SEASON

The Saxon grapplers are developing rapidly for the ensuing season and are receiving developmental training and instruction under the tutelage of Coach McLane and Capt. Felli. Many tried veterans of past years are back this year and form a nucleus from which a strong team promises to develop. The only weakness in the squad is the unlimited class left vacant by Lockwood's decision to wrestle in the 175 lb. weight.

The Purple and Gold will go into action Thursday afternoon, December 17th, against Haverling High School of Bath, in a practice meet to try the ability of the new aspirants to the Saxon squad. There are many new men out this year, and this meet will reveal any dark horses that are on the squad. Bracing the known talent with this new material should give the Saxons many falls in the coming meets.

RULES FOR RUSH WEEK ANNOUNCED

A regular meeting of the Men's Interfraternity Council was held at the Delta Sigma Phi House, Tuesday evening, December 1, 1931. Several very important rulings were made at that time and are as follows:

The order of the rush parties shall be:

1. Kappa Psi Upsilon—Dec. 7th
2. Delta Sigma Phi—Dec. 8th
3. Klan Alpine—Dec. 9th
4. Theta Kappa Nu—Dec. 10th

Rush parties will begin no earlier than 6:30 P. M., and shall last no later than 12:00, midnight. There shall be three council officers present at twelve o'clock to check up on this agreement.

During rush week there shall be no freshman or eligible men allowed in any fraternity house except on the evening of the rush party in that house. Closed season therefore shall last from the Monday beginning rush week at 8:00 A. M. to 8:00 P. M. the following Monday. Also no fraternity man is allowed in an eligible man's room during closed period (rush week).

All accepted bids must be returned in person to the fraternity house before 1:00 P. M. Monday, following rush week. Rejected bids must be mailed to the fraternity house before 10:30 A. M. the Monday following rush week.

No conversation shall be held during closed period between fraternity men and eligible men.

These rulings have been adopted to eliminate difficulty and misinterpretation of the rulings of former years.

COURT SCHEDULE STARTS VS. ALUMNI

Basketball will get under way this Saturday, when the Varsity meets the Alumni team on the floor of the Davis Track and Field House in a struggle which should bring out the strong and weak points of this year's team.

The Alumni aggregation is probably one of the strongest of its kind in the country, and is composed of five former captains of Alfred court teams. These men, Fenner, McGraw, Nichols, Larson and Foti play the highest type of basketball, and the varsity is pointing for a victory. A win over such an outfit would bolster Alfred's spirit and confidence, preparing them for a hard schedule.

The varsity team will most likely be picked from the following men, and as yet it is difficult to assign definite berths to any of them: Forwards—Dunbar, Jaquiss, Kingsley and Henning; centers—DiCandia, Spreen and Dickens; guards—Capt. Gagliano, Clark, Kuenn, Sproul and Ackerman.

All of the above men have shown promise in practice and are likely to make a position. A feature of this year's team is that there are no outstanding stars, but rather a group of hard working, team playing men.

Forty eager yearlings answered Coach McLane's call for the Frosh basketball squad. Among this galaxy of aspiring basketweavers are many former high school stars, whose modes of play are various and deeply imbedded. The first few weeks of Frosh practice will consist mainly of combining and molding these various methods of play into the general system used by the Saxon quintets.

The first year men are fighting hard to show off their wares, for the squad is going to be cut to twenty men next week. Coach McLane plans to concentrate intensive training of the remaining men for a proposed game with Friendship High School, prior to the Christmas vacation.

Coach Lobaugh, who gave valuable aid to the Frosh football team, will relieve Coach McLane of the strain of coaching both basketball and wrestling. Lobaugh will take over the larger part of the coaching of Frosh basketball, while Coach McLane will concentrate on the wrestling squad. Thus, both these teams will have ample coaching to insure them a highly successful season.

BIO SOCIETY INITIATES

The Alfred Biological Society held a meeting last Wednesday night at the Steinheim for the purpose of initiating Professor H. O. Burdick as an honorary member of the organization. As a part of the evening's program, Professor Burdick gave a short lecture concerning humor and fun in teaching Biology. The talk was very entertaining and was appreciated by the members.

The society is planning to initiate two new active members.

The announcement was made that Professor Watson will lecture on some subject connected with his research work on bees. This will be an open meeting, so that everyone may enjoy the privilege of hearing Professor Watson.

NOTICE

There are a few copies of the New York Times for November 24th, available at "The Box of Books". This is the issue which contains the picture of the Alfred Cross Country team.

The Niagara Index—St. Benedict's College altered their freshman regulations by making the first-year men wear Empress Eugenie hats instead of the customary dinks.

FIAT LUX

Published every Tuesday during the school year by the students of Alfred University with office in the Gothic.

Entered as second-class matter October 29, 1913, at the post office at Alfred, N. Y., under Act of March 3, 1879. Subscription \$2.50 yearly.

EDITORIALS

Now that the intensity of rushing will soon be over the attention which will be given to the rushing rules will be inclined to dwindle on the excuse that it isn't necessary this year to change any rules. To the contrary, if there is to be any change in the rules it should be made this year so that due time and consideration may be given to the ideas involved. There have been several changes promised for next year, but they are still far from being the ideal rushing system, perhaps further than the present regulations.

The Council seems to be spending its time burnishing the details and bring out the minor intricacies of an antiquated system of pledging men. It might as well try to put free-wheeling on a 1910 Ford. It don't seem to be cognizant of the fact that there can never be a satisfactory system of rushing here, nor any other type of inter-fraternity relationship so long as the present antagonistic spirit prevails. It is the foolish idea of one group despising another as a group while the individuals of each have no such feeling that is their own.

I am told that the present state of affairs is much better than that which has existed here. We are not living in the past, we are living in the present and will live in the future, there is no logical reason for stopping at a condition that is slightly better than we have had, while there is so much yet to be done.

HUMOR

"Chicken Pie Supper Shows College Pep" (Oh, the ramifications of education!)

Signs advertising two shows in front of the same theater.

"Lover Come Back" and "The Devil to Pay".

Headline— "U. S. to Interfere in Dam Labor Row".

A detour is something a tourist makes when he passes two trucks, one trying to pass the other, coming toward him.

Ad— "This appliance guaranteed to reduce hips, or bust."

Miss Ford and Miss Harris are related. Yes, sir, they were walking down Main street and Prof. Bond came popping along and walked between them, e. g., they were united by a biological Bond.

Soph: Prof. Campbell is bringing up his two children by two psychological methods.

Frosh: It's a good thing he isn't a biology professor.

Freshman's Dictionary— *Accordian*: A pleated skirt, which, agitated by the wind, performs disturbing antics. Called after a musical instrument even more disturbing.

Accuse: To defend one's self.

Age: An unknown quantity.

Babe: A poetic term for a "frail young thing."

Bore: A guy who tells you about his operation when you want to tell him about yours.

Brat: Someone else's "Angel Child".

Air: The parting gift of a bored female to a male bore. See Gate.

CO-ED FOOTBALL TEAM PICKED BY OUR STAR PICKERS

Well, well, here is a football team from the East that sure looks promising. As yet they haven't scored a single touchdown, but that is only because they have not had the chance. It was with the greatest desire to pick a real All American grid team that this great body of football enthusiasts held their mid-night session. When the moon sheds its silvery beams over Merrill field at Alfred some fine evening, the fate of some of these potential All-Americans may be decided.

The line-up of this undefeated eleven is given below:

First Team		Second Team
Fleischhauer	L. E.	Lathrop
A. Clifford	L. T.	H. Smathers
Ward	L. G.	Kilburn
Ormsby	C.	Dixson
Weston	R. G.	Mitchell
J. Williams	R. T.	M. Bastow
Scott	R. E.	Albee
Dunton	Q. B.	Richter
Swan	L. H.	Ravit
Parmalee	R. H.	McLean
Heard	F. B.	E. Carpenter

Substitutes are: Rogers, Hicks, McCarthy, Mott, Sheetz, Kennedy, Kenyon, Train, Nichols, Taylor, and Thompson.

FRANCES WELLS HEADS LATIN CLUB

The advanced Latin class met last Thursday evening in Kenyon Hall for the purpose of organizing a Latin club. Under the direction of Henrietta Burdick a constitution was drawn up and passed upon by the nine charter members of the club which has chosen "Sodalitas Latina" as its official name.

With Dr. Nease as faculty advisor, the club has elected the following officers: President, Frances Wells; Vice President, Lois Brown; Secretary-Treasurer, Adea Nordenstodt.

INTERSORORITY COUNCIL

The Intersorority Council held a meeting Dec. 1st, at Pi Alpha Pi. Revisions for the constitution were planned. The suggested changes must be brought up and accepted by all the houses before they can be incorporated into the constitution.

EXCHANGES

The Purple and Gray—At the State College of San Diego the lowly Ford is the most popular car on the campus. Red and black are the predominant colors for all four wheeled carriages.

The Campus of Allegheny College—Inmates of San Quentin, Calif., State Prison may enroll as extension students of the University of California without charge. Of the 5,000 inmates about 3,000 are taking advantage of this privilege.

The Polytechnic Reporter—Dr. Walter Janes, geologist, is of the opinion that the women today are no different than they were 10,000 years ago, according to the Teck, of M. I. T. Of 600 ancient skeletons recently dug up in Alabama, all the women had their mouths open; those of the men were shut.

The Campus of Allegheny College—At the University of Berlin, students pick their own professors. There are six weeks before the semester officially opens in which the students may study and analyze the various professors.

The Juniata-Westminster — The addressing of professors in full, no nicknames whatever, is one of the enforced frosh customs at Westminster.

California—In this day of depression, preservation takes a stronger hold. A machine has been installed at the University of California for the purpose of shining the shoes of the football squad. It is hoped that this process will lengthen the average life of the shoe.

The Reserve Weekly—Dr. Robert E. Brown of Oberlin College has developed a food menu whereby a well-

THE NEW PSYCHOLOGY, BEHAVIORISM, AND CHRISTIAN EXPERIENCE

A neat pamphlet of over forty pages from The Recorder Press, Plainfield, N. J. The author's great desire is to help stem the tide of a materialistic, atheistic, and immoral philosophy of life. Price, postpaid, fifty cents.

Address: A. E. MAIN, Alfred, New York

balanced meal can be served for three cents. The meal is entirely without meat, and consists of food made from wheat and green stuff. A plan has been proposed to use this three-cent meal in the feeding of the unemployed.

At Case Institute of Technology, students who "borrow" electric light bulbs, break doors, and commit other crimes opposed to the conventions of society are to be subjected to a psycho-analytical examination, to determine why students do things in college, which they would not do at home.

Columbia University is offering courses for its alumni in an attempt to stimulate intellectual relations between the university and the alumni. This is quite in line with the trend towards adult education, which is fast disproving the theory that one's intellectual life must end at graduation. The courses will be given by the prominent members of the faculty on such subjects as art, science, and international relations.

Theta Theta Chi

Dinner guests this week were: Margaret Bedell, Jane Messimer, Helen Dietrich and Dorothy Ravit.

Over-night guests on Friday were: Virginia and Helen Smathers, and on Saturday night Margaret Bastow.

Garnet and Milly spent the week-end with us.

Miss Hewitt left for New York, Friday night, and Mrs. Beulah Ellis has been acting as our house mother during her absence.

Theta Theta Chi is pleased to announce the pledging of Virginia and Helen Smathers.

Pi Alpha Pi

We certainly enjoyed having Mildred Westphal with us for a few days last week.

Friday, Peggy Seese and Grace Steere were our guests for the night. Dorothea spent the week-end at the house and Beryl Webber came Saturday afternoon with Mr. and Mrs. Swan and spent a few hours with us.

Frances Cody and Willard Nichols were guests for dinner Sunday.

At last our "bread line" days are over and we can sit down to our meals. We do admire Vance's derby! Nice party Delta Sig!

Sigma Chi Nu

Our dinner guests Tuesday night were, Georgia Graw, Mandalay Gremms and Betty Gillespie.

Thursday night we had Thelma Cornish and Mildred Taskar for dinner.

Friday, Marjorie Armont and Kathleen Johnson spent the night with us. Thelma Cornish and Betty Hyde were our over night guests, Saturday. Professor and Mrs. Nease, were with us Sunday for dinner.

Miss Thelma Brasted, Mrs. Degen and Mrs. Seidlun lunched with us Sunday evening, before Miss Brasted's piano recital in Social Hall.

Saturday evening we had the pleasure of being analyzed by Mr. Allen of the School of Phrenology in New York City, who has "done" five presidents. We feel very honored.

That was a keen party, Delta Sig!

Fraternities

Theta Kappa Nu

Brothers Fenner, Stevens, Hubbard, and Gardiner were with us over the week-end.

Wessels took a pilgrimage in his Ford to Avoca.

Bowser and Norm went home for the week-end.

Quite a few of the boys enjoyed the mid-night show.

Is it true that Paul Hill believes in Santa Claus?

Klan Alpine

Alick Manson, Howard Marshall, and Milf Milem, students at Syracuse University, spent the week-end at the House, and visited other friends in Alfred.

We are glad to announce that the Duke Brothers, Bill and Bud, have made room 7 their permanent headquarters.

Van Ostrander spent Saturday evening staying in with the boys. How come, Van?

Delta Sigma Phi

Those alumni who came back this week to attend the Fall Formal were: Jerry Jaquiss, Gus Larson, Kenneth Nichols, Sparrow Baldwin, Pat Perrone and Tony Perrone.

According to the latest reports Beta Chi is to come out of hibernation and resume full activity once again.

During this first week of Wrestling and Basketball everyone in the house seems to be either limping or groaning with a set of sore muscles.

Burdick Hall

Last Friday afternoon the Hall had Professor Conroe as its dinner guest. After the meal, an open discussion

pertaining to problems vital to the Hall was held.

Burt Grape trains on a teaspoonfull of chocolate ice cream daily. The doses are administered by Burg, Weinberg and Co.

A real spaghetti dinner is being planned by the Hall for sometime before the Christmas holidays. An adequate supply of comestibles will be on hand. This is expected to be a sensational event in the history of the Hall.

Burdick Hall basketballers are looking forward to a series of games with the different fraternal groups on the campus. The season will open Wednesday night, when the team will meet the Theta Nu five.

The team members recently elected Frank Jenkins as captain, and Edward Merry as manager.

Among those who will represent the Hall on the court are: Joseph Teta, Walter Osiakowski, William Hampton, Dennison John, Lee Horowitz, Carl Scott, Tom Carew, Milton Burg, and Al Weinberg.

Kappa Psi Upsilon

The boys sure had a formal of years in celebration of the ninth year of the fraternity. The parties seem to improve with age. Out of town guests to the dance came from Cornell, Bath, Corning, Hornell, and Candaigua. The alumni who returned agree with us.

Ex-president Burdick '31, spent a few days with us last week. His Ceramic Engineering position with the government at Washington seems to be agreeing with him.

We are pleased to announce the marriage of Eugene Bryant. He is now living in Norwood, Ohio. We knew he would give in sometime.

Beta Phi Omega

Several freshmen were entertained at a Smoker and Bull Session last night. An interesting talk and demonstration was furnished by Mr. Charles DeLancey Allen, Phrenologist, of New York City.

We received three foreign letters from Brothers who are studying medicine abroad. Nice going, Ben, Sil and Cal.

HISTORY OF THE BRICK

If walls had ears, what those of the Brick wouldn't know about its series of occupants!

The Brick was built in 1859, after plans by Maxson Stillman, and was located in one of the most central and beautiful spots on the whole campus. About \$20,000 were employed in its building and when completed it was capable of accommodating about one hundred girls. In 1898, the porch at the front entrance was added. Some people wonder why girls' dormitory should be termed "The Brick" since there are several other brick buildings on the campus. At the time of its erection, however, it was the only brick building, thus earning its title.

The ground floor of the Brick used to be reserved for faculty, several of whom lived there. The two large rooms on the second floor were also used as club rooms. The women's gymnasium was in the Brick and the dining room was the whole University's boarding department. Both men and women ate there.

During the Great War, the Brick was utilized as barracks for soldiers, who were quartered there. So it has had a long and varied history.

It is nearly 73 years old and is still in active service. It was evidently very well built or it would not have stood the wear and tear of all those years. Many changes have been introduced, one of the greatest being the change from faculty rooms to reception rooms, on the first floor. However, it is hoped that, in the course of a few years, a modern, new dorm for girls will take the place of the Brick.

FRIDAY NIGHT ORGAN SERVICES PROVE POPULAR

The soft minor strains of an Oriental air, the lilt of a Strauss Waltz, the lovely melody of a serenade, or the

Small deposit will hold any purchase till Christmas. SHAW'S.

solomn grandeur of a hymn, played by the skillful fingers of Professor Wingate, came softly drifting through the quiet atmosphere of the University Church. Every Friday night from 7:30 until 8:00, music lovers regularly attend this organ recital, and Professor Wingate tries to have such variety in his programs as to suit the many tastes of his audience.

The light at the organ, the only one that is turned on in the church, casts a soft, reflective glow, a perfect atmosphere for the music. The effect is to inspire in everyone a contemplative mood, perhaps one of sheer enjoyment in the music, or one of quiet thought moved by a certain melody. It is not an audience that applauds, and cheers, and volubly praises, nor does it attend from any sense of obligation or duty. It is rather one that enters quietly, remains sincerely absorbed and drawn by the beauty of the music, and then leaves as quietly. The only appreciation they manifest is the fact that they attend regularly.

This weekly half-hour is a welcome interlude in campus life. It is a restful pause in the midst of studies, dating, and sometimes boredom or restlessness.

The Reserve Weekly—Seventy-two percent of the college students of the United States are self-supporting while in school, wholly or in part, according to a recent check of the Department of the Interior.

The St. Bona Venture—Indignation over the practices of the Women's Student Government in the wholesale campusing of Freshman girls, who are seen in the company of men students on the Allegheny College campus, resulted in a demonstration by the women last week which bids fair to result in a revision of the regulations.

A reason has been extended to explain why so many Freshmen flunk exams. The president of a large western university lays the blame on three factors: love, dumbness, and faculty intelligence.

A committee has been organized at the University of Oregon to record the activities of all students on the campus. Its purpose is to encourage scholarship and wide student participation in activities.

Fine leather goods, always acceptable. SHAW'S.

WANTED—Men for new position, something students want and badly need, sells on sight, fifty per cent commission. Address postoffice box 232, Windsor, Conn.

Made **F**RESH

never parched, never toasted

CAMELS are **KEPT** Fresh!

YOU probably know that heat is used in the treatment of all cigarette tobaccos.

But you know too that excessive heat can destroy freshness and fragrance.

That's why there could be no truly fresh cigarette except for scientifically developed methods of applying heat.

Reynolds is proud of having discovered and perfected methods for getting the

benefits of heat treatments and still avoiding ever parching or toasting.

With every assurance we tell you, Camels are truly *fresh*. They're *made* fresh — not parched or toasted — and then they're *kept* fresh in the Camel Humidor Pack.

If you wish to know why the swing to Camels is nationwide and steadily growing — switch to them for just one day — then leave them, if you can.

"You needn't tell me
— I know Camel is
the fresh cigarette!"

● Don't remove the moisture-proof wrapping from your package of Camels after you open it. The Camel Humidor Pack is protection against sweat, dust and germs. In offices and homes, even in the dry atmosphere of artificial heat, the Camel Humidor Pack delivers fresh Camels and keeps them right until the last one has been smoked

CAMELS

Made FRESH — Kept FRESH
