ATHLETIC AWARDS PRESENTED AT DANCE

A large number of the college students enjoyed the Varsity "A" dance, which was held in the Field and Track House on Thursday, March 17th, despite the excitement accorded those who were concerned with the burning of Sigma Chi Nu house. Johnny Fitzgerald and his "bicycle band" played music and put on several entertaining acts, featuring a tap dancer and a soloist.

The climax of the evening was the presentation of medals, ribbons, letters and buttons to the deserving members of the various teams.

Those who received football medals following football season: Dale M. Lockwood, captain; Robert E. Hatch, end; Robert C. Underdown, fullback; Leonard S., Wadsworth Giller, halfback; Albert W. Zuckerm, right end; John M. Tener, left end; Robert H. Webster, center; and G. Wadsworth Giller, captain.

The previous season, medals were given with gold letters in appreciation for their fine work. The following men received these letters: George J. VanDerheiden, captain; Robert E. Hatch, end; Leonard S., Wadsworth Giller, halfback; Robert A. Eyster, quarterback; John M. Tener, left end; Robert H. Webster, center; Dale M. Lockwood, captain; and Wadsworth Giller, captain.

The Baseball team was presented with gold tags in appreciation for their fine work. The following men received these tags: Ralph A. ladies in the spring of 1929, which has been postponed due to examinations on the number of students and because of exams themselves.

Sigma Chi Nu wishes to express its deepest appreciation of all aid and assistance which has been done for them during and since the destruction of their house. We respectfully thank Phi Alpha Pi for the use of their house to store our things over night.

STEINHEIM

Do you know that some millions of years ago an ocean ruled over this very region of Alfred? Within this sea lived many of the most interesting and beautiful of all animals, such as mollusks, corals and brachiopods. The shells of many of these animals were buried in the sand and silt sediments of this area. So strong was the water action that some layers of rocks which the geologists know as the Cheektowaga limestones contain these fossils. These rocks the remains and imprints of the above shells now appear as fossils.

The Steinhelm Museum has the most complete representation of Cheektowaga fossils in any museum in Western New York. This collection consists of a few hundred specimens which are not only different in their appearance and study, but will illustrate this interesting subject, Paleontology.

DELTA SIGMA PSI

R. GUY COWAN SPEAKS TO GROUP

Wednesday evening, March 17th, in Kenyon Hall, R. Guy Cowan addressed the students. Mr. Cowan is a member of the Class of 1929, and is now teaching at Cornell University. His topic was "Art in Business." In his talk he pointed out the present trend in art, which is the presentation of work that can be used in the art in pottery in portion of the house, the picture that burned. This picture was the work of the late Mr. Wadsworth Giller, who was the painter of the mural of "The Purple Hat" in the ladies’ dormitory. The direction of the wind was from the west toward the house, and the flames were pouring out of the attic window at the front of the house.

The staff of the Fiat Lux wishes to extend their sympathy to the family of Jack Austin, in the loss of their son, and also to commend the college men and professors for their work in removing the furniture and in putting out the fire.

Why is it that the traditional picture of a teacher or more especially a college professor presents a view of Quasimodo and Charlie Chaplin with a personality that is the presentation of all things that are hide-bound, pedantic, stuffled and otherwise obstructive. We view such a picture in various ways will admit, but this same anyone will go on and qualify his statement by saying that it is no exaggeration that has a true basis in most cases and which is justified in some.

Again the question, why?

The answer to the "why" requires too much space to be done here, but the explanation of the failure of the college professor to go about his work of teaching as a life with a scholastic personality, in short, is there no more reason as to why a teacher is below his human being, but rather unlikable and unfriendly. Professors possess personalities and the capacity for friendships, they are not a thing apart, but rather a part of a thing which makes us human beings.

The Leop and dance of the season is to be presented by Pi Sigma Gamma on April 11th. Many of the girls lost their presence recently. However, they will not be allowed to perform in the show.

The Science Club was formed to discuss the topic. One member suggested a discussion on the topic of the number of thirsty people in the world. Another member suggested discussing the number of thirsty people in their own school. A third member suggested discussing the number of thirsty people in their own town. However, all members agreed that the topic was too broad and that they should focus on a more specific topic.

The Science Club meets every Tuesday at 3pm in the Science Building.

FIAT LUX, TUESDAY, MARCH 22, 1932

In answer to prominent speakers of today, who declare that America is and always has been a country of alcohol and war. But he added, "It is one thing to outlaw an evil and another to destroy it." The speaker emphasized the fact that as it took centuries to outlaw it, it will take decades to destroy it.

Then he cited several, telling statistical comparisons of conditions before and after prohibition that abolition of the eighteenth amendment, that prohibition of alcohol in spite of the bootleg traffic and the enforcement of the law by the federal government, was never more sympathetic toward the peoples of the earth. The leveling of alcohol and war. But he added, "It is one thing to outlaw an evil and another to destroy it." The speaker emphasized the fact that as it took centuries to outlaw it, it will take decades to destroy it.
