Stop, Look, Read! This is a challenge to YOU.
A challenge to every student at Alfred University.
Last year we presented to this student a proposition whereby we could bring to our campus this year a series of outstanding productions with Dick Powell, Joan Blondell, Adolphe Menjou and Louise Fazenda, almost in featuring the moustachied Adolphe Menjou; "Gay Old Days," glimpses of the "gay nineties," Irish In Us!" And therein lies the key of service to others. The bulletin board situation is the key to future success in your studies. Take advantage of the opportunities offered. Take an extra minute to carefully look at your opportunity board.

The Bulletin Board Situation
Free and unrestricted use of the bulletin board by the student body is a traditional privilege here at Alfred. This privilege is not extended for the sole purpose of doing busy work, but for the benefit of the student body. Embryos engineer and long men and women who are being trained to take over an industrial world. 

Athletic Injuries
There has been a series of unfortunate injuries in the recent history of Alfred University athletics. These mishaps have been due in some measure to lack of proper preparations to go to O. K. from their home doctor before coming to Alfred and going out for foot ball. 

Alfred is fortunate in having little difficulty in this respect, but, shouldn't it be a good suggestion to all athletes to have their head cleared up before they go out for a sport? This especially applies to those who go out for football before the information can be sent to them.
