A piece by David Vertacnik, AU Class of 1975, has been selected for the 2015 SculptureTour in Salina (KS), an outdoor exhibit of sculptures that changes each spring. The unveiling of this year&s pieces - by 19 artists - takes place in downtown Salina Saturday, May 9 at 11 a.m. The pieces remain in place for a year.

The Salina News recently published a profile article on David, a professor at Kansas University. In the article, he says “all sorts of things my surroundings, the news, people, the cyclical natures of things like the fruit trees in my orchard, science” inspires his art.

“Most of my work has been constructed using mixed materials (and) found objects. I do enjoy working in cast bronze, plate steel whatever seems to fit the idea. I enjoy the process associated with working (with) different materials.”
