

## Saxons Beat Defiance 20 To 2 In Last Half

Visitors Score Late In First Quarter on Blocked Kick  
—Team Shows Fine Condition

Coming into their own in the second half, the Purple and Gold gridsters of Alfred University swamped Defiance College 20 to 2, Saturday night, under the floodlights of Merrill Field. Outplayed in the first two quarters, Galloway's men trotted out upon the field at the end of the intermission with renewed vigor and launched an offensive attack that entirely baffled the tired, spent visitors.

Defiance scored their two lone points late in the first quarter when Hodges' attempt to kick from behind his own goal line was blocked by Dunham and recovered by Fribley, Defiance end, for a safety. Defiance was unable to score again but for the remainder of the period they easily penetrated the Saxon's then obvious ruses allowing them only small gains.

The third quarter saw the Saxons playing with the spirit and snap reminiscent of the 1933 team. Cohen, a lineman of last year and now playing fullback, consistently gained in his power plunges through center and proved himself invaluable in the role of hub for the deception plays. Hodges, the "Mighty Atom", made four spectacularly long runs and carried the ball on two of Alfred's three touchdowns.

The Purple and Gold scored her first touchdown late in the third period when Hodges took the ball from Cohen on a reverse and romped around the right end for 15 yards. A placement kick for the conversion was blocked and the third quarter ended with Galloway's men in the lead 6 to 2.

In the fourth and final quarter Hodges again spun off the right end for the second touchdown and Bob Clark wriggled his way between tackle and guard for the point after touchdown. With less than two minutes to play, Clark again carried the porkhild and in sensational style eluded potential tacklers in an end run for the third touchdown. A completed pass converted the extra point.

Adessa, Saxon end and last Saturday's Captain, caused the Ohio Ladies no little consternation as he and his partner, Trumbull, repeatedly broke through the line to foil passes and throw the opposing backs for heavy losses. Bob Shoemaker, who substituted for Boylan in the second period, threw six beautiful passes in succession but due to a severe case of butterfingers on the part of the receivers only two were completed.

Firestone and Boylan both gained more than their share of yardage and they were instrumental in acquiring a great deal more by running interference for other ball carriers. Chamberlin and Fedor effectively blocked their holes at tackle and Fedor's kicks were consistently longer than those of his opponent, L. Rex of Defiance.

Chub Young, who substituted for Perrone, proved to the somewhat dubious coaches, his ability, even though a sophomore. Gale and Oberhanick crouched resolutely at guard and made good their boast, "They shall not pass". Fargione, who replaced Chamberlin, and Oberhanick are two sophomores who proved themselves worthy of regular varsity considerations.

The lineup:

Line-Up	Line-Up
L. E.	
27 Trumbull	Fribley
21 Fedor	Woods
20 Gale	Heisehman
15 Perrone	Miller
33 Oberhanick	Duham
26 Chamberlin	Fredrick
31 Adessa	Simpson
13 Hodges	Campbell
25 Cohen	L. Rex
29 Boylan	Conkey
18 Firestone	R. Rex

Officials  
Tom Storrier, Syracuse, referee; Howard Ortner, Cornell, umpire; Sidney Miles, Ithaca, head linesman.

Substitutions  
Alfred—Korbman for Gale; Young (Continued on page two)

Proves New Berth

RUDY COHEN, Brooklyn, guard and back.

## Fine Program For Glee Club

Dr. J. Wesley Miller and Prof. Ray W. Wingate plan to take Alfred University's troubadours to about 12 schools before Christmas. They will be schools not visited the past year, mostly in the western part of the state.

About eight men of the old club will be back. Eight more new men will have to be trained in to complete the number to the required 16 who will travel this year.

The male quartet have been practicing daily for the last two weeks and will compose an important part of the club. The program will be similar to the one of last year, but will undergo several revisions for the Spring season.

## TO START SHOW EARLY TONIGHT FOR PEP RALLY

"Baby Take A Bow"—the Shirley Temple feature film hit that is making box-office records this season—will be shown by Alfred Cooperative Pictures, Thursday night. The show will start at 6:45 o'clock, cooperating with a second pep rally for the Northeastern game.

"Last Thursday's program worked out exceptionally well. It was a big success. It was necessary to wait 15 minutes, however, before we could start the feature picture and to eliminate that this week, we have decided to start our show 15 minutes earlier this week," said Dr. Campbell.

Shirley Temple, the five year old star, is said to be the biggest juvenile find in recent years. Already her popularity rivals that of many of the biggest stars. The rest of the program contains "Gold Dust" which is a comedy with setting in a desert town of the gold rush days. "Conquest of the Air" shows airplane stunts that thrill, while the cartoon, "The Lion's riend" pictures one of the fables in interesting fashion. One of those fresh Newsreels fills out the two-hour program.

## Assembly Today Features Talk On Economics

Dr. Wilhelm Pauck of University of Chicago on Lecture Tour—Is Noted Student

Dr. Wilhelm Pauck, professor of Christian Theology, School of Divinity, University of Chicago will be the guest speaker at today's assembly. The subject of his address is "The Crisis of Western Civilization." He advances the theory that the failure of our whole economic structure today is due to the undermining of world morality.

Though a comparatively young man, Dr. Pauck is well known throughout the entire United States. He came in his youth to America to the University of Chicago as an exchange student from Germany. Having been trained in the tradition of solid, comprehensive German scholarship, he is an outstanding student.

Among the colleges in this section where he will lecture are: University of Pittsburgh, Susquehanna College, Franklin and Marshall College, Colgate University, University of Rochester, and Lafayette College.

## Fraternity Council Opens Five Week Rushing Period

The Men's Interfraternity Council at its last meeting has designated the five week period, starting last night, as open rushing season. During that time freshmen may be entertained at the various fraternity houses according to rules set down in the Handbook.

The rush parties and smokers scheduled for last Friday night have been postponed to the following Friday by common agreement of the member fraternities.

The Men's Interfraternity council was formed last spring for the purpose of promoting harmony and better feeling among the fraternities on the Alfred Campus. It is felt that much more can be accomplished by the cooperation of all the fraternities.

The members of the council are: Kappa Nu, Kappa Psi Upsilon, Klan Alpine, and Theta Kappa Nu. Although Delta Sigma Phi has not joined the council, they have posted the usual bond to keep most of the council's rushing and pledging rules.

At the end of the five week period pledging will take place by the system of preferential pledging, which is explained in the Handbook.

The officers of the council are: president, Thomas Carew, Kappa Psi Upsilon; secretary, Arthur Whaley, Theta Kappa Nu; treasurer, Robert Poppiti, Kappa Psi Upsilon.

The members are: Kappa Nu, Clifford Katz and George Woloshin; Kappa Psi Upsilon, Thomas Carew and Robert Poppiti; Klan Alpine, David Reamer and Major Lampman; Theta Kappa Nu, Arthur Whaley and Albert Skinner.

## Student Back From Europe; To Be Fiat Foreign Editor

Returning to this country after a 11 month's stay in Vienna, Austria, for study, Miss Evelyn Zeller of the class of 1935 returned Sunday, and today was enrolled with her class in Alfred University.

Miss Zeller, an assistant editor of The Fiat Lux at the time she left for Europe, has been re-instated on the staff by The Editor. Because her former position has been taken by another person, however, Miss Zeller will be made Foreign Editor of the college paper.

Obtaining a thorough inside knowledge of conditions in Central Europe—the local "hotbed" of world politics for the past few months—Miss Zeller should be most capable in the position as Foreign Editor. She is an ardent student also of World Politics and undoubtedly her comments will impart much knowledge of present day international problems.

Miss Zeller was in Austria during

To Speak Today

Dr. Wilhelm Pauck

## Pep Squad Organized Under Jerry Rosen Show Promise

Under the capable supervision of Gerald Rosen, try-outs for Alfred University's cheer leading squad were held Friday night in Alumni Hall.

Among the competitors were Imogene Hummel, Audrey Cartwright, Constance Brown, Dorothy Richardson, Betty Harvath, Martha Kyle, Marguerite Bauman, Elmer Holmes, Metro McRaltz, Stanley Orr, Richard Vrabeck, and Alfred Cohen.

## Starts Drive For Fiat Lux

Manager Edwin Brewster Hopes To Establish Record—Many Already Have Written For Paper

The Fiat Lux Circulation Department under Manager Edwin Brewster has opened a drive for circulation among alumni, matriculates and friends of Alfred University, it was announced by him today.

With the circulation already showing a large increase over that of previous years, Manager Brewster said that he "hoped to establish a record in circulation that succeeding managers will find difficult to surpass."

Many alumni and friends already have written Brewster for subscriptions. It is also planned this year to send the paper to many high school papers in this vicinity for study. Another field of circulation endeavour will be The Board of Trustees, Brewster said.

An order blank for the college paper will be found in conjunction with this story on page two. The rate will be \$2.50 for the weekly issues of the paper throughout the college year.

## Club Meeting Is Scheduled

In this, the second year of the debating society, plans for inter-collegiate and inter-campus activities are shaping up. This organization is one of the really important ones that have started in the last few years here at Alfred University because it is one of the few ways that we can subject ourselves to intellectual competition.

The 15 members of last year's club will be augmented by those interested from all classes. The club is fortunate in having as coach, Mrs. Warren P. Cortelyou. The first meeting of the club will be held in room two of the Green Block at 8 o'clock next Thursday night.

## Enrollment Progresses

At the present time the enrollment in Alfred University is 586 students. From this number three students are in the Theological Seminary, 302 in the College of Liberal Arts, 281 in the College of Ceramics.

In the University there are 78 Seniors, 135 Juniors, 169 Sophomores, 171 Freshmen, 17 Specials, and 13 unclassified.

## Northeastern Next Opponent For Alfred Gridmen; Rally To Be Staged Thursday Nite

Another rousing pep rally will be held Thursday night, it was announced today by Carl Scott and Robert Poppetti. For the past couple of days they have been working together to organize the program. Late permission has again been granted to the women so that they may attend "Baby Take A Bow" picture in the Alumni Hall.

The rally will be conducted somewhat different this week. It will start at 6:45 o'clock from Bartlett Dormitory. Led by the college band, a march will be made around the campus to every sorority and fraternity on the campus. The march will end at the athletic field, where another bonfire will be staged and the team cheered as they practice.

Last week's rally was quite a success, at least it is felt by many that it did give the team the fighting spirit shown in their last half barrage over Defiance Saturday night. The team needs the student body's support, and by showing it in the pep rallies is one strong way in which we can do our little bit in bringing home the bacon.

## Fiat Lux Meeting Tonight; Invite Competitors

Competitors for The Fiat Lux are asked to come to the regular Tuesday night meeting of the staff in Kenyon Hall offices at 8 o'clock tonight. This includes all of last year's compitors, freshmen and any other classmen, who wish to come out for office on the paper.

There will be a short meeting of the associate editors with the assistant editor and editor at 7:30 o'clock—a half hour preceding the general meeting. Staff members are asked to bring a paper for criticism and suggestions. Also make note of any "news tips" to reveal at the meeting.

## Radio Club Plans Meet For Tonight

The Alfred Radio Club will hold its first meeting Tuesday night at 8:00 o'clock in lecture room B of the New Ceramics Building. Any students or townspeople who are interested in short wave transmission are invited to attend the meeting.

The club has a license to operate station W8LHK at the Terra Cotta, which the University has loaned them for a clubhouse. Last year the club operator, Howard Gould, and his assistant, Oliver Young, maintained a weekly operating schedule. The operators contacted several distant stations and exchanged station cards with them.

Last year the club conducted weekly classes in the theory of radio under the able guidance of Earl Beeton. Those classes may be repeated this year, if a sufficient number of members so desire.

## Homecoming Set For Oct. 13; Students Plan Celebration

Home Coming Day, the annual holiday for the "old grads" of Alfred University, when they may return one day out of the year for a brief, valuable rejuvenation of their own undergraduate days here at their Alma Mater, will be held on Saturday, Oct. 13. It is hoped this year to surpass in spirit and enthusiasm previous to homecoming celebration.

Plans are now being formulated to make the day an exciting one for the alumni. Among events planned for the program is a cooperative effort among fraternities, sororities and other student groups to put across a big parade. These same groups also are planning to organize the town in "dressing up" with flags and banners to welcome alumni. The Student Senate is taking the initiative in organizing the program.

Little can be found pertaining to the origination of this tradition. We know, however, that it has long

After Saturday night's brilliant victory over Defiance, Coach Galloway's Saxons are preparing for their next battle, that against Northeastern University of Boston, next Saturday night.

Information concerning this team is not abundant, as the school is only four years old. However, it has at this time about 1400 students.

In games played so far this season Northeastern has defeated American International by the decisive score of 27-6, and Connecticut Aggies by 6-0. If these scores have any meaning at all, they mean that Alfred's gridgers will have their hands full to keep a clear record.

## Norman Imrie To Talk Here On October 11

"Securities" Will Be Topic—Is Native Canadian—Saw Action As Captain In World War—Is Journalist

Norman Allan Imrie's timely new address "Securities", to be heard in assembly Thursday, Oct. 11, will bring to every student pungent truths to be "salted away". His forceful personality and delightful humor have gone far in making his remarkable success as a speaker, it is said.

Maj. Normal Allen Imrie

Mr. Imrie is a native Canadian, educated in the United States, having specialized in history and government at the University of Chicago. He saw action on several fronts with the Canadian troops during the World War and rose from the ranks to a captaincy.

Later he returned to the United States as an instructor in history at Culver Military Academy. In addition, he has had experience as a newspaper correspondent and editorial writer. At present he is on the editorial staff of the Columbus, Ohio, "Dispatch".

been an institution on the Alfred Campus. Home Coming Day was, no doubt at its offset, intended to be a day given over to Alfred Athletics.

Since then, however, its purposes have been slightly changed, so that it now signifies the desire of the "Old Alfred Grads" to visit their Alma Mater and together with the student body, again cheer an Alfred team on to victory. There will be in the course of the day, the meeting of old friends, the visiting of the fraternity house, and last but not least, getting together in one of those good old "bull sessions".

As an added attraction and no doubt the most important part of the "Home Coming Day" program is the football game between Alfred and Allegheny, which will be played that night at Merrill Field. Then after the game, a dance in honor of the Alumni will be held in the gymnasium.

Dear Editor:—  
 Last Thursday in Assembly a clear cut and conclusive seal was stamped decisively on the question of women's smoking.—But was it conclusive?

The administration, for reasons which are undoubtedly excellent, has decided that the old rule which prohibits college women from the use of tobacco, shall remain unchanged. The administration cannot be oblivious to the fact that heretofore the regulation has no more stopped the college women from smoking, and smoking freely and nonchalantly, than Prohibition stopped the sale of liquor.

It is to be supposed that the rule was established to be obeyed. For surely the administration has no such dishonorable idea as to provide a dormant rule merely as a drawing card for a preferred clientele.

What remains to be seen is: Will the administration be able to secure the voluntary cooperation of the students in maintaining the regulation, or will they enforce it externally?

The respect of the student body demands that some attention be paid to these self-evident facts.

Upper-class Woman.

## Second Organ Recital To Be Held Friday

Professor Ray Wingate will give the second vesper organ recital this Friday evening in the church.

He has arranged a group of request members, especially suited for use on the Sarah Rosebush organ, consisting of the following selections:

Now The Day Is Over, Day Is Dying In the West, Little Grey Home In The West, None But The Lonely Heart, In a Monastery Garden, Bells of St. Anne de Beaupre, Charale—Hypo—Aeolesch—Bache

## A Band At Last

Those who have heard the band cannot deny that we have an organization worthy of your consideration. The two recent public performances showed a large band, well balanced, and well directed.

Lieut. Edward F. Burk, President of the International Police Identification Bureau and an accomplished musician remarked at the recent pep rally that our band surpassed the average university band. Prof. Burton B. Crandall has said that it is the nearest approach to the outstanding Firemans band that has played here since their time.

Few realize the value of such an organization to our school. It serves us at football games by adding color, accompanying the cheering, and undoubtedly inspiring those out on the field fighting for us. It also takes the lead on those gala occasions needing music, such as the St. Pat's festival, basketball games, pep rallies, and assemblies.

Perhaps we might have some uniforms for the band, or even raise money with a dance. It all comes to this; We the students must get behind the organization of the University and raise music out of the lethargy it has been in for the last few years.

The appreciation of music, and the cultivation of the art is an all important part of a college education.

Whether or not we have a real college band of the calibre to be found in the biggest and best colleges of the country now depends upon the student body. We have the nucleus for such an organization. Now all we need is the co-operation and support of the student body to give our band the encouragement that they need to progress.

## Freshman Reveals Thoughts Regarding Alfred's Campus

Of one thing I am sure, I am welcome.

This greeting has been extended to me verbally and by action of all Alfred University. It has been repeated again and again but with such sincerity that I did not tire of repetition.

Perhaps this should be written in the third person and I should speak for the class of '38. I feel however, that I cannot speak for the class of '38 because I am but one of its members. Furthermore I have observed that Seniors, Juniors, Sophomores and freshmen are too individualistic to be classified generally.

I expected to find similarity. It is not to be found. Freshmen come from hither and yon. Naturally they are different. Before they can become a unity in a group characteristic, they are sophomores.

Once they are sophomores things in common become less common. The breach widens during the succeeding two years. It does this because college courses open avenues of separate reasoning. I am told.

I am not appalled by the strangeness of this new atmosphere. I am appalled by its dignified reserve and intellectual traditions. My movements and thoughts are enshrined by a maze of evident magnanimous knowledge.

Worn floors, time-tempered buildings, and initialled desks about the campus signify more to me than mere disfiguration. They are vivid imprints of the traditional past, left by students who have plodded from the shelter of these pine covered hills into life's hazy horizon.

All of these exhilarate my imagination, forcing deep inhalation, while I drink in the rich past and thrilling present, and contemplate the promising future. And to think I am privileged to be a part of it satisfies cherished hopes.

agitation, forcing deep inhalation, while I drink in the rich past and thrilling present, and contemplate the promising future. And to think I am privileged to be a part of it satisfies cherished hopes.

## Two Student Agents Handle Paper This Year

The New York Herald Tribune can now be obtained on Alfred campus at economy prices. The Herald Tribune, an old, well established newspaper, is now giving college students all over the United States the opportunity of reading and being benefited by it. In it are contained more educational features and articles of interest to the college student than any other newspaper printed at the present time.

For the past ten years the Herald-Tribune has not made a dollar of profit which has not been put back into the paper for its betterment. It is not a commercial concern but an established ideal. It is the aim of the publishers of the Herald Tribune to so aid the young people of America, by giving them the correct slant on world affairs, that they may become bigger and better American. They uphold the standard that the youth of today is the pillar of strength for tomorrow.

The New York Herald Tribune may be obtained on this campus through Barbara Smith of the Brick or Joe

## FROM THE SIDELINES

BY PAUL POWERS

The Defiance team displayed great determination, but to no avail. They were defeated by the better team, which did not get under way until the last half. The final score was Alfred 20, Defiance 2.

Next Saturday night Northeastern College of Boston will invade the Saxon lair. We all admire the spirit of the students. Keep it up.

The cross country team is being moulded into shape by Coach James McLeod. The boys are running from five to eight miles a day. We are looking forward to seeing another victorious Saxon team.

Another American victory was awarded to the America's cup defender Rainbow. Tom Sopwith's British Endeavour was outclassed in

the five races off the coast at Newport, R. I.

Although the grid-iron season has started, most of us are eagerly watching the National League in baseball. At the present writing St. Louis Cardinals are a half a game ahead of the New York Giants. The Dean brothers of the Cardinal outfit are classed the greatest pitchers in either league. May the best team win the pennant. The tough Detroit team meets the winners for the world championship.

We all appreciated the spirited band Saturday night. It's the best in some time.

We wonder what kind of a team the Frosh will have with three men weighing over 200 pounds on the line. You'll hear more from us later. Nice going, Frosh!

## Facts Of War Worth Knowing

The legends right along have been that all wars are for profit—to munitions makers, but never before did I realize how true was that story. Until I shivered and shuddered all the way through George Seldes' new book, "Iron, Blood and Profits". (Harper) Imagine learning this fact—that many of our marines were killed in Haiti and Nicaragua by the enemy whose guns were made in New England.

With the permission of the publishers I am able to help circulate the following sensational charges of Mr. Seldes—by all means clip the column and send it to your Congressman or Senator. We are not preaching pacifism, at all. But if munitions makers in this country are propagating wars—and supplying certain countries with materials with which to combat us—then list me among the objectors.

**SAXONS BEAT DEFIANCE**

## Miss Ildra Harris Weds Former Alfred Student

Ceremony Performed This Summer By President-Emeritus Boothe C. Davis In New Jersey

Great pleasure is taken in announcing the marriage of Miss Ildra Harris, a former member of Alfred University faculty, to Rudolph Eller, A. U. '27. The ceremony was performed by Dr. Booth C. Davis, President-emeritus, at his son's home in Plainfield, N. J. The couple sojourned to the Davis' summer camp in the Adirondacks where they remained two weeks.

Mrs. Eller was graduated from Alfred University and then went to Middlebury College where she earned her M. A. in Spanish. With this, she came back to Alfred where she became professor of Spanish.

Mr. Eller, after graduation from this University, took graduate work at University of Pittsburgh. He is now employed as paleontologist in the Carnegie Museum of Natural History at Pittsburgh.

Mrs. Eller will be greatly missed on the campus. Her cooperation was immeasurable in cementing the band between faculty and student. She is a teacher from whom students asked the way and one who was always glad to make student problems her problems.

## French Trip Related By Miss Cheval

During the summer, Miss Marie L. Cheval, member of the faculty, took her annual trip to France, this time visiting Auvergne, a famous watering place located in the central part of the country quite near Vichy, where people from all over the world go for rest and change.

The French people do not stay in the cities the year round. When summer comes they go out into the country where old customs prevail and where it is not uncommon to see people wearing wooden shoes. However, the younger folks are changing. They are crowding to the large cities, leaving the simple life behind.

In the province of Auvergne there are about seventy volcanoes located on the Plateau de Gergouie. It was here that Vercingetorix won the battle against Caesar.

Many homes in this region are built of lava or granite. The interiors are very lovely with their hand made furniture and iron balconies. The stores of the large cities are very old, and the best shops are usually hidden away. It is necessary to have an invitation to enter them, but when one does go in such a shop, one finds extremely individual gowns. The buildings are not high like those in our modern cities, as there are rules governing the heights of all structures.

In the villages there are few modern changes except for the use of electricity. The churches always occupy the most important location in the village. There are very narrow streets winding around the church, some of them so narrow that two automobiles can barely pass. The houses are built very close together because during the war the people wanted the protection of the church.

In Auvergne there are temples built on the top of surrounding hills, many of which have been destroyed by war and time, and in one of these is found the helmet of Vercingetorix.

Miss Cheval spoke also of the grottoes filled with sulphuric gas. When descending these one must hold a lighted candle before him and when the gas suddenly extinguishes the light, that is a sign that he must go no further.

Then there is the fountain "pertrifiante", the water which is rich in calcium. Any object lowered into the water is petrified. It is common to place pictures in the water which brings them out in relief.

One of the most beautiful scenes around Auvergne is that seen early Sunday mornings. Groups of faithful worshippers wind their way up the mountain sides to a temple. Old women bring flowers to decorate the alters, and they climb the hill slowly, happy to be of service.

A woolen mitten believed to have been lost some 20 centuries ago and a woolen cloak believed lost many centuries before that, were found recently in a peat bog in Southern Sweden.

The jazz age is at its ragged tail end. It is no longer smart to be immoral.—Rabbi A. H. Silver.

## Student Plans Trip To China

Miss Elizabeth Champlin Leaves Oct. 10 With Her Aunt—Will Remain Several Months

Miss Elizabeth Champlin of the class of 1936 will go to China instead of continuing her studies this year. Miss Champlin with her aunt, Mrs. Carle Lang, will leave New York City Wednesday, Oct. 10, on the Peter Maersk of the Danish lines.

After a 42 day voyage by way of Cuba, Panama Canal and Tokyo, the Peter Maersk will dock at Shanghai. Although this is not Miss Champlin's destination she will remain there at least three months.

The apartments belonging to Mr. Lang's company in Hangchow have been confiscated for army use. The wait is necessary until new quarters are built.

Hangchow where Miss Champlin will reside with Mr. and Mrs. Lang, is 100 miles south of Shanghai. It is purely a Chinese city.

## Spiked Shoe Elects Officers For Year

The Alfred Chapter of the National Collegiate Society of Spiked Shoe held a meeting Monday and elected Michael Java, well-known Alfred track and cross-country star as its president for the following year. Daniel Minnick was chosen vice president. Francis Bentley was elected secretary and Roger Corsaw, treasurer.

The Spiked Shoe Society contemplates a vigorous program for the coming year by which they plan to raise money to enable the Alfred track teams to compete against teams of their own caliber.

The society has long-noted a lack of necessary funds to promote their athletic contests, and it is their desire to assist Alfred teams in the advertising of Alfred to the world.

The Hotchkiss Company of Paris which is delivering 200,000,000 francs worth of machine guns to Japan is headed by an American, Laurence V. Benet!

The Lindbergh motor and other American airplanes have been sold and are being manufactured by the Japanese military.

## Kanakadea Dance Held Following Game In Gymnasium

A genial and triumphant spirit was noticeable at the yearly Kanakadea football game held at the Gym on Saturday night.

The winning of the Alfred-Defiance football game gave an additional incentive toward everyone having a good time.

Music was played by Ray Hedges and his Hornell "Rambler". Dancing began immediately after the game and lasted until midnight.

Charles Henderson was chairman of the dance.

## Y. W. C. A. Entertains At Afternoon Tea

The Young Women's Christian Association held its annual Freshmen Tea in the Brick parlors Friday afternoon. Mrs. James McLeod and Miss Eva Ford poured the first hour. Dean Dora K. Degen and Mrs. Vida Titsworth poured the remainder of the afternoon.

Miss Helen Olney, president of Y. W. C. A. and other upper class women acted as hostesses.

American war exports to Japan total millions while naval officers want the navy construction bill rushed in fear of a conflict with Japan.

### NEWS!!!

The Elmira Sunday Telegram is giving special attention to Alfred University news, particularly the weekly football contests. A complete coverage of these game will be found each Sunday in the sports section.

Another feature is a column, "College Town," by Richard J. Hartford, '38.

The Telegram affords students from the Elmira Area an opportunity to follow the news of their home towns. Besides national and international news the Telegram has an abundance of features on radio, drama, books, etc.

# SAXON HARRIERS TO OPEN SEVERE CAMPAIGN FRIDAY

## TO MEET HOBART RUNNERS IN INITIAL MEET; SEVEN COMPETITIONS SCHEDULED

With the first contest of the season against Hobart College on the home course on Friday, Alfred University's champion cross country team will again embark upon a severe campaign. A difficult task is the lot of this year's hill and dale squad, with last year's record of only one defeat as well as the Middle Atlantic championship to defend.

For this reason the chances of an achievement even equal to last season's are no more than fair. Nevertheless a team well worthy of Alfred's tradition in this sport is to be expected.

The men have been training since September 16, and the familiar faces of the veterans, Capt. Java, Mulligan, Knapp and Minnick are to be seen, as well as five promising members of last year's frosh squad, namely: Dawson, VanCampen, Hodge, Jones and Forbes.

In the opening meet October 5, Hobart will have a decided advantage,

A leading patriot was found guilty by a government investigation committee of putting putty into blowholes of armorplate which went into some of America's greatest dreadnoughts.

### Captain

Micheal Java

as that school opened the first week in September and Coach Wheeler has been training his men ever since then. With respect to the Cornell meet, Coach McLeod thinks it unlikely that Alfred will be able to improve upon last year's showing, inasmuch as Moakley has five veterans under the leadership of Captain Kerr.

This year marks the first year that Alfred has entered a team in the I. C. A. A. A. meet at New York. Coach McLeod said in an interview that he looked for a gradual improvement of the team with this meet as a goal.

Candidates for the yearling squad were called out Monday. Several well known high school stars were among those reporting, notably Hughes and Vance, brothers of former Saxon stars, Lynch, Keefe and Scott.

Approximately 30 candidates turned out, but the squad will probably be cut to about 15 in a week's time.

### Varsity Schedule

- Oct. 5—Hobart at home.
- Oct. 13—Cornell at Ithaca.
- Oct. 20—Rochester at Rochester.
- Oct. 31—West Point at West Point.
- Nov. 10—Sate Meet.
- Nov. 19—I. C. A. A. A. at New York.
- Nov. 26—Middle Atlantics at New York.

## ARRANGE CARD FOR WOMENS' HOCKEY

At a recent meeting, the Women's Athletic Governing Board arranged the inter-class hockey schedule for this fall. The games are all scheduled in October. It is hoped that in this way the snow and poor weather, which have in the past prevented the completion of the hockey games, may be avoided.

The members of the Board and Ruby Way, manager of hockey this year, are anxious that the upperclass teams shall be organized soon. The field was marked last Friday, and a call was issued for practices Friday afternoon and Saturday morning.

Another practice will be held next Saturday morning from 10 to 12 o'clock. Upperclass women are especially urged to take advantage of these practices, because under-class women receive a considerable amount of such work in their physical education classes.

The schedule is as follows:  
Juniors vs. Seniors—October 12.  
Juniors vs. Sophomores—October 13.  
Seniors vs. Sophomores—October 19.  
Juniors vs. Freshmen—October 20.  
Seniors vs. Freshmen—October 26.  
Sophomores vs. Freshmen—Oct. 27.

The Battleship Maine was the first ship armed with Harvey steel and that Harvey immediately sold his patent to Germany, Britain, etc.

*They are made that way*

### Chesterfields are milder Chesterfields taste better

#### Ripe home-grown tobaccos

We begin with the right kinds of mild ripe Domestic tobaccos. Then we age and mellow them like rare wines for flavor and taste.

#### Aromatic Turkish tobaccos

Next we add just the right kinds and the right amounts of Turkish tobaccos to give Chesterfield the "seasoning" that helps to make them taste better.

#### Blended and cross-blended

Finally we "weld" these tobaccos together the Chesterfield way—different from any other—to make Chesterfield a milder better-tasting cigarette.
