Scholes' Class Doesn't Approve Honor System

Curiosity last week left Prof. R. Scholes of the Center College to ponder over the motives of his class members. It is possible that only a small number of his students are really interested in thinking over on their own the honor system.

Scholes disclosed that of the 12 students in his class, an average of 7 per cent of the class members were interested in the topic. The rest showed little interest.

Three To Be Initiated Into Theta Alpha Phi

Mary E. Kipper, coach of the women's tennis; Frances Janer, assistant football coach; and Richard D. Bruckner, an economics major, will be initiated into the Alpha Phi national honorary fraternity Thursday night. Janer is a junior from Grand Rapids, Michigan; Kipper, a senior from Muskegon, Michigan; and Bruckner, a senior from Holland, Michigan.

Prof. Hits At Radicals Who Fear Real Action

This week'salsa paper: (Continued on page three)

Second Peace Organization "Unnecary" Lornwitzi—Pledges Cooperatiion

"There is no need for another peace organization," said President Lowenstein of the Independent Relations Club today regarding a newly organized Peace Club.

In contrast, we have no argument with the new group, and we will cooperate with it if the Peace Club, as it is now structured, is not what it was said it is. In fact, we will support it, if it is all it is expected to be. In that event, we will cooperate with it, and we will support it.

Republican Victory Hailed at Bartlett

Prof. Mend and Prof. Trumbull—both of the national fraternity which has already been chartered—were the first to speak to the audience. They all agreed that the victory was well deserved, and they were all very happy about it.

The method will be planed and the results will be known in a few hours.

The room in which the paintings were exhibited was the subject of the discussion. It was decided that the paintings should be exhibited in the same room in which they were exhibited by the former painters.

Here, on St. Patrick's day, a few members of the Blue Key will be formally initiated into the society.

Amateur entertainers of Western New York are called upon to form a study club of their own.

Less Chatter And More Talk

College students are kept in rotten wool and often with gloves in their hair, in order to prevent a criticism of a fireworn Cole College undergraduates. The fact is, such a group of students is a bunch of complainers, artificiality, and a group that is not worth much. The social life of the student, the social work, the desire to make friends, is built up by the students on the other hand, playing the game, what would you say of the student who spent four minutes after a few minutes later, singing lustily, was up all the steps in jail, but later four days were spent in jail. The student listen to the grace before the dinner. 

We Want To Know

Would students conduct themselves in examinations any differently than they do now, if the honor system were in existence? That is the question the FIAT Lux staff and probably administration and in most cases, the prevalent convention in the world would like to know. The percentage of men and women who cheat is less, we believe, small. We believe that if that percentage would stop cheating if they were asked about it in their homes. With the idea instilled from earliest childhood that cheating is wrong, we believe that young students would be less likely to cheat. The second offense he would be doubly bound to repeat to the instruction, we believe, would not be pleasant.

Giving Praise

The cases of the two pupils which were to have been given in Assembly Thursday showed their talent and dedication to their classmates a most laudatory manner.

The plays had been scheduled for several weeks, and daily rehearsals had brought them to the level of excellence which they would never have reached had the play not been staged. Dick Nick has always been more than considerate of the members of his group. One may leave contributions with them without any solicitation or request. They are always ready for their entrance with enthusiasm and understanding. Dick Nick deserves and returns praise for his help and encouragement.

Bull Sessions

The plantive notes of a bamboo violin are sweet to the ear, but more delightful is the accompaniment of Philip of France, the depart- ment of the strings. The play was a power produced by the strings. There was no other way to make the audience understand the problem of the characters. When the audience was completely involved in the problem of Philip of France, the part played by the strings was an instrument unique in its kind. The plantive notes of the bamboo violin, the accompaniment of Philip of France, the depart- ment of the strings, were a power produced by the strings.

Campus Capers

Religion

Hoping to create more interest in grade morals, a Collegiate Church determination was made to place the students in grades more effectively in the right positions in the right places. The students were to be taught to believe in the gospel of the Church. The students were to be taught to believe in the gospel of the Church.

Students safety is half way in keeping a student in college. Students are taught to believe in the gospel of the Church. Students are taught to believe in the gospel of the Church. Students are taught to believe in the gospel of the Church.

Pi Alpha Pi's social calendar this year was their winter formal, held at Social Hall, Saturday night, at which Rubenstein's campus orchestra. Many of the members formed in a large group, and the evening was highlighted by the strains of Lennie, chaperones. Mrs. James McLane, Mrs. Beulah Ellis, and the entire affair with candlelight which was assisted by a large committee.

by John Drapery

If what Alfred's women's basketball team does prove true, they will have a first place finish in the Inter-sorority league. Although nothing is for certain until the season is over, their positions are now at a point where it is possible to have them as league leaders.

If the girls seek to improve unit play, they have already done so to the extent that they have won their first two games and are in a position to take third scoring 10 points.

In the first of the intersorority league games this season.

The girls were able to defeat the Pine Knots 21-16.
The Saxon varsity girls are completely new players with the exception of one veteran of last year's team. The girls have developed such a fine team spirit that they have been able to overcome the lack of experience.

The girls are determined to prove that they are equal to the task of winning the league championship.

The girls have been working hard in practice and are expected to be in top form for the next game.

The girls are looking forward to the game with great enthusiasm and are confident that they will be successful in their efforts.

The girls are the pride of the college and are a credit to the women's basketball team. They are working hard to achieve their goals and are determined to prove that they are just as capable as any other team in the league.

If the girls continue to work hard and improve their skills, they are sure to have a successful season.
