

FIRST FORMAL INAUGURAL RITES GIVEN TO NEW COLLEGE LEADER

Huge Crowd Hears New President Deliver
Address On The Creative Teacher

President Paul Emerson Titsworth spoke on the topic "The Creative Teacher" when he delivered his address before an enormous crowd in Alumni Hall, Friday morning, at the First Formal Inauguration of a President, to be held at Alfred University.

In his address, President Titsworth attempted to show the incompleteness and inadequacy of our civilization and its effect on the individual. He said "Civilization is something not so much to be boasted of as to be achieved."

Alfred University has always put the greatest emphasis on its teachers for the boys and girls they teach today are the men and women of tomorrow.

"This proud tradition of great teaching is being maintained today, 'Great teachers make great men'. The present administration pledges itself to the stimulation of good teachers and teaching," went on the President. "What I covet for Alfred is teaching of unusual quality—creative teacher is a realist—a lover of the truth. He has no disillusion about anything, he tells his pupil the truth and attempts to give him a clear unprejudiced picture of life.

"The creative teacher," declared President Titsworth, "helps his students to look the world's current balance sheet squarely in the face. Without concealment he points out the unfinished tasks of civilization, its conflicts, its deficits, the outstanding contrasts between its resources and its achievements."

"Secondly, the creative teacher is a humanist—a lover of his fellow men. The creative teacher as a humanist has as a dynamic and definite sense that learning does not exist for learning's sake but for man's.

"But it is not enough for a creative teacher to love the truth and his fellow men, but he must be a coordinator.

"One who brings out of confusion, takes unrelated and meaningless fractions and pieces them together into a meaningful unit, fits together the odds and ends of human experience to make patterns of significance and beauty."

President Titsworth maintains that the creative teacher is progressing in that he is succeeding in pulling together the separate units of the college curricula into one organization. "A teacher as a coordinator plays the role of a humble co-creator with the ultimate co-ordinator who is responsible for the increasing purpose which runs through creation."

In conclusion President Titsworth stated that "If American colleges can develop realistic, humanistic, co-ordinative teachers—we shall have on this continent a revival of significant learning such as Faust languished for and the German Renaissance never dreamed."

COLLEGE BAND NEEDS MORE HORN TOOTERS

The University Band formed two weeks ago by Professor Wingate has been practicing diligently to achieve that perfection which will allow them to make the several planned trips to neighboring towns this winter.

To date the University Band boasts nineteen members. It is not too late to join and more reed instruments are needed.

One semester hour credit is given to all members.

PRESIDENT HONORED AT BRICK LUNCHEON

The luncheon given in honor of President and Mrs. Paul E. Titsworth was served in the dining hall of The Brick, October 20th, at 1:15.

Dr. F. G. Crawford, President of the Alumni Association of Alfred University, presided as toastmaster, and the invocation was given by President J. W. Crofoot of Milton College, Wisconsin. Mr. Rogers, of the Alfred Board of Trustees, Pres. F. C. Ferry of Hamilton College, President Emeritus B. C. Davis of A. U., Dr. John Nelson from Rotary International, Mr. Horner from the University of the State of New York, and Dean J. Nelson Norwood brought brief messages of greeting to the new president.

The student body was represented by Miss Margaret Bastow and Mr. Edgar A. King. Miss Bastow, President of the Woman's Student Government, pledged the loyalty and cooperation of the student body to President Titsworth in his new administration. Mr. King, President of the Student Senate, said that the youth of Alfred was looking to the new president for guidance and leadership and welcomed him with "enthusiasm, expectation and confidence".

The program was concluded by President Titsworth's expression of appreciation and thanks for the many kindnesses bestowed upon him on the day of his inauguration.

LECTURE AND DEMONSTRATION TO BE GIVEN BY W. T. LEVITT

Under the auspices of the Student Branch of the American Ceramic Society, Mr. W. T. Levitt of the Corning Glass Works, Corning, N. Y., tomorrow evening, will give a lecture and demonstration concerning the making of chemical apparatus and small electric bulbs.

The program will take place at eight o'clock in Lecture Room "A" of the new Ceramic building. All students of the Ceramic College are invited to attend.

ECONOMIC LAW NIL AT SOCIAL HALL

Those interested in Economics will please note that there is one institution on Alfred's campus where the supply does not exceed the demand. At least that condition existed last Wednesday night at Social Hall. The stag line looked like a five o'clock subway rush. Why, they even had a man on watch at the window to tell whether it be male or female coming up the road. It reminds me of the old "Sister Ann, Sister Ann" and Bluebeard story. And every time the door clicked on the Brick, the fellows all got blue in the face with expectancy. Old Mother Susan, upon the wall, must have been wondering what has become of social spirit of the female sex. Or is it the boys' lack of cooperation?

ALFRED HARRIERS BEAT HOBART

Hobart's harriers lost to Alfred's strong Cross Country team at Geneva, Saturday afternoon, as Java and Oldfield traveled the four and a half mile course in close to record time to lead the Saxon team to victory. The two leaders were closely followed by Captain TenBroeck and Danny Minnick. The veteran Captain Captain Treat of the Genevans spoiled Alfred's chances for a perfect score by copping the sixth position. Following in rapid order came Cibella, Knapp, Mulligan and Tolbert.

Friday, October 27th, the Alfred team will meet Rochester. The race will start from Merrill Field at 3:00 P. M. Coach Gorton promises to bring the best Rochester team in that school's history, and a comparison of the scores of his team and that of the Purple squad against Hobart would indicate that Alfred will have an interesting afternoon. The Saxons will be augmented by Prior who was unable to make the Hobart trip. Coach McLeod is far from satisfied with the showing of the Alfred team to date as they still lack a five man team balance under two minutes. The achievement of that goal must be made this week over the four and half mile course around the campus, known as Double A, if they are to offer Colgate and Army any real opposition.

The results of the Hobart meet follow:

Team	1	2	3	4	5	6-16
Alfred	1	2	3	4	5	6-16
Hobart	5	7	8	9	10	39
1. Java, A. and						24:01
2. Oldfield, A. tie						25:37
3. TenBroeck, A.						26:15
4. Minnick, A.						26:42
5. Treat, H.						27:00
6. Cibella, A.						27:23
7. Knapp, A. and						27:33
8. Mulligan, A. tie						27:59
9. Tolbert, A.						28:03
10. Chasey, H.						28:14
11. Loyty, A.						29:23
12. Condon, H.						29:52
13. Patterson, A.						31:27
14. Mellrose, H.						
15. Hartzel, H.						
16. MacCubben, H.						
17. Bossard, H.						
18. Will, H.

MRS. SEIDLIN TO GIVE PIANO RECITAL

The Assembly Thursday morning will be entertained by a program of piano selections played by Mrs. Ada Becker Seidlin. Those who have heard Mrs. Seidlin play on previous occasions will come early to assure themselves of a seat.

SAXONS SUFFER FIRST DEFEAT OF YEAR AT HANDS OF ITHACA

Ithaca Team Comes From Behind In Last Half
To Take Victory As Alfred Slows Down

FRATERNITY HAS CONVENTION HERE

Eight chapters of Theta Kappa Nu fraternity met at the local chapter house the past week-end for an Alpha-Beta Province Convention.

Several delegates were present from each chapter, together with representatives from the Central Office, including A. Bruce Musick, Executive Secretary of the fraternity.

The program was officially opened Saturday morning at nine o'clock with a business meeting held in the new Ceramic building. After three hours of discussion of fraternity problems the meeting was adjourned until 2:15. During this interval a luncheon was served at the Parish House. The afternoon program included a short meeting followed by a theatre party at Alumni Hall, after which a dinner was served at the Parish House for the delegates, members and their dates.

The better part of the evening was taken up with the football games. Plans had been made for a dance to be held in the ballroom of the Ceramic school. Although the time was shortened more than was anticipated by the football games, Bill Welch and his "Smoothies" furnished splendid music for dancing.

Sunday brought the convention to a close with a noon dinner served at the house, following which the various delegates departed for their respective schools.

Many alumni were present for the joint program of the Convention and Home-coming Day. They included Robert McMahon, Neil Welch, Harold Huffcut, Richard Regan, Benjamin Bentley, Paul Hill, Paul Gardner, Norman Annis, Donald Fenner, Regal Perry, Norman Hubbard, Loyal Van-Dyke, Dean Fredericks, William Clarke, Edward Alfred, Dean Mowers, Theodore Cobb and George Williams.

Faculty guests at the dinner and dance were Dr. and Mrs. Holmes, Dr. and Mrs. Scholes, Dr. and Mrs. Nease, Professor and Mrs. Hildebrand and Professor and Mrs. Boraas.

HIKING CLUB FORMED HERE BY CO-EDS

On a clear crisp October morn there's nothing like a brisk walk followed by an outdoor breakfast (if you're not dieting) to pep you up both mentally and physically for the whole day. So say the twenty-five girls who last Friday morning at six o'clock left Alfred and hiked spiritedly down the Alfred Station road and up the hill on the left to the "Red Onion" where they ate breakfast.

This event was the first in a series sponsored by the Women's Athletic Governing Board. Those who go out for hiking seriously will comprise the Hiking Club of which Helen Smathers is the manager. As assistant leaders she has Eleanor VanTyle, Marion Clements and Ethel Carpenter. Each week, one of these girls will lead off a hike of a different sort to some new and interesting place. These hikes will not always be on the same day of the week so if you can't go one week, perhaps you can go the next.

It's said the Hiking Club is going to go places and do things this year, so watch for future announcements.

Gridmen of Alfred University today were preparing to regain a lost prestige against Cooper Union College here this coming Saturday night—a prestige subdued by a 12-7 victory in a last half barrage by Ithaca School of Physical Education before a crowd of 5,000 fans last Saturday night.

Alfred started off like a house-afire. And during that first half they were a house-afire, although the blaze did begin to dwindle down a little in the twilight minutes of the half. Three times in the first quarter Alfred marched to within scoring distance. Bad breaks stopped them the first two times, but the third drive proved successful.

After the touchdown, Alfred kicked off to the visitors and then held them to a dead stand on the Ithaca 15-yard stripe. Favored with the wind, Sawyer of Ithaca got off a pretty punt to Hodges, who waiting on the Alfred 25-yard line, zig-zagged his way back to mid-field to start another drive, which was halted, when Clark of Ithaca intercepted an Alfred pass on his own 27-yard line.

With the start of the third quarter, the wind was in Ithaca's favor. They opened with a beautiful kick and for the first couple of minutes, it did look as tough Alfred was still in the pink. Besley got off through a center rush to place the ball in mid-field. Boylan broke through to Ithaca's 30-yard line. Here Ithaca tightened. Alfred was held. Hodges got off a short kick. The ball hit the umpire. The ball was downed on Ithaca's 25-yard line. Sawyer and Clark swung into action for the visitors. They squirmed, plunged and edged their way to Alfred's 42-yard line and the first offensive invasion of the game into Alfred territory, and to a touchdown.

But Ithaca was not satisfied. They still trailed by one point. Both teams battled on even terms, but the battling was being done in Alfred territory, until the last few minutes of the third period, when Sawyer got away on a 25-yard gallop to Alfred's 20-yard line. Another pass proved the dynamite. It was from Patrick to the end, Kincaid. The pass for point failed.

With the opening of the fourth; Ithaca started another drive, but was halted on the Saxon 15-yard stripe. Then, Alfred cut loose in a last vain effort to register a touchdown that would have meant victory. The ball was on Alfred's 20-yard line.

On the first play, Hodges galloped through center and out to the side for a gain of 25 yards. Firestone added four more. Signals were called a third time. Hodges took it and was stopped by Clark on the Ithaca 22-yard line. Clark was injured in making the tackle and had to be taken out. A fumble on

(Continued on page four)

ALFRED RADIO CLUB TO OPERATE SOON

The Alfred Radio Club, under the leadership of Prof. Corteyou, is making great strides this year. They have two licensed operators and plan to apply for a license to operate a wireless telegraphy transmitting station.

They will have a portable transmitter with which they can send the results of out of town athletic contests back to Alfred, directly from the scene of the game. Also they will extend this service to other schools playing at Alfred.

FIAT LUX

Published every Tuesday during the school year by the students of Alfred University with office in the Gothic.

Entered as second-class matter October 29, 1913, at the post office at Alfred, N. Y., under Act of March 3, 1879. Subscription \$2.50 yearly.

SOCIAL NEWS

Sigma Chi Nu

Sigma Chi Nu is very pleased to announce the formal initiation of Barbara Galton, Lauretta Thompson, and Charlotte Jazombek.

Among the alumni who were back for the Home-coming game were: Anis Stoanty, Helen McCarthy, Ruth Baker and Virginia Richter.

Pi Alpha Pi

A busy week-end, but how we like them! Early Saturday morning, everyone was up and at work—which is unusual. Guests, alumni and friends arrived during the day, so that by night we had a full house.

From various remarks on the part of the girls we gather they are just as glad that fraternity rushing is over as the fellows are.

No, we aren't pirates although we have been walking the plank all week.

Guests during the week included several Freshmen girls, and Laura Thompson.

If the twins were only taking General Methods this year, what a paper they could write on "The Technique of Ascending to a Double-Decker". It couldn't be anything but an A+.

A great week-end, team!

Theta Theta Chi

Who could ask for a better week-end for Home-coming? Guess it is the warmest one we have had in many a year!

We were awfully glad to see so many of our girls back—Clair Persing '30, and her friend, Ellen Cahall, from Hilton, stayed Saturday and Sunday. Vivian Parmalee '33 and her friend Margaret Grace from Oneida stayed Saturday night. Florence Schubert dropped in Sunday morning—from these few we have heard some news about a number of our alumnae.

It's a shame now that cold weather is here we can't have pictures of the girls on their way to the sleeping porch. They take everything but the kitchen stove to keep warm. I wonder what they'll do when it really is cold?

We enjoyed having some Frosh as dinner guests during the week, also some for Friday night.

Grace Ellen Philippi of Chicago was our guest for the week-end.

Theta Kappa Nu

Theta Kappa Nu House joined in the national celebration of the 9th anniversary of its founding last Wednesday. Special services were held throughout the day and evening.

The house was pretty well deserted Saturday, with practically all the inhabitants witnessing the game at Buffalo.

Everyone is working to full capacity in anticipation of the Province Convention to be held here this coming week-end. Dates for the visiting delegates are much in demand, girls!

The population at the house has increased by one this past week, with the advent of a very dear friend of

Grantier's, in the form of a stray kitten.

New York Beta Chapter of Theta Kappa Nu held formal initiation at the House, Sunday. A formal dinner was served at one o'clock following which the initiation services were conducted. The following pledges became members at that time: Glenn Boylan, Earl Davis, Andrew Fedor, Arthur Firestone, Donald Heyward, Michael Java, Aldridge Mulligan and Robert Shults.

Bartlett Dormitory

Friendships have already sprung up among the fellows in the dormitory, which undoubtedly will last for many years. At first the fellows seemed shy, but as they are getting acclimated to their new surroundings things are starting to break. The fellows in the dorm have contributed toward the purchase of a radio, flat iron, and a box of washing suds. (Girls—if they could only cook—and I believe some of them can by the way they walk). They have also elected George Gregory, Doug Nevin and Ben Racusin as officers of the dorm.

Lately, the fellows have been walking around the Brick looking at a certain window. (How about it Imogene). The addition of Billy Hampton, as night clerk, to the staff at Bartlett Dormitory rounds out the best crew of fellows on the campus, (including the counselors). The dorm is indeed fortunate in having two such entertainers as Ray Pape and George Gregory, Ray, a singer of no mean note, (pun) has given several request recitals (without any requests whatsoever). George Gregory is an entertainer of a different sort. He gives lectures on the phases of love every Friday evening. This week's topic will be "Holding hands in the Moonlight". All are welcome.

Things are running along smoothly under the capable direction of Mrs. Camp. This week the Dorm had as its guest, Robert Welch of Elmira. Patchogue Charley requests his name mentioned in Bartlett's news. I wonder if he is trying to fool anyone.

The Brick

Ha-roo, we think the depression must be over, for certain girls (and don't think we haven't our suspicions) have been generously greasing our doorknobs and squeezing toothpaste into the key-holes. Any further ideas on the subject will be accepted. Send all contributions to Miss Helen Palmer.

Great was the excitement thereof, and the Frosh boys did hurry hence to the old barn to slay the daring Sophomores who were endeavoring to paint over the sacred '37. Think of their surprise, nay, their embarrassment to find that the light on the hill was only a farmer looking for his lost cow. Imagine taking a farmer for a Sophomore.

A certain young lady here at the Brick was heard to remark that whenever she rode a horse, it went to her head. We have our doubts about this, especially after seeing her walk home from the horseback ride. Was Verna Quimby's face red (in-

Professor G. W. Campbell

INTERVIEW WITH PROF. G. W. CAMPBELL

Do you know the man behind the movies? The man who knows your I. Q. who marks miles of true-false tests on the normal curve of distribution, just for the fun of it.

As a boy, he proudly upheld his position as the second best marble player in his gang. His only rival had a steel ball-bearing marble against which he just couldn't compete!

Although, during his college years Dr. Campbell disliked any form of calisthenics, he was active in five sports, football, basketball, baseball, track and tennis, in each of which he won a letter at Kentucky University, now known as Transylvania.

His greatest interest lay in his studies. That he was twice a candidate for the Rhodes Scholarship is proof enough of that. He is still most fond of reading, either some ponderous tome on psychology or in weaker moments the latest book of the month. This has more attraction for him than attending social functions, although some of the frosh can testify that he has been actively interested in providing an opportunity for them to learn the art of ballroom dancing. While in Divinity School he played a flute in the Yale orchestra. He modestly assured us that it was only because they couldn't find anybody else who would try to play that instrument.

After graduation, he and three other members of his class toured Europe in a ramshackle Ford. Evidently Germany must have fascinated him for he remained there at the University of Halle to work for his Ph. D., which he obtained in 1914.

He is fond of travel—just inquire as to the number of miles on his old Hudson if you don't think so—95,000 miles; and the new one has already got a good start on the former favorite. As a good beginning it ran up the miles on a trip to the World's Fair this past summer. He hopes to be able to satisfy his yearning for seeing new places by returning to Europe sometime in the future, and incidentally to study more since his ideal is to become a better teacher.

Not all of his time has been devoted to such weighty matters though. At different intervals he has been an energetic gardener, a connoisseur of rabbits and an ardent fisherman. Just once he caught all the bass he wanted, 'way out in Minnesota. Now he is planning to inveigle a luckless trout to bite on his hook—when he goes to the Maine woods next summer.

While in Alfred the cooperative movie is his chief concern, and the altruism of his hobby we all appreciate. At present his greatest desire is to sell just one more season ticket to the movies!

(Incidentally her fingernails too) when the assistant Greek Prof told her that her red fingernails looked like—well Heck—if you must know.

Playing football in the corridors with Muriel Freeman's coat. 'Mid the encouraging cheers of the girls of Good old '37—Aileen Broch made a spectacular "slide-down" to the fire escape. The coat was lost in the free for all fight at the finish.

A rousing house meeting was held last Monday at which time plans were completed for our dance. Also two lucky damsels were appointed by the House President to answer the telephone for a month.

Will the person who stole the record "Love is the Sweetest Thing," please come and see the writer, as the girls of the Brick are going to chip in and buy the dear, dear person a medal.

LIBRARY NOTES

Purely out of the goodness of our heart (editorial our, personal heart) in altruistic effort to enlighten this darkling world, promote the interests of good literature, inform the mind, and make the world safe for democracy, we herewith append a few of the more significant items about books and authors. No education is complete, even an assiduous reading, inch by inch, of the five-foot shelf, if it does not include a thorough acquaintance with the social engagements of authors, fortunes, family, friends and foibles. An ounce of gossip about a writer is worth a pound of knowledge about his book.

Sinclair Lewis has a superb gift of mimicry and of reciting monologues, and might have been a highly successful actor if he had chosen the stage instead of literature. He carries around with him an alarmingly false beard with wads of cotton batting, with which he can transform himself in a moment into a caricature of a Methodist divine, ready to condemn all the sins of the naughty world.

"So they call you, 'The Bravest Woman in the World,'" a smiling little old woman, her face seamed by the wrinkles of hardships and suffering, said to Lucia Zora.

"Everyone has to have a name in the profession," was the modest answer of the author of "Sawdust and Solitude"—an autobiography of circus life.

Whether or not there's any Irish in Paul Green, we cannot say; but a fact is that the author of "The House if Connelly," was born on St. Patrick's Day—Nelson Antrim Crawford author of the satirical fictional biography of modern university president entitled "A Man of Learning," is opposed to all forms of censorship and sumptuary legislation. His favorite recreation is bridge. The average cat, he thinks, has many points of superiority to the average human being—Almy St. John Adcock, author of "Love is Master," began writing at the age of six, and hasn't stopped yet—We have.

ALFRED IN 1895

We heard about that earth quake several years ago in the vicinity of Alfred, but we didn't know it was as serious as we now believe it to be. What else can we believe of its great destructive powers, when the Alfred Sun of 1895, informs us that Alfred then boasted six doctors, four groceries, two drug stores, two coal dealers, two bicycle agents, one furniture store, one millinery store, two jewelry stores, eight dressmaking establishments, four shoe dealers, two dry goods stores, and insurance agents. And now look at the balance! With all these stores, we wonder, did people used to bum from Hornellsville to Alfred to buy their needs? But, still, all is not out! Alfred also possessed a grist mill, a tin shop, an undertaker, a cheese house, a cheese-box factory (for the cheese), a harness maker, a carriage painter, a dealer in stone sidewalks (which were probably guaranteed to be taken in at eight-thirty sharp) a macadam road from Alfred to the depot. Alfred University, a church—and an opera house seating 600. Maybe we're missing something, not living in the good old times, eh?

Football practice at Colgate was interrupted by the presence of a very unusual candidate, Heinie, a canine intruder. Heinie made himself such a nuisance rough-housing with the players that the practice had to be called to a halt.—Colgate Marion.

The American News tells of a senior at Wisconsin, who, finding himself unable to pass an examination pinned a five dollar bill on the blue book and wrote: "Let your conscience be your guide." He passed.

Professor H. O. Burdick

INTERVIEW WITH PROF. H. O. BURDICK

Prof. Burdick's accent is the real thing, for he was born in a small village in New Jersey. Heeding the famous advice to "go west, young man, go west", he attended Milton University in Wisconsin. The vacations to which we all look forward with anticipation, meant nothing to him, for he stayed at school and worked. Even during Christmas, which brings for us the most morning to sleep late.

Milton has a fine Glee Club of which Prof. Burdick was a member. He won his letter for baseball in which sport he is particularly proficient. He was not especially interested in any part of Biology until once a friend lent him an illustrated book on birds. He cut all his classes the next day and went to the woods seeking the birds. Altho he did not find many of them, he remembers that day as one of the most enjoyable of his college career.

Prof. Burdick taught Biology and Chemistry for nine years at Salem College in West Virginia. He has done graduate work at many colleges. His alma mater knew him as a professor for two years. He is a member of Phi Sigma Biological Society and Sigma Xi Society of Physical Sciences.

The Burdicks constructed a small camp in the wilderness of Rhode Island on the shore of a lake. There with three fine children they spend their vacations.

Prof. Burdick has a genuine sense of humor and one appreciates his interest in detective stories and the heavy task of painting his house. Photography is his pet hobby; the family automobile, his pet hate. Different from many men, he likes to give Mrs. Burdick the credit for things.

Altho the Burdicks have been in Alfred only a few years, they have made a real place for themselves in the college and in the community.

The University of Texas and the University of Chicago jointly are building the new McDonald Observatory in the Davis Mountains in southwestern Texas to house the second largest telescope in the world. The largest telescope in the world is the 100-inch reflector at Mount Wilson, Calif.

OPINIONS

"—ONLY THROUGH THE OPEN AND UNHAMPERED CLASH OF CONTRARY OPINIONS CAN TRUTH BE FOUND."—Glenn Frank

OPINION

Homecoming—I wonder if we in college can appreciate its full meaning? Our graduates come miles, maybe I should add hundreds to that, but in any case they come back. There is always a football game, that imbodies the thrilling spirit they used to feel as students, and then the Kanakadea dance. Once more every one gets together, the alumni see each other again. The present students get to know the alumni and what they have stood for in the past, and so the Alfred Spirit is carried on—This, everyone already knows and yet they all ask the same question—why did we have a High School game on Homecoming Day—of course the game was interesting from the point of view, that maybe some of the boys will come to Alfred, but that really only interested the present students, because that is working into the future.

Without the dance and the getting together of the different classes, everyone feels, that the trip is almost worthless—Of course we can meet in church, but can't you see someone dashing up the aisle to shake hands with his pal of yester-year—Of course there is after church, but then everyone is on their way home—I wonder what the alumni will say when they are home again—It seemed a shame to spoil such a week-end which had so many possibilities.

A Senior.

SPOTLIGHT

Grace M. Sarandria

There will be an amusing musical comedy at Alumni Hall on Thursday, October 25th. It is "Moonlight and Pretzels," with Mary Brian, Leo Carrillo, Lillian Miles and Roger Pryor. Alexander Gray will entertain us with his fine baritone voice.

Although the idea in the story is not new, it is always interesting. Again, someone is trying to make good on Broadway. What are his trials, and how does he make out in the end? Come and see this picture when it comes here Thursday night.

There are fifty beautiful show girls, and eight song hits in this picture. There is plenty of romance, gaiety, and comedy with a big cast of screen, stage, and radio stars. You will be able to see many of your favorites in these fields.

You will also see Slim Summerville in a new comedy, "Kid Glove Kisses". It is lots of fun, so come one and all, and have a good time.

Consider yourselves lucky, Frosh. The freshmen at Hobart have to learn the names of all the seniors.

By Chaplain James C. McLeod

Blue Monday comments on the week-end in sports at Alfred do not make bright reading, but we can cheer in the consolatory fact that this is the first and even this one has a bright spot. While the Varsity football team slowed down after a thrilling start, and the Freshmen were being bowled over by a strong North Side team, the Harriers came thru with a clean cut win over Hobart at Geneva. We attended college and we know full well that the victory of the Cross Country team, even in a school where it ranks as a major sport does not offer much to appease the student body's appetite for victories. This week-end it is the best we can offer, along with the comment that even in victory the hill and dale team left much to be desired and they have a long way to go before they will give some of their future opponents much opposition.

S—L—S

The Monday morning quarterbacks were basking themselves in glory after that last game, but few of them were heard to remark that the opposition was tough. Aided by recent additions (freshmen), the Ithaca College team was an unknown quantity because they can't get games with other colleges which abide by the one year ruling. They flashed a powerful, and apparently bewildering offense in that second half and earned a clean cut victory over the Saxon gridmen. No one can deny that they had players and plays, and that they clicked. Alfred on the other hand was the victim of several setbacks at crucial points in the game when the offense seemed to be just gaining momentum. From the spectators viewpoint, it was a splendid game between two evenly matched teams.

S—L—S

We suggested a reference to the Yale-Cornell Cross Country score, and we note that the Eli runners did not fare as well as Alfred, the score being 24-31. Incidentally Cornell showed improved team balance and greater general strength than they had here. This week the Alfred team meets Rochester here, and the comparative scores of the two teams against Hobart would indicate that Alfred will have to show their best team balance of the season to score a win. Doc Gorton of Rochester has two men who will break the scoring strength of Alfred and two others who will finish well up. The Frosh have two meets this week with Almond and Geneva High Schools.

S—L—S

Did you know that: Walter Winchell prophesied (which means he had the inside dirt as usual) that Andy Kerr would pull a heretofore unseen play against N. Y. U. Now read an account of how Colgate scored. And did you know that: Oregon State which just broke the long string of victories by U. S. C., has a team on which the shortest man is 6 feet 2 inches? Jack Moakley the Cornell track coach has been at Ithaca for thirty-five years and that the highly publicized Dean Cromwell was trainer and rubber under him when the U. S. Olympic team of 1920 went to Europe? That two of the best backs—The Kaufman brothers—on that great Princeton team are residents of New Haven and were expected to go to Yale? That Cornell made that lone touchdown which stupefied the onlookers, by pulling the ancient and venerable sleeper play? That Mintz, Tulane right half, took Georgia Tech's kick-off to start the second half on his own goal line and ran 100 yards for the only score of the game and then made the kick for extra point? That Phipps, star half at Auburn has just one other sport—ping pong?

FROSH DROP GAME

Yearling gridmen of Alfred University, undaunted by their 34 to 0 defeat at the hands of Corning Northside High School, Saturday afternoon in the "Glass City," today were preparing to do battle with Genesee-Wesleyan under the floodlights of Merrill Field here at 8 o'clock, Tuesday night.

Offering stiff opposition, Alfred's team found itself in difficulties from the start of the game, when Riffle, half-back of the Northside team snatched the Purple kick-off on his own ten-yard stripe and scampered fifty yards to place the ball on Alfred's forty-yard line.

Riffle's startling run seemingly dazed and tossed the Alfred defense plays after that run, saw Riffle cross to the winds at the start. Two more the Saxon goal line. A kick for the point failed. Resisting stubbornly, the erful drives of the Corning team. yearlings could not withstand the pow-

Brilliant running by Alfred's field general, Louis Babcock, and slashing tackles by Nick Franzer, former West Point cadet, were the stellar bits of play on the Alfred team. Babcock, once intercepted a pass, but after dashing a few yards was nabbed. His other runs were to no avail with each offensive being plucked in the bud.

Alfred	Position	North Side High

Frazier	R. T.	Speer
Oberhanick	R. E.	Wingate

A Joke to End All Teacher Jokes
Teacher: "Can you think of a sentence using Trichinellis Spirilis?"
Little Willie: (age six): "No."

One Siamese Twin to Another:
"You must have had a swell time last night. I look like a wreck today."

The hostess was talking to one of the football men as the two sat listening to a chimes recital:

"Beautiful, aren't they?" remarked the hostess.

"Pardon?" inquired the football player.

"I say they're beautiful, aren't they?"

"I'm sorry," he roared, "but I can't hear a word for those damned chimes."

And have you heard the one about the watchman who stood so long in the bread line he lost his job?

"What sort of toothbrush do you want?"

"Lemme have a big one—there's thirty fellows in our fraternity."

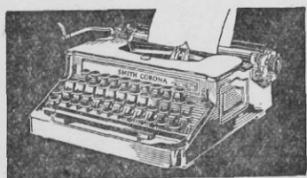

1st Student: "What shall we do tonight?"

2nd: "I'll spin a coin. If it's heads we'll go to the dance, if it's tails we'll go to the movies, and if it stands on end we'll study."

"BLESSED EVENTS"

Things have come to a pretty pass when college men have to resort to playing "Cowboys and Indians". In fact we might remark, "How Droll". Believe it or not, last Thursday night at the corner of West University and Reynolds, a group of dastardly Indians ambushed a Lone Cowboy, who had been betrayed by a Renegade White. The lone cowboy was gayly whistling the "Last Round-up" when attacked. He was then scalped and left for the buzzards. (Scalping consisting of trousers removal).

Another delightful way of committing suicide has been discovered. Just ask H. B. or C. D. about either.

City slickers again take the country bumpkins for a ride. For shame!

There actually is a sophomore who keeps gold-fish. His contention is that he feels thoroughly soothed and satiated when he looks into the limpid eyes of a gold-fish. Oh well, maybe I'm crazy.

Baylor University at Waco, Texas, has in its freshman class this year the first set of quadruplets ever to enter college in this country, so far as is known. They are Mona, Mary, Leota, Roberta Keys, 18, of Hollis, Okla. All graduated together from high school last June.

Alarm Clocks 95c to \$10.00—Shaw's.

The Poly Tech Reporter tells of various ways the students made money during the summer. One student edited a one man newspaper—he wrote, edited, read copy, and did everything else and the eight page bi-monthly had more advertising and a larger circulation than a rival paper which had been in the place a year longer. Another student spent his summer keeping an eye on four children, taking care of two sailboats, making minor repairs on two cars, acting as a chauffeur, and playing nursemaid to four dogs.

A junior drove a beer truck all summer and one of the seniors worked as a landscape artist.
