Charles Fergus Binns
Christian Gentleman

To speak of Dr. Binns as a Chemist and Christian, is to strive at the close of his career, at the end of his work, to comprehend the magnitude of his strength, the breadth of his labors, the diversity of his gifts. For it was in his own person that he combined the properties of a scholar and a Christian, of a man and a saint, of a scientist and a gentleman. He was a man of science and a man of faith, and his life's work was a blending of the two, a synthesis of the two.

Dr. Binns was a man of science, a man of thorough research and painstaking work. He was a man of faith, a man who believed in the power of prayer and the influence of spiritual things. He was a man of gentleness, a man who could be firm in his convictions and yet never allowed his kindness to become effete.

A man of two worlds, Dr. Binns combined the best of both. He was a man of science who respected the mysteries of nature, and a man of faith who understood the mysteries of the soul. He was a man of work who knew the value of leisure, and a man of leisure who knew the value of effort. He was a man of achievement who respected the worth of others, and a man of humility who respected his own.

Dr. Binns was a man of two worlds, and in one he was in the service of mankind, in the other he was in the service of God. He was a man of science who respected the mysteries of nature, and a man of faith who understood the mysteries of the soul. He was a man of gentleness, a man who could be firm in his convictions and yet never allowed his kindness to become effete.

**Europe Tense As Predicted in Fiat Story**

*By Edith Becher*

(Information Service*

Talking about woman's insomnia as a diagnosis of the Fiat story and the Sommes story, the man who has now an army across the border in the east, and in the west, or the East German development, we have a bulging situation. It seems to be a world war, and it has an army across the border in the east, and in the west, or the East German development, as the situation might be..."

VARSITY HARRIERS FINISH SUCCESSFUL SEASON

JAVA, OLDFIELD, MINNICK, KNAPP

STAR

By Les Hodge

Alfred University's Cross Country team has completed a season which was anything but easy. Despite several hard and workers, the team performed excellently, earning the nickname "the best in the country."

This season, the team focused on Alfred and the squad's potential. Every man was engaged in the process. Though Alfred failed to win many meets, the team put up a strong effort throughout.

VARSITY DEFEATS ALUMNI

At the start of the season, it was thought that this year's Harrier would be the best. The team placed 15th, running one of the fastest times in the country. However, injuries and other detractions affected the team's performance.

The Rochester meet put Alfred's hopes for victory in doubt. The team's best runner was injured early in the season, and the team was left to rely on others. The varsity put up a strong effort, but the wins were by small margins. The team's worst day was still respectable.

The varsity is apparently destined for greatness. Though their last year was a disappointment, the team will long be remembered for the individual performances of Mulligan, Hodge, Jones, and Forbes.

JAMES-FLORISTS

Hornell and WELLVILLE

Wholesale prices are usually quoted, but the team's victory put them in the lead for the varsity into working as a unit. The team's potential is high, and they are expected to continue to perform well in the coming months.
