

PHILIP ADESSA

ADESSA RECEIVES APPOINTMENT TO WEST POINT

Philip Adessa, of the freshman class, received word this week of his appointment to the United States Military Academy at West Point. Adessa a former student of Cortland High School and a graduate of Manlius Academy, ranks as one of the outstanding athletes of the freshman class, and is a pledge at Delta Sigma Phi fraternity.

TALKIE EQUIPMENT TO BE INSTALLED

Due to the influence of the traveling Sound pictures which have been exhibited in Alfred, a movement is on foot to bring about the installation of sound equipment in Alumni Hall at some date in the near future.

With the showing of sound pictures in historic Alumni Hall much interest was noted for the continuance of such showings. Certain progressive minds of Alfred have instigated a plan whereby the latest of motion pictures may be shown and patrons may listen to the voices of the stars without traveling a number of miles.

It is promised that the equipment will be of the finest obtainable and the pictures shown will be of the latest.

Numerous possibilities will be made way for with the advent of such equipment here. Pictures of educational nature may be shown, thus keeping abreast of the times in the latest method of teaching.

PAUL RUSBY ATTENDS CONFERENCE

New York—A swing toward Socialism in the thinking of American college students was revealed in the sessions of the conference of the Intercollegiate Student Council of the League for Industrial Democracy, which was held in New York City, December 28th to 30th.

Two hundred and twenty-five students from fifty-three American and Canadian colleges met to discuss aims and methods for liberal and radical students in the years ahead. Nearly all agreed that Socialism was the only satisfactory way out of the economic crises. Many of the delegates had been instrumental in their own communities in organizing Socialist Party branches, in aiding workers seeking to form unions, or in securing relief for destitute striking miners and textile workers.

Donald M. Smith of Bates College described how he had organized a Socialist Party and a Council of Unemployed to demand adequate relief, in Lewiston and Auburn, Maine. Fif-

BISHOP LEONARD PRESENTS ADDRESS

President Davis opened the first assembly program of the new year with a greeting to the students and faculty for a prosperous New Year, and the hope that they would continue their efforts in keeping a high scholastic record. He then introduced Dr. Adna W. Leonard of Buffalo, Bishop of the Buffalo Area of Methodist Episcopal churches, a man recognized far and wide for his outstanding speaking ability and his work in the religious field.

Titling his address, "The Relation of Moral Courage to the Life of a Man in Contrast with Physical Courage in the Make-up of a Man," Bishop Leonard began by citing the biblical story of the young man who came to Christ with the following question, "What is there in my life that I lack on order that I may attain my spiritual best". In our time the same question still takes root in the minds of our people according to Dr. Leonard, and it is for this reason that we today have our self-analysis to consider. The world stops always long enough to pay attention to physical courage. It is for this reason that we have our heroes and heroines on the athletic field. In the late war the acts of courage were unparalleled in all previous human warfare, and never shall we forget the courage of the soldiers going down into the valley of death with the words, "They shall not pass". This demonstration stands in the forefront of physical courage, the speaker explained.

Now, however, Dr. Leonard cited, in a time when a world mind is being created. We are approaching very rapidly the day when moral courage and the desire to stand for the things that lift up society at any cost shall predominate. We are to honor the men and women who stand for this in the years to come. We shall live to see the day when war as a human instrument in the settling of disputes of nations has entirely disappeared. War is doomed and moral courage is taking its place.

Dr. Leonard again turned to the Bible to illustrate the same use of our wealth. He pointed out that it is far from wrong for a man to be rich or to have an ambition to accumulate wealth provided the means are utterly ethical and moral, nor is it unchristian to possess wealth, provided one will use it to help others. Here we find a splendid field in which to exercise our moral courage.

Further emphasizing moral courage Bishop Leonard pointed out how absurd the world thought it whenever it discovered a man doing a thing which he knows is unmanly the man or undoing the woman. Further, that it is very possible for us to be conscious of a thing that is doing us harm, and we should do our best to make the most of our spiritual, physical and intellectual endowments.

In closing Dr. Leonard asked that the individual match his life by the perfect life of the man of Galilee, whereby he may see his lack and the necessity of removing the impeding factors, and that the individual in the words of Bishop Leonard, "pattern his life after Him who is supreme, an example of moral life and moral bearing."

VEZZOLI GIVES COLLECTION TO STEINHIEM

Dante Vezzoli of the Junior class this week gave a valuable collection to the school, consisting of several specimens of stone and relics, which will be put in the Steinheim.

The collection includes a piece of mosaic tile from the floor of a Pompeian villa, a piece of lava from Mt. Vesuvius dating to 72 A. D. as well as several domestic types.

CERAMIC ENGINEERS MAKE FIELD TRIPS

Two ceramic engineering field trips have been conducted by Prof. Charles Amberg of the Ceramic School. The first, a two day trip, was made to Buffalo, where the Senior class visited plants manufacturing various ceramic products including tile, cement, brick and carborundum.

The second, a one day trip, was made to Corning, N. Y., at which place the plants of the Corning Terra Cotta, Corning Glass Company, Hawks Decorated Crystal Glass Company, and the Steuben Art Glass Company were visited.

Several of the class will attend the Annual Convention of the American Ceramic Society at Washington, D. C., in February.

SECOND SEMESTER REGISTRATION

The following regulations should be noted regarding second semester registration, which begins January 20th, and ends January 28th.

1. Freshmen, Sophomores and Upperclassmen, whose courses continue through the year, need not register for the second semester as the fall registration was for the entire year.

2. Registration for new courses may be made at the Registrar's office on the days mentioned below, during the afternoon only, as follows:

Seniors—January 20, 21 and 22.

Juniors—January 25 and 26.

Sophomores—January 27.

Freshmen—January 28.

Registration on other dates, except as heretofore mentioned, will constitute late registration, for which a fee of five dollars is charged.

3. Registration is not necessary for the following second semester courses when they follow the related courses of the first semester: Biology 6 and 10, Chemistry 3 and 5, General Methods (1 hour), Ceramic Geology, Principles of Education, Professional English (Ceramic Engineering Seniors), Drawing 2a and 2b and Pottery 2 (Ceramic Art Sophomores), Metalworking I (Ceramic Art Juniors), Latin 3 and Physics 2b.

On Wednesday and Thursday, February 10 and 11, opportunity will be given all students to register for courses which they are substituting for those courses in which they failed and are not permitted, therefore, to continue.

WALDO A. TITSWORTH, Registrar.

COLLEGE CALENDAR

Tuesday:

Fiat Lux meeting at Gothic, 7:15
Student Senate, 7:00, Kenyon Hall.
Math. Club, 7:30.

Wednesday:

S. D. B. Choir Practice at Church, 7:00 P. M.
University Choir practice, 7:15.

Thursday:

Alpha Tau Theta Bridge party
Newman Club, 7:30
Assembly, 11:30 A. M.
Basketball, St. Lawrence at Alfred

Friday:

Vesper Organ Recital at church, 7:30 P. M.

Saturday:

Beta Phi Omega dance
Basketball, Cook Academy at Alfred
Wrestling, Western Reserve at Alfred.
Christian Endeavor, 7:00.

Sunday:

Union Services, 11:00 A. M. at the church.
Christ Chapel services, 5:00 P. M. at Gothic.
Y. W. C. A., 7:00 P. M. at the Y. W. rooms.

R. GUY COWAN WINS C. F. BINNS MEDAL

The Charles Fergus Binns Medal for 1931 has been awarded to R. Guy Cowan of the Cowan Pottery, Inc., of Rocky River, Ohio.

The Binns Medal for achievement in ceramic art was established in 1922 by the Alumni of the Ceramic School at Alfred University, Alfred, New York to commemorate the 25th anniversary of the directorship of Dr. Charles F. Binns. The Medal was designed and modelled by Miss Elsie Binns.

The Jury of Awards is composed of the director of the New York State School of Ceramics and one representative each from The American Ceramic Society, The National Terra Cotta Society, The United States Pottery Association, and the Ceramic Guild of Alfred.

The recipient in 1926 was Marion L. Fosdick, Professor of Ceramic Art at Alfred, New York. Arthur E. Baggs received the award in 1927. Mr. Baggs is owner of the Marblehead Pottery at Marblehead, Mass., has worked with Mr. Cowan at Rocky River, and is now Professor of Ceramic Art at Ohio State University. In 1928 Frank G. Holmes, Art Director for Lenox, Inc. Trenton, New Jersey, was the recipient and in 1929 the award was made to Stanley G. Burt of the Rookwood Pottery of Cincinnati, Ohio. In 1930 the medal was awarded to Myrtle M. French, teacher of Pottery at Hull House and the Art Institute in Chicago.

Mr. Cowan, who receives the award this year, has achieved much in the way of beautifying art pottery. He is a graduate of Alfred University, receiving his training from Dr. Binns in the class of 1907. He has been a teacher in the schools of Cleveland and was head of the Cowan Pottery, Inc., of Rocky River. It was his influence that brought Cowan ware to its leading position in ceramics.

POTTERY EXHIBIT DISPLAYED, SOCIAL HALL

An interesting collection of pottery which has been assembled and put in circulation by the American Federation of Arts will be on exhibition in the dining room of the Social Hall, during the month of January.

The exhibit may be seen on Monday, Tuesday, Wednesday and Thursday evenings between seven and eight, and on Monday, Wednesday and Sunday afternoons from four until five, between the dates of January 11th, and January 25th.

Pieces on display may be bought, to be delivered after the completion of the exhibition at several other institutions.

SCALP AND BLADE ARRANGES EXHIBIT

Under the auspices of the Scalp and Blade fraternity, exhibits from various colleges were placed at Bierma's store in Buffalo during the week between Christmas and New Years. Alfred University was represented by a collection of pottery by Professor Binns and the Ceramic Guild students. Besides the display of pottery, Alfred had its banners, Kanakadeas, athletic awards, and fraternity plaques there for exhibition. Alfred was the only college represented by any produce such as the Ceramic ware, which was made by its students. The object of the exhibition was to advertise the various schools. Among those schools represented were Syracuse, Michigan and R. P. I.

DR. LLOYD WATSON

BIOLOGICAL SOCIETY ADDRESSED BY PROF. WATSON

Doctor Watson, one of the world's foremost authorities upon the subject of bee culture and who is internationally known because of his solving of two of the most baffling of problems confronting apiculturists, spoke before a group of people in Chem. Hall last Wednesday night. His subject for the evening was "Bee Culture," and was presented through the efforts of the Biological Society.

Although an expert chemist, Doctor Watson's most outstanding work has been in the breeding of bees (and the analyzing of beeswax). Primarily a research man, he patiently worked for several years in the face of discouraging advice, before he finally achieved success.

From early youth he has been interested in bees and bee culture. After receiving his bachelors degree from Alfred University in 1905, he taught chemistry here seven years and during this time earned a master's degree. He never lost his interest in bees, and during the war he served as assistant apiculturist in the Bureau of Entomology, Washington, D. C. At various times he has also served as state apiculturist of Connecticut and of Texas.

During this time he has been studying the problem of producing pedigreed bees, and at an age when most men begin to think of retiring, he registered at Cornell University for further research and a doctor's degree.

For nearly one hundred and fifty years, scientists had been trying to control the mating of the queen-bee, who normally mates only on the wing and high in the air. At the time when Doctor Watson started his work, all these attempts to control the mating of the queen-bee had failed, and the problem had come to be looked upon as an impossibility.

Unimpressed by the size of the job he was tackling, however, Doctor Watson kept quietly to work and in 1926, after seven years of research and experimenting, perfected a process of micro-insemination by which he could control the parentage of the bees and this for the first time in history making possible the improvement of bee stock. This discovery attracted immediate attention all over the world and treatises on his work have appeared in nearly every language.

Having been successful in this, Doctor Watson turned his attention to another problem upon which he had been working for some time. Beeswax which is used for a great number of commercial purposes, is often diluted with a vegetable wax known as "carnauba wax". Although inferior

THE FOOTLIGHT CLUB

Plans are underway for presenting a play in assembly soon. Tryouts will be held immediately after semesters. Although no definite play has been selected, the Club intends to put on another one sometime in March.

Due to the enthusiastic manner in which "Skidding" was received here, the cast are considering presenting it at Keuka College. However, these are only tentative plans.

CERAMIC SOCIETY MEETING TOMORROW

Wednesday evening, Jan. 13th, at 7:30, a meeting of the Student Branch of the American Ceramic Society will be held in Laboratory Hall. Two features in moving pictures will be "The Potter's Wheel" and "Automatic Substitutions".

Following the Ceramic Society meeting the New York Chapter of Beta Pi Kappa will meet at the Theta Kappa Nu house. Meeting will be called at 8:30 P. M. Initiation of new members and important business will be transacted.

FOLLIES ON APRIL 11

A short meeting of the Junior class was held after assembly last Thursday for the purpose of discussing class finances. At the same time Dante Vezzoli, Director of the Junior Follies, announced the date of presentation as April 11th, stating that regular rehearsals would start immediately after January examinations.

THE BIRTH OF FOOTBALL AT ALFRED

Football "as it is played here today," has seen some changes since Alfred's first Varsity game, thirty-six years ago. At that time the sport was little known in this section. A few Alfred students knew something of the rudiments of the game, however, and as a result, two football teams were organized late in the fall of 1895.

The first game took place when the second team met Andover Academy, October 25th, and defeated them 24-0. This scrimmage came off out back of the Gothic. An interesting feature of this affair was that only three men had ever seen a football game.

Four days later the first string journeyed to Wellsville and played a picked Wellsville team in the first game ever played by an Alfred Varsity. These early Saxons found the Wellsville outfit a bit too tough for them and came sadly back with the small end of a 20-0 score.

After making a little better showing in a return game with Wellsville, they ended the season with a Thanksgiving game at Bradford, Pa. The size of those Bradford drillers is said to have been little short of appalling. One man was reported as weighing 240 pounds, another 246, while three men in the center of the line were said to total 650. As a result of their weight, they were a bit shorter winded than the Alfred players, and for a time it looked as though this failing might lose them the game. When they began to tire, however, they would start an argument with the

referee, and gain time to rest up. As a result, Alfred's first football season ended with the team being beaten 10-0 before a crowd estimated at three thousand.

Although they were Alfred's first "scoreless wonders," these pioneers deserve a lot of credit. What they did, they managed without a coach, without experience and without much equipment. Their suits were of heavy canvas, and were turned out by the firm of Bassett & Son, tailors of this village. If they had helmets, they doubtless came from the same source. In spite of these difficulties they founded well the foundations of football at Alfred.

The line up of this team contains some rather well known names, and run as follows:

Left End—Drummond
Left Tackle—W. L. Greene (Professor of Theology in the Theology School)
Left Guard—Davidson
Center—Sly
Right Guard—Babcock
Right Tackle—Davis
Right End—Coon
Quarter Back—Maxson
Left Half Back—Carter
Right Half Back—Starkweather (Captain)
Full Back—Gibbs (Later a State Senator)
Substitutes—Karr, Burdick, Bennehoff (Local Veterinarian)

Time-Clock For Girls

Good old University of Minnesota. Now the dean of women at that institution, we use the word advisably, has conceived the brilliant idea of having a time clock for girls going dating. The card has a space for escort's name the occasion, and "information" (hah!) as well as as places for the time out and in, to be punched. Possibly a dictophone to record conversations would help—but think of the wasted space on the record. Silence may not be golden, but it is interesting.

Boston University News.

ALUMNI

Announcement was made of the marriage of Miss Anna Doycheff of Brocton, Mass., to Dr. Gilbert M. Fess of Columbia, Missouri, which took place Saturday, December 26th, at Nashua, New Hampshire.

The bridegroom is an alumnus of Alfred University, class of 1912, and a former teacher in Alfred Academy.

Dr. and Mrs. Fess will be at home after January 4th, at 906 Conley Ave., Columbia, Missouri, where the former is associated with the University of Missouri.

Miss Claire Persing of Portville spent a part of her Christmas vacation at the home of Mr. and Mrs. W. H. Bassett.

A daughter, Judith Content, was born on Dec. 27th, to Mr. and Mrs. John Reed Spicer at their home in Toledo, O. Mr. Spicer has received his M. A. from Columbia and completed part of the work for a Ph. D.

News has been received that Mr. and Mrs. E. C. Hunting of Plainfield, N. J., were parents of another son, born Thursday morning, December 24.

A son, Stephen Charles, was born Dec. 28th, to Mr. and Mrs. A. H. Remsen of Angelica, at the Spangler Nursing Home, Angelica. Mr. Remsen was formerly a professor at the Ag. School. Mrs. Remsen was Dorothy Binns.

Milton Burdick of Washington, D. C., spent the holidays with his parents, Mr. and Mrs. Lester Burdick.

A son, William Clark, was born at the Salamanca hospital on Nov. 25th, to Clark Sherman and Ruth Lyon Sherman of Little Valley, N. Y. Mr. Sherman was an Alfred student for several years and a Delta Sig man, and Mrs. Sherman graduated from Alfred in 1929, being a member of the Theta Chi.

Sororities

Pi Alpha Pi

Marge Armont, Peggy Bedell, Ruth Harrington, Jo Patridge, Betty Gillespie and Katherine Titsworth were dinner guests during the week.

Eleanor Van Tyle, Helen Olney and Grace Steere were up Friday night.

Notice the curls on Aggie and Mary.

Elsie Mae spent Friday night in Hornell with Dorothea.

Nice work team—better luck next time.

All best wishes for the nicest kind of a new year everybody!

Sigma Chi Nu

School—classes—how we love them! But it's great to be back.

Tuesday evening Lucile Bailey and Marion Clements were up for dinner.

Kathleen Johnson, Marjorie Armont, and Ruth Harrington were dinner guests Thursday.

Nina Thompson and Hilda Crandall were over night guests this week-end.

Professor and Mrs. Conroe and their children, Barton and Connie Marie, were guests Sunday at dinner.

Sigma Chi Nu wishes everyone a happy and prosperous New Year. The same old story, but we'll stick to it!

Brick Notes

The following spent the week-end at home: Doris Coates, Katherine Greening, Georgiana Kennedy, Martha Cornish, Christine DeVore, Eleanor Witter, Mary Curry, Ruth Harrington, and Dorothea Dunton.

Lauretta Thompson of Bath has been unable to return to school since vacation, due to illness.

Margaret Lloyd and Mandalay Grems from the Brick were the guests of Dorothea Dunton, Friday evening, at her home in Hornell.

The Brick girls have banded together to form a basketball team that will compete with those of the Sororities and that composed of the girls living outside of the Brick. The first game will be played one week from Wednesday.

Theta Theta Chi

"A wonderful vacation, but glad to be back," expresses the sentiments of the house upon the return to classes last week.

Guests for dinner on Wednesday night were, Josephine Partridge, Georgia Grow and Katherine Titsworth. Eleanor VanTyle, Mildred Nichols and Grace Steere were at the house for dinner Thursday evening.

Ruth Marley '31, has been frequenting the house this last week. Keep up the welcomed visits Ruth.

Katheleen Johnson, Margaret Seese and Lucile Bailey were over night guests on Friday. Saturday night Hilda Crandall, Ruth Norwood and Roberta Clark were guests for over night.

Doris Marley spent the week-end at her home in Hornell.

Marie spent most of last week in the Infirmary, suffering from a hard cold. The speediest of recoveries Marie.

Saturday, Marg Scott visited her sister, who is a convalescent in a Rochester hospital.

Better luck next time, teams! Nice party, Pi Alpha.

Delta Sigma Phi

Jack McGraw, Ken Nichols, and Pat Perrone came back to take in the wrestling meet.

Jud Gregory was a welcome guest at the house for the week-end.

Dunbar, DiCandia, Gagliano, and Gaulrap accompanied the basketball team to Hamilton.

Ray Shremp took a few days off and visited the boys for the week. He can still sleep as well as ever.

Pledge-brothers Hopkins and Mitchell have moved into the house.

Nice party Pi Alpha.

Congratulations Frosh. Better luck next time varsity cagers and grippers.

Bartlett Dormitory

It's very hard for the average frosh not to be a trifle cocky after the last frosh-varsity game. Nice going team.

Some of us have been trying to emulate the "Three Musketeers". Look out for Tobi. He swings a deadly skewer.

Pop Eye Popetti is one of the great-

est ping pong players the Brick has discovered.

We all went to the wrestling meet last Saturday. Great fight team.

Kappa Psi Upsilon

Ted Flint spent the week-end with us. Easterbrook, Arwine, and Reitz returned home to complete the Christmas vacation, or something.

Everyone enjoyed an evening extraordinary in the sleeping division Friday.

Ever hear of Simple Simon, who took ice skates to a swimming pond instead of water wings? Ask the boys?

Great party Pi Alpha.

Come on Varsity we're still with you.

Y. W. C. A. HOLDS MEETING

The weekly meeting of the Y. W. C. A. was called on Sunday evening, Jan. 10, by Lois Brown, president of the organization. Mrs. Degen conducted the discussion period.

Upon the resumption of school after

the Christmas recess the Y. W. rooms have been declared officially open to all college girls for recreational purposes. The newly installed equipment includes various game tables and amusement boards, all of which are now at the disposal of women students. Further announcements have been made by officers of the organization to the effect that Brick girls may enjoy entertaining privileges in the Y rooms providing permission for the room is secured by two or more couples.

Next Sunday evening Mrs. Degen will preside over Y. W. meeting. Her subject will be "Sororities". All girls interested, whether members of the Y or not are urged to be present.

STUDENT COUNCIL CONFERENCE

Continued from page one.

teen hundred unemployed workers are included in the latter organization. Smith's activities, he revealed, have evoked heated attacks from former Governor Baxter, who has been touring Main denouncing Bates College as a hot bed of radicalism.

Arnold Johnson of Union Theological Seminary described the labor conflict in Harlan County, Kentucky, which he had witnessed last summer as an observer for the American Civil Liberties Union, and later as a participant when he was arrested and jailed for five weeks for expressing sympathy with the striking miners. Johnson urged students to abandon ambitions for wealth and to join the struggle of workers to secure a decent living standard.

Paul Rusby, former Professor of economics here, and now Assistant Professor at Middlebury College, also attended the meetings.

CERAMIC GUILD MEETING

A Ceramic Guild meeting, presided over by the president, Marian Burroughs, was held last Wednesday evening for the purpose of selecting delegates to the Ceramic Convention to be held in Washington, D. C., the first week in February.

The treasurer's report from the Christmas festival was given and plans for the exhibition to be shown in Social Hall on Monday, January 11, 1932, was also discussed.

Fraternities

Beta Phi Omega

Beta Phi Omega is pleased to announce the pledging of the following men on Monday, December 14, 1931:

Frank Jenkins, Joseph DeTrollo, Joseph Sarandria, Louis Militello, Rudolph Simari and Joseph Teta.

Klan Alpine

The boys enjoyed very much the visit of "Rudy" Eller, Emerson Chamberlain, and "Hank" Duffy. "Hank" has been persuaded to stay the week with us.

Dickens, Clark and Sproul have been absent over the week-end as they made the trip to Hamilton College with the team.

The house team lost their first basketball game by a small margin. Let's go fellows, and win the trophy!

MAT SQUAD BOWS TO MECHANICS

Grapplers of Rochester Mechanics Institute, invaded this collegiate community Saturday night and took a 27½ to 6½ victory over Alfred University's wrestling team. Approximately six hundred persons witnessed the eight matches on the card.

Disregarding the score, however, the Saxon men exhibited a spectacular prowess and stubbornness that forced the Invaders to give their utmost for victory. Rochester took points on two time decisions and in three other contests succeeded in fall wins after lengthy periods of combat. Dante Vezzoli and Captain Felli scored Alfred's points.

Handicapped by the height advantages of the visitors, Alfred men, when once on the bottom, were doomed for defeat. Benza, Warde, Graham and Davison succeeded several times, however, in overcoming these advantages of the Rochester opponents. Benza and Warde lost through time decisions, while the latter two were defeated by falls.

Undoubtedly the most spectacular battle of the card was Vezzoli's 52 second fall triumph over Carpenter of the Mechanics aggregation. Hardly had the two 126 pound men engaged in body contact, when the wiry Vezzoli dropped his man to the mat and pinned his shoulders.

Phil Benza in the featherweight division and Polito were almost on a par, except for a slight advantage in height on the visitor's part. Benza, however, suffering from a cold could not give his best and took a severe beating on the bottom rather than admit defeat by a fall. He lost on a time decision of five minutes and thirty seconds.

Warde and Davison were hopelessly outclassed against their rangy opponents. Warde succeeded in staying with Becker for a four minute and five seconds time decision to give Rochester three more points in the 135 lb. weight. Thomas in two nip and tuck periods managed to take two falls over Davison in the 145 division.

The 153 pound fracas between Shotneiu of Rochester and Captain Felli of the Saxons was one of aggressiveness that brought the stands to their feet many times. Both men were equally matched and displayed this throughout the period with first one than the other succeeding in holding the top position. The decision was a draw after two extra 3 minute periods.

Graham of the Purple combine and his Mechanics' opponent, Malley also gave the crowd plenty of rugged entertainment in their 165 pound fray. Once Graham succeeded in downing his man but because Referee Seidl ruled off-mat both men went to the center of the mat. At the end of seven minutes and forty seconds, Melay took advantage of Graham to win a sudden fall victory.

Johnny Grantier, stubby grid star, although working against Dike's one foot height and 12½ pound advantage, gave his taller Rochester opponent a stiff battle during some six minutes and forty-five seconds. Grantier out-wrestled his man while they were on their feet but lost on a fall.

In the unlimited class Dale Lockwood lost by two falls to Reshe of Mechanics. Reshe, a more experienced man, possessed a weight advantage of about forty pounds.

WESTERN RESERVE vs. ALFRED

Western Reserve Wrestling team will invade Alfred, Saturday night. The Cleveland grapplers are reputed to be one of the strongest teams in the central west and should afford the Purple and Gold ample competition.

The meet with Mechanics Institute of Rochester last Saturday night disclosed the weaknesses of the Saxon men. Coach McLane undoubtedly will clear up these difficulties during the sessions this week.

With added experience in leg holds, foot work and figure fours, the Saxons should make a successful showing. Preparations are being made to entertain one of the largest crowds of the season.

SAXONS LOSE TO HAMILTON 31-26

Handicapped by the small court at Clinton, the Alfred quintet went down to defeat at the hands of Hamilton, last Saturday afternoon, by a score of 31-26. Ollikaninen, star forward of the Clintonians, was high scorer with a total of 15 points, while Dickens, Alfreds scoring ace, followed closely with 13 points.

Hamilton ran up an early lead of ten points in the first few minutes of play. At this stage of the game the Saxons opened up with a brilliant attack and succeeded in cutting down the lead to two points at half-time. The loss of Clark, who was put out of the game on personal fouls in this period, served to disrupt the smooth functioning of the Alfred machine.

At the onset of the second half, the Alfred team settled down to a steady game and with a few minutes to play was leading by a margin of three points. But Hamilton, determined to win a game which they had started so well, made a last minute spurt to overtake and lead the Saxons by five points at the final whistle.

FROSH WIN AT CUBA

Frosh cagers of Alfred University opened their season at Cuba, Friday night, with a smashing 31-16 victory, over Cuba High School. It was the Saxon's first step towards a predicted no defeat campaign, which includes nine more games.

Never once were the invaders threatened. Hardly had the echo of the opening whistle died, when Goodrich opened the scoring. Cuba, however, put up a stubborn fight against the taller Alfred men. They also were handicapped by the loss of a veteran guard, Lawrence, who was sick. Disregarding the advantages or disadvantages of comparative heights, however, the Saxon aggregation displayed the better offensive and defensive playing. Each man worked as a unit of a well oiled machine.

Man for man the Purple also were the better quintet, except in one instance—Cuba High's star and veteran captain, Older, who played opposite Alfred's captain, Odessa. Throughout the game they played each other nip and tuck and on a par. Older scored two points, however, but these were on fouls.

In the initial quarter, the Frosh seemingly could not start their offensive clicking, handicapped perhaps by the comparatively small court. In the second period they cut loose.

COURTSTERS TAKE DEFEAT ON TRIP

Fighting against the odds possessed by their more rangy opponents and playing their second game the following night, after a 100-mile trip, the Varsity Saxon cagers were forced to submit to defeat at the hands of Rochester University opponents here, and Brockport Normal courtsters there just before the vacation period.

The "Flower City" combine took victory by a 23-12 score, while Brockport succeeded in downing the game and trip-worn Purple men by a 33-32 score in the twilight minutes of the fray, after Gagliano and DiCandia had been forced from the contest by personal fouls and an injury, respectively.

Rochester did not possess a more smoothly working machine than the Alfred team. Throughout the fray, the Saxon defense withstood many

severe attacks. The visitors, however, had eyes of eagles and rolled up the score through the free throw route. Likewise, on the defensive, the invaders because of their height advantage were able to hold the Saxons in check.

Leading 20 to 13 at the half, things looked rosy for the Alfred men against Brockport. With the start of the second quarter, however, the Normal School quintet tightened. Crippled by the loss of Captain "Gag" in the last seconds of initial half and losing DiCandia early in the second sector, the Brockport courtsters slowly advanced to an almost even score. Then with some 45 seconds to play, a foul and field goal gave them the victory.

DR. WATSON ADDRESSES BIO SOCIETY

Continued from page one for many purposes, Carnauba wax has nearly the same chemical composition as true beeswax, so that its presence in quantities of less than 10 per cent could not be detected. In 1930, Doctor Watson found a method of recrystallizing a sample of wax in such a manner as to detect with the aid of a microscope adulterations as low as three-tenths of one per cent.

Doctor Watson is now trying to develop a new strain of bees which he calls "downey bees" because of a white coat of down covering their entire bodies. By intensive inbreeding and selection, he has been successful in developing this character for five generations.
