VOL. XXIX NO. 1

TUESDAY, SEPTEMBER 23, 1941, ALFRED, N. Y.

STUDENT BOX HOLDER

New Professors of Alfred University

Dr. J. Willard Sutton

Dr. Roland L. Warren

VanDerk Frechette

T. S. Haile

Dr. William J. Knapp

Dr. Elsworth Barnard

Pictured here are some of the new members of the faculties of the College of Ceramics and the College of Liberal Arts. Those new members not pictured are Dr. Katherine A. Clarke, Mrs. Ernest Guy and Miss Augusta O'Neal. Brief biographical sketches of these persons will be found elsewhere on this page.

Car Smash-Up Causes Death Of Pistek '41

Frank Pistek, Jr., a June graduate of the Ag-Tech Institute, was fatally injured near Binghamton, Friday evening, September 12.

While driving his car, Mr. Pistek failed to make a curve and the car overturned. He died enroute to the hospital.

While in school here, he majored in Power Distribution and also took the Civilian Pilot Training course. After leaving school, he had been employed by the International Business Machines Company in Binghamton.

Funeral services were held Wednesday, September 17, at the home of his parents in New York City.

South American to Study Glass Technology Here

Eric Falcao of Rio de Janeiro, Brazil, arrived here Friday afternoon to enroll in the glass technology department of the Ceramic School.

Mr. Falcao comes here as a protegee of the General Electric Company, for his father is located in the branch office of the company in that city.

Orientation Program For Frosh Announced

Fun and work are slated this week for Alfred University freshmen as the sixteenth annual Freshman Week program of the College of Ceramics and the College of Liberal Arts opened this afternoon.

A chapel service conducted by Chaplain William H. Genné in Kenyon Hall opened the activities which will be concluded with a free movie Friday night for all freshmen.

Freshmen will learn much about Alfred from faculty and students as they meet together for various talks and discussion periods.

The program follows:

Tuesday, September 23

2:15 P. M.—Chapel Service, conducted by Chaplain William H. Genné (Kenyon Memorial Hall). Address, "So This is College," President J. Nelson Norwood. Announcements.

3:00 P. M.—Grading Test in English (Alumni Hall and the Hall of Physics).

8:00 P. M.—Reception and Dance for Freshmen under the auspices of the Alfred Christian Fellowship (Gymnasium).

Wednesday, September 24

8:30 A. M.—Chapel Service (Kenyon Memorial Hall).

9:00 A. M.—Preliminary Registration of Freshmen (Kenyon Memorial Hall).

9:45 to 12:00 A. M.—Registration of Freshmen of the Ceramic College (Carnegie Library).

9:45 to 12:30—Individual Conferences for Freshmen of the Liberal Arts College.

1:15 to 4:30 P. M.—Registration of Freshmen of the Liberal Arts College (Carnegie Library).

2:00 P. M.—Meeting for all Ceramic Freshmen (New Ceramic Building).

2:45 P. M.—Individual Conference for Ceramic Freshmen.

3:30 P. M.—Ceramic Adaptation Test.

7:00 P. M.—Program on Campus Life and Activities (Alumni Hall). (The freshmen of the Agricultural and Technical Institute are invited to this meeting). Student Senate, Ralph E. Rhodes, Jr., '42, president; Women's Student Government, Mildred E. Pivetz '42, president. Publications—Sophia Perry, '42, Editor of Fiat Lux; Sally Jané Morris, '42, Co-editor of Kanakadea. Athletics—Professor James A. McLane, Director of Athletics; Elizabeth V. Stangl '42, President of Women's Athletic Governing Board. Dramatics—Margaret A. Ayler '43, President Footlight Club. Music—L. Sherman Watson '43, President of Band. Religious Activities—R. Douglas Manning '42, President of Alfred Christian Fellowship. "The Spirit of Alfred," Frank P. Morley '42.

8:15 P. M.—Meeting for Men of the Colleges (Bartlett Dormitory). Meeting for Women of the Colleges (Social Hall). Meeting for Freshmen of the Agricultural and Technical Institute (Institute Building).

Thursday, September 25

8:00 A. M.—The regular class programs of both colleges will begin according to the published schedule.

11:00 A. M.—Opening Convocation (Alumni Hall). Address by the President.

3:30 P. M.—Intelligence Test for all Freshmen (Kenyon Memorial Hall).

4:30 P. M.—Football Demonstration given by the Football Team under the direction of Coach Yunevich (Athletic Field). (The freshmen of both Colleges and of the Institute are especially invited to this program).

7:30 P. M.—Get-together for Transfer and Freshman Women and the Women's Athletic Governing Board (South Hall Gymnasium).

Friday, September 26

8:00 A. M.—Regular Class Program.

11:00 A. M.—Chapel Service (Kenyon Memorial Hall).

7:00 P. M.—Motion Pictures, free to all Freshmen (Alumni Hall).

7:30 P. M.—Get-together for Transfer and Freshman Women and the Women's Athletic Governing Board (South Hall Gymnasium).

8:00 A. M.—Regular Class Program.

11:00 A. M.—Chapel Service (Kenyon Memorial Hall).

7:00 P. M.—Motion Pictures, free to all Freshmen (Alumni Hall).

7:30 P. M.—Get-together for Transfer and Freshman Women and the Women's Athletic Governing Board (South Hall Gymnasium).

8:00 A. M.—Regular Class Program.

11:00 A. M.—Chapel Service (Kenyon Memorial Hall).

7:00 P. M.—Motion Pictures, free to all Freshmen (Alumni Hall).

7:30 P. M.—Get-together for Transfer and Freshman Women and the Women's Athletic Governing Board (South Hall Gymnasium).

Plant Manager Allen Dies At Home Here

Chauncey Loomis Allen, who has served Alfred University since 1932 in the capacities of trustee, chairman of the finance committee, plant manager, and

C. Loomis Allen Passes

chairman of the student aid committee, died at his home here Sunday night, September 7.

After a brilliant career as a management and public utility engineer which spanned nearly half a century, Mr. Allen returned to his Alma Mater, Alfred University, where he worked until his recent death.

During his active business life, he had become one of the most prominent and successful engineering executives in the country. He pioneered the development and management of street railways in many parts of the United States particularly in Northern New York, and later organized public utility management corporations, one of which he headed until 1932, when he sold out his holdings. Throughout his life, he was a highly public-spirited citizen, contributing generously and usefully to the social and civic welfare of his surroundings.

Native of Syracuse

Mr. Allen was born in Syracuse, January 16, 1870. He received the early part of his education in the public schools of his native city, completed this part of his studies at Cicero, and then attended Alfred University from 1886 to 1889. Later he matriculated at Syracuse University, where he was a student from 1889 to 1890.

He began his career in the engineering department of the Norfolk and Western Railroad in 1890, and two years later resigned to organize and become a member of the civil engineering firm of Mather & Allen in Syracuse.

Achieved Outstanding Success

In the years which followed, before his return to Alfred in 1932, Mr. Allen achieved outstanding success in his profession and his fame was widely recognized as an administrator. In 1906, he was named a vice-president of the Utica and Mohawk Valley Railway Company. Until 1917, he served as chairman and director and president of man railway companies.

Shortly after the United States entered the World War, Mr. Allen was named transportation expert for the

(Continued on page four)

Faculty Positions Filled As Fall Semester Opens For Schools This Week

Vacancies on the faculties of the Ag-Tech Institute, the Ceramic College and the Liberal Arts College have been filled ready for the opening of classes here at 8:00 o'clock Thursday morning.

Lauds Alumni For Interest In Placement Of Teachers

"Unemployment of Alfred Alumni in the field of teaching has been reduced in a far greater degree than either national unemployment or even general unemployment in the teaching profession," stated Dr. Joseph Seidlin, head of the bureau of appointments, in discussing teacher placement problems here this week for the October issue of the Alumni News.

"In part, it goes without saying," continued Dr. Seidlin, "that is due to the state of national emergency, but, in greater part, it is the result of the very finest interest and the very active cooperation of our alumni. This year, it seems to me for the first time, the Bureau of Appointments has been far more the clearing-house of Alfred Alumni in teaching, than the usual college teacher's agency."

"It was with some glow of pardonable satisfaction that several times in the last few weeks, we had to reply to inquiries by regretting that we are 'fresh out' of candidates in a particular field," further commented Dr. Seidlin.

In offering reasons for this unusual activity, Dr. Seidlin suggested that a growing reputation has been acquired by Alfred alumni for quality teaching and administration.

In speaking of the future, Dr. Seidlin said, "Aside from the small matter of the war, and the concomitant uncertainties of induction into or release from military duty, we in New York State have the added question mark caused by the fifth year in teacher preparation. It may be, therefore, that some time within the next two or three years, we shall be faced with a shortage of teachers. Then again, it is not at all improbable that we may still have a great surplus. I defy anybody to make a safer prediction. I defy anybody to make a prediction."

Dr. Seidlin's complete discussion of this subject will be found in the October issue of the Alumni News.

Regular Chapel Programs Begin 11:00 A.M. Friday

Chapel services are conducted by Chaplain William H. Genné, pastor of the Union University Church, each class day except Thursday at 11:00 o'clock in Kenyon Memorial Hall.

At various times throughout the year, members of the Alfred Christian Fellowship and other students conduct the programs. Guest speakers are also often slated for these daily services.

National Defense Needs to Be Met by Mathematics Changes

In step with the present national emergency are the changes announced in the curriculum of the mathematics department for the coming year.

The changes which will affect all freshmen in the Ceramic Engineering School and some of the mathematics majors were instigated by a desire on the part of the department to improve the method of teaching and a desire to add to the mathematics courses material which would be of use in the present national emergency.

The freshman engineering course which for some years has been given as one five-point course will this year consist of two courses running simultaneously. The first semester will have a two-point course in College Algebra and a three-point course in Trigonometry. The second semester

will see the Algebra course continued and the Trigonometry replaced by Analytic Geometry.

In addition, the entering class has been segregated so that those freshmen who have had solid geometry and trigonometry in high school will find themselves having a rapid review of plane trigonometry and then entering upon the study of Spherical Trigonometry. Dr. Lloyd L. Lowenstein, chairman of the department, states that the addition of Spherical Trigonometry for those students qualified to study it is in accordance with the recommendation of the War Preparedness Committee of the American Mathematical Society.

The course in Solid Geometry, required of Mathematics majors, will also include the study of Spherical Trigonometry.

Newly appointed members and brief sketches follow.

In the Agricultural and Technical Institute, Norman Newman, formerly of the Eastman Kodak Company in Rochester, has been named to fill the post left vacant by the resignation of Robert Brooks.

Mr. Newman will assume Mr. Brooks' classes in air conditioning and refrigeration. He has been in Alfred since last February working on the defense program. He is a graduate of Rochester Mechanics Institute and has taken work at the University of Rochester and also at Alfred University, in addition to having had considerable experience in industry.

In the Ceramic College, the following appointments have been made:

Dr. T. L. Dunkelberger has been appointed Assistant Professor of Chemistry filling the position vacated by the resignation of Professor Harrison. Dr. Dunkelberger graduated with highest honors from Dickenson College. He received the Ph.D. degree from the University of Pittsburgh in 1937, serving as a graduate assistant at that institution while working for his Doctor's degree. He was Assistant Professor of Chemistry at the University of Idaho in 1937-38, and since 1938 has been Assistant Professor of Chemistry at Duquesne University. He is a member of the Phi Beta Kappa and Sigma Xi societies, and is co-author of a popular textbook on semi-micro qualitative analysis.

Dr. Dunkelberger will have charge of the courses in qualitative, quantitative and semi-micro qualitative analysis and spectroscopy.

Dr. J. Willard Sutton has been appointed Assistant Professor of Ceramic Engineering and Research Chemist to fill the position vacated by Professor L. R. Shone, who had succeeded Professor F. E. Lobaugh when he resigned during the year. Dr. Sutton graduated from Alfred University in 1917, and received his Ph.D. degree at the University of Pittsburgh in 1924. He has had additional advanced work at Cornell University, at the New York State College of Ceramics and at the University of Aix-Marseille, France. While studying for his Ph.D. degree at the University of Pittsburgh, he served as a graduate assistant. Since 1924 he has had charge of the chemistry and ceramic work at Fukien Christian University, Poochow, China. The war in China has made it necessary to discontinue the work that he was carrying on there, a situation which accounts for his availability to us at this time.

VanDerk Frechette has been appointed graduate instructor in the Department of General Ceramic Engineering. Mr. Frechette graduated from the New York State College of Ceramics in 1938, and since then has been doing graduate work at the University of Illinois. He will assist in the Petrography and Enamels laboratories.

T. S. Haile has been appointed graduate instructor in the Department of Industrial Ceramic Design. Mr. Haile graduated from the Royal College of Art in London in 1935. He has taught art at the Leicester College of Art, the Kingston School, the Hammersmith School of Art and the Camberwell School of Art, all of England. More recently he has been connected with Cooper Union of New York City. He has exhibited his products extensively in this country and abroad, where it has won high recognition.

John G. Mohr has been appointed graduate instructor in the Glass Technology Department. Mr. Mohr is a graduate of Penn State College. During the past year he has been an assistant at this institution.

Dr. William J. Knapp has been appointed to the North American Cement Corporation fellowship. Mr. Knapp graduated from the New York State College of Ceramics in 1938 and since then has completed the requirements for a Ph.D. degree at the Massachusetts Institute of Technology.

Milton Tuttle has been appointed to the Orton Research Founda-

Welcome to All

To accept the invitation of the Editor of The Fiat Lux to present my welcome and greetings to you all as the University opens is a real pleasure.

To members of the faculties of all the schools, to administrative officers, to office workers, and maintenance personnel, and to all students, my welcome, greetings, and good wishes.

The University opens for the third successive year with the world in tragic turmoil and with democracy and totalitarianism still locked in a desperate life and death conflict. With the defense program, the Selective Service Act, and the ever nearer approach of our country to actual war, we are all deeply involved in the uncertainties and distresses of the times. In this quiet valley perhaps we are as little involved in these world-shaking events as anywhere. While we must not ignore them—indeed, we must do all that we can regarding them—our thoughts and activities will be chiefly concerned with other matters.

To you students especially, I express my welcome to a year of new growth in strength of body, mind, spirit, and skills. You who are enrolled for the first time I greet as you enter a new period of life potentially rich in new experiences in many and varied ways. Alfred is a friendly college and its typical "hello" is universally used on the campus. This pleasant atmosphere is conducive to quiet concentration and hard work. Your first tasks as students have to do with your scholastic work. Everything else depends on this. No success in extra-curricular life is worth while if you fail academically. With class and laboratory work succeeding, you have a right to happy times in your athletics, dramatics, journalistic activities, fraternities and sororities, campus associations, and social programs. Plan participation in some phase of our religious activities. For all of you who lead in and manage these varied student affairs, I bespeak a successful and satisfying year.

Alfred University begins this week its one hundred and sixth year as an educational institution. It has a long and honorable record.

Again I welcome you all, students, faculty members, and employees of whatever rank or service, to this new school year, and urge that all work together to make it the best in the history of Old A. U.

J. NELSON NORWOOD, President

Seriousness Needed

A serious note needs to be struck in the editorial columns of student newspapers throughout the nation as the fall semester opens in hundreds of college. This year there will be less and less room in the editorial columns of these papers for matters which are strictly of a local or student interest. Annual squabbles over campus affairs, or politics if you will, will be forgotten in the midst of more serious, sincere discussions of the bigger issues and problems which face not only the student population, but the world as a whole.

One might call this year the "hey-day" for college journalists, because of the unlimited opportunities which the international state of affairs sets up. This year college editors may experience that rare sensation of influencing readers in matters that really count. For instance, the college generation of the present day will become the leaders in the solution of the many economic, social and political problems which will be a natural outgrowth of the current world upheaval. This college generation which is to play so important a part will read student papers and will, directly or indirectly, fall under the influence of what student editors will have to say in the coming year.

With this thought in mind then, we pledge ourselves to the serious tasks which are ahead of us.

HANOVER, N. H.—(ACP)—A man who never went to Dartmouth has given the college \$500,000 because he believes it a "wholly masculine institution".

Emil Brommer, Brooklyn, N. Y., manufacturer, specified in his will that the funds may not be used for the "so-called dead languages" or for maintenance of competitive athletics.

AMES, IOWA—(ACP)—"Midget chemistry" is providing lots of fun, as well as education, for Iowa State college freshmen. Test tubes are about the size of little fingers and liquids are measured with eye droppers. Besides proving an entertaining novelty for students, midget chemistry is said to be safer and more healthful as well as more economical.

ALUMNI NOTES

(The following news items concerning recent alumni of Alfred University are published through the courtesy of the Alumni News. These alumni notes will be found in their entirety in the October issue of the News.)

Marriages

'38—Bert M. Lynn of Los Angeles, California, and Lilyan RePresser of Los Angeles, on August 3, in Los Angeles.

'38—Marvey Conner of Summerville, Pa., and Ruth O. Brands of Scio, on July 12, at Scio. Mr. Conner is employed as a research engineer at the Hanley Brick Works in Summerville, Pa.

'38—Glen Boylan of Hornell and Gertrude Mullins of Hornell on August 25, at Hornell. Mr. Boylan is a member of the Hornell High School faculty.

Ex-'38—Alfred W. Nutt of Calumet City, Illinois, and Alice Davis of Martinton, Illinois, at Marinton. Mr. Nutt is employed by the Hartison-Walker Refractories Co. at East Chicago, Indiana, as manager of production.

'39-40—Betty Jacox of Alfred and Glenn V. Alty of Clarence, on August 16, in Alfred. Mr. Alty is attending Colgate-Rochester Divinity School and is acting as student pastor in Mount Morris. The couple are living in Mount Morris.

'39-Ex-'39—Ruth Davie of Wellsville and George Smith of Garden City, Long Island, on August 28, at Wellsville. Mr. Smith is employed by the Pre-Heater Corp. of Wellsville.

'39—Phillip J. Brundage of Wellsville and Glenys M. Forsythe of Rochester, on September 14, 1940, at Wellsville. Mr. Brundage has been employed since graduation as a gas measurement engineer by the Cabot Gas Corporation in Wellsville.

Ex-'39—John W. Windus of Belmont and Elizabeth Miller of Wellsville on July 12, at Wellsville.

'39—Daniel J. Sparler of Harmon-Hudson and Mary Georgia Graham of Wellsville on June 5, at Wellsville. They will make their home in Youngstown, New York.

Ex-'40—Seymour Fleischman of Brooklyn and Sylvia Berk of Brooklyn on June 14. Mr. and Mrs. Fleischman are living in Miami Beach, Florida.

Ex-'40—Tyler B. Tinker of Pittsford and Kay Dagen of Rochester on February 4, in Rochester. Mr. Tinker was drafted in March at which time he was employed as chemist with Eastma Kodak Company.

'41—Donald A. DeSerio of Hornell and Virgil Frances Bloss of Canisteo on September 15, in Hornell. Mr. DeSerio is employed as engineer in the Seneca Ordnance Depot near Geneva.

'41—Stanley Gutheinz of Oneida and Margaret Marvin of Alfred on June 29, at Alfred. Mr. Gutheinz has a position in the Civil Engineering Department of the Erie Railroad in Hornell. Mr. and Mrs. Gutheinz are living in Alfred.

'41—Donald Nesbitt of Hornell and Dorothy Senf of Depew, on July 18, at Depew. Mr. Nesbitt is employed with the Spencer Lens Company in Buffalo. They will live at Depew.

'41-Ex-'42—Louise B. Schafhirt of Norfolk, Virginia, and Glenn G. Burnside of Hornell, on August 25, in Milledgeville, Georgia. Mrs. Burnside is teaching at the Georgia State College for Women at Milledgeville, and Mr. Burnside is in the service.

Ex-'41—Mary Margaret Stout of Wellsville and George W. Hipp of Arlington, New Jersey, on July 1, in Wellsville.

'41—Elmer W. Wilkins of Friendship and Florence E. Allen of Plainfield, New Jersey, on August 30, in Friendship. Mr. Wilkins is attending Drew Seminary in Madison, New Jersey.

'39-Ex-'42—Willis G. Lawrence of Wayland and Marjorie Eiss of Snyder, on September 19, in Snyder.

Engagements

'38—Helen Ehrhorn of Great Kills, S. I., and Richard G. Engel of Staten Island. Miss Ehrhorn is employed as a bacteriologist at the New York Hospital and Cornell Medical Center in New York City.

'40-Ex-'42—Ogareta Ehret of Rochester and George E. Potter of Alfred. Miss Ehret has a secretarial position with the C. J. T. Corporation of Rochester. Mr. Potter is attending Rochester Mechanics Institute.

Placed in Stenography

Three recent graduates of the Ag-Tech Institute are now employed in stenographic positions in the New York area.

Anne Mesiano '40, has accepted a position with the Charles Bruning Inc., Architectural Supplies Company, in New York City. Katherine Cipolla '41, is now working for the American Can Company in Yonkers. Rose Marturano '41, is employed by the American Banker, a banking newspaper, in New York City.

Executive Committee Adopts Appreciation

An appreciation was adopted by the Executive Committee of the Board of Trustees of Alfred University here on September 11, for C. Loomis Allen, whose death occurred at his home here on September 7. It follows:

CHAUNCEY LOOMIS ALLEN

1870-1941

An Appreciation

The Trustees of Alfred University are called upon again to mourn the loss of one of their number in the person of C. Loomis Allen, who passed away at his home in Alfred, September 7, 1941. Born in Syracuse, New York, January 16, 1870, he obtained his education in the public schools of Syracuse and Cicero, and at Alfred University and Syracuse University. His Alfred years were 1886 to 1889.

He became a recognized and nationally known leader in the field of electric railway engineering, management and financing. While his chief activities in this profession centered around Syracuse, Utica, and Oneida, New York, he was engaged at various times in similar work in Ohio, Maryland, and Connecticut.

He was a past president of the American Electric Railway Association, and the New York State Railway Association. He was a member of the American Society of Civil Engineers.

Mr. Allen was active in various civic and fraternal organizations, and because of his keen interest in historical reading and study became somewhat of an authority on certain phases of the American Civil War, 1861-65.

Since 1932, when he retired from business, Loomis, as he was familiarly called, has lived in Alfred serving the University as trustee (elected in 1909), Finance Committee chairman, plant manager and student aid committee head. In all of these services he has devoted himself loyally to the interests of his Alma Mater.

Alfred conferred on him the honorary degree of Master of Science in 1905, and both Alfred and Syracuse honored him with the degree of Doctor of Science in 1916.

The Trustees through their Executive Committee desire to express the deep appreciation of Mr. Allen's services during his long years on the Board; and especially of his devotion, loyalty, and untiring labors while employed by the University during these past nine years; and their profound sense of loss at his death.

EXECUTIVE COMMITTEE

BOARD OF TRUSTEES OF ALFRED UNIVERSITY

(Signed) J. Nelson Norwood, Chairman
D. S. Burdick, Secretary

Alfred, New York, September 11, 1941

Students May Have Varied Careers In Civil Service

Extended career opportunities are available in the New York State and Federal Civil Service to students and graduates with technical training.

To meet the increasing demands of various federal agencies, the Civil Service Program has been rapidly expanding.

Recent announcement has been made by the Civil Service Commission of the need for radio technicians, technical and scientific aids, medical officers, associate medical officers, and senior medical officers.

Students interested in civil service may get information bulletins at the local post office on Main street.

Union Church Services Begin Here Sunday

Regular church services of the Union University Church here will open Sunday morning at 11:00 o'clock in the Village Church on Church street. Chaplain William H. Genné will conduct the service.

The University Church is an unusual organization, since it is governed by a committee of faculty, students and townspeople. This committee is elected annually by the congregation.

The Church is non-sectarian and has a choir of 40 voices, under the direction of Mrs. S. R. Scholes. The Rosebush Memorial Organ is played at each service by Mrs. B. F. Crump.

The church here will join with many denominations in the observance of World-Wide Communion Sunday, October 5. This service will be held at the vesper hour.

Student classes of the church, which are conducted after the regular service, will begin on Sunday, October 5, also.

Hildebrand Receives 'Order of Merit'

Prof. E. F. Hildebrand, head of the industrial mechanics department and faculty advisor of the local chapter of Lambda Chi Alpha, was awarded an "Order of Merit" at the Lambda Chi Alpha National Convention held at Excelsior Springs, Mo., in August.

This award is made every two years by the national group to five men, non-academic members of the fraternity, who have distinguished themselves by outstanding service.

Of the 107 national chapters, all but three were represented. Paul Pettit '42 represented the Alfred chapter.

Navin Represents Alfred

As official representative of Alfred University and personal representative of President J. Nelson Norwood, William J. Navin '25, attended the Centenary Celebration of Fordham University, last week.

Mr. Navin has the degrees of A.B. and LL.B. and is a practicing lawyer in New York City. He is a past president of the Alfred Alumni Association of New York and vicinity, and a member of Klan Alpine Fraternity.

Campus Briefs

Dante Vezolli ex-'32 has been transferred from an army camp in Texas to Fort Dix in New Jersey.

Private John Eggleton ex-'42 was in Alfred Thursday while on furlough from camp in Plattsburgh.

Carl Kahn '41 is teaching this year in Nunda High School, Nunda.

Harry Pariser '41 is attending medical school in Philadelphia.

Alan Friedlander '41 is attending Harvard Law School this fall.

Eva Hanneman '41 will teach math and science at Truxton High School, Truxton, this year.

Al Worth '44 was inducted into the Service on July 15. He is stationed as one of the garrison at Camp Augusta, Augusta, Fla. This is one of the bases for army aircraft.

Raymond S. Hawes '44 has also been inducted into the Service.

Charles Rosenberg '41 is attending the University of Buffalo Medical School.

Milton Vainder '41 and Herbert Berger '41 are attending the University of Chicago Medical School.

Ernest Nadelstein '41 is doing newspaper work in Evansville, Indiana.

Peggy Dodd ex-'41 was Counselor at Hidden Lake Camp at Schenectady this summer.

Muriel Strong '43 and Mary Johnston '43 were summer counselors at the Westchester County Girl Scout Camp at Camp Rock Hill, Mahopao.

Ann Bastow '43 was counselor at the Newburgh Girl Scout Camp in Bear Mountain State Park for the summer vacation.

Margaret Ames '43 supervised a playground at Malone for the duration of the summer vacation.

Recipients of Honor Scholarships Named

Five freshmen have been selected as recipients of the honor scholarships established by the Board of Trustees several years ago.

They are Helen Dreher of Wellsville, Phelps Crump of Pittsford, Betty Jane VanGorder of Hornell, Frederica Miller of Dunkirk and Esther Burdick of Leonardsville.

The five scholarships were established by the Board of Trustees to allow recognition to high school graduates who give promise of being outstanding, all-around citizens. Scholarship is essential, but contributions through extra-curricular activities, and high qualities of character and personality are recognized also.

To insure the use of the scholarship during the four-year course, the student must maintain a high scholastic average.

College Town --By The Editors

Not even the army has been able to separate two brothers who have been inseparable since childhood days.

Vincent and Thomas Ciampa of Cuba, who were both graduated from Alfred this June, are now in the medical corps stationed at Camp Lee, Va., and have bunks side by side in the barracks.

When Vincent was drafted in June, Thomas immediately volunteered. Their requests to be allowed to remain together in same camp were answered and they are now in the replacement center at Camp Lee for a 13-week preliminary period.

The brothers, who were graduated here with academic honors, have been honor students throughout their school life. They were graduated in 1937 from the Bolivar Central School as valedictorian and salutatorian of their class. They had resided in Bolivar until two years ago when their parents, Mr. and Mrs. Anthony Ciampa moved to Cuba.

Both boys are planning careers as doctors after the national emergency is over and they believe their training in the medical corps will be helpful in the realization of their ambitions.

Editor's Mail Bag

U. S. N. A. S.
Jacksonville, Fla.
Sept. 17, 1941

Editor, Fiat Lux:

The first step in becoming a Navy pilot is to pass a rigid physical examination, which, although a little more lenient at the present time, is still passed by only one person out of eight. If the applicant can pass this examination, submit at least two years of college credit, and appear to have the necessary qualifications of an officer, he is accepted for flight training.

He is then sworn in as a Seaman 2nd Class, V-S, a rating created especially for the present emergency. He reports for duty at one of the twelve elimination training bases throughout the country, where he is given ten hours of flight instruction and required to pass two check flights and solo in order to be sent to one of the advanced training bases, all within one month's time.

That is the official version of the story, but it is not the complete story. For example, it did not include the fact that we would spend two weeks as sentries, four solitary hours of guard duty interspersed with twelve hours rest, before we would even see an airplane. Nor did it include the fact that Seaman 2nd Class, V-S, receive only \$36.00 a month, plus subsistence. It also did not include the fact that, after being sent to an advanced training base, we would have to wait there for a period of from four to nine weeks before being appointed as an Aviation Cadet, the real beginning of flight training.

These facts, when learned and experienced by the students caused a slight morale problem. This was probably because we expected so much and received so little.

However, on becoming Cadets, conditions greatly improve and we can go back to the story book life.

Students were sent here to the Receiving Ship at Jacksonville, the name given to the group of students waiting for Cadet appointments, from all over the country. Usually, students living on the west coast are sent to Corpus Christi, Texas; students living in the middle west are sent to Pensacola, Florida; and students living on the east coast are sent here. However, New York students are found in Texas, and California students are found here, such is an example of the how the Navy does some things.

While in the Receiving Ship, we drilled, went to radio code class, and worked at the hangars. Other than that, we did nothing but produce rumors, and what rumors. I sometimes wonder what actual warfare could produce.

All that is past now, thank heavens, but it seemed like a lifetime waiting those three months to become a Cadet. In my next letter, I will describe the base here and its so-called "Liberty Town" Jacksonville, later on I will tell about the life of the Cadet.

Sincerely yours,
Mario C. A. Carota, Aviation Cadet,
U. S. N. R.

Student Announcements Welcomed on BH Board

Burdick Hall's glass bulletin board has been made available as an all-campus bulletin board, according to an announcement made today by Dean M. Ellis Drake.

Dean Drake further stated that the lock has been taken off and announcements are welcome.

Backfield Is In Test Against Rutgers In Opener

Short Shots of Sport Shots

By Bob Moebus

"Just where does the Frosh, man or woman, fit into the athletic picture here at Alfred?" This writer has heard this question many times since arriving on the campus and since a column is due, felt it quite good copy for the opener.

In recent years the Frosh has been taught to more or less respect the prowess of a varsity man or a man sporting a varsity sweater. However, since the draft has removed some of the more prominent athletes from the Saxons roster it has been found necessary for the various coaching staffs to seriously consider revealing the frosh rule concerning participation in varsity athletic competition. Finally it was decided to abandon it entirely insofar as the football team was concerned. This opens a challenge to the aspiring Freshman footballer. He at last has his opportunity to be one of the highly-thought-of eleven. Since this opportunity has not been granted before, the class of '45 should welcome it, and its men should do their greatest to prove their worth to the campus. Eventually we will know the answer. Right now it is a challenge.

What about men who are not talented along football lines. Frosh men have turned in remarkable performances in the competition known as Cross country racing. Alfred has never had a weak squad of harriers. Alfred does not expect to have a weak squad of harriers for a time to come. Next year's varsity will outcrop from this year's Frosh. Another challenge has been added to the list of athletic "dares".

As for the women on the campus, it is true that they don't have the wide range of intercollegiate competition granted to the men. However, Alfred's sportswomen are recognized here and away for their ability in sports such as field hockey, archery, basketball, badminton and a host of others.

And for the man or woman not athletically inclined, your support is wanted, needed, and expected. A football team is inspired to do greater things when the crowd is with it. This is true of all sorts of competition, and when the crowd is "there," they are usually satisfied with the showing made by their favorites. Support costs nothing to give, and is such a great part of the battle for victory.

We who have been here know this and don't generally need to be reminded of it. The Frosh will learn it and they too won't have to be reminded of it. All Alfred is awaiting your answer Frosh!

Coe '30 Appointed To Teach History At AU Extension

A. James Coe '30 of Jamestown has been appointed successor to Dr. R. F. Howes on the faculty of the Alfred University Extension School at Jamestown. Mr. Coe will teach history and social studies.

Mr. Coe graduated from Alfred University with the degree of Bachelor of Arts. After gaining some teaching experience in Alfred High School, he went into graduate work earning the Master of Arts degree at Cornell University in 1932. He filled various positions in the Jamestown educational work teaching in night school and in the adult education programs. For two years he taught in the Emergency Collegiate Center at Jamestown, sponsored by Alfred University.

He has coached basketball and done other extra-curricular work. For a time he directed the Publicity Department of Alfred University. For the past two years at least he has been pursuing graduate studies at Cornell University in history and political science.

While at Cornell he benefitted by the War Memorial Graduate Scholarship provided by the alumni of Alfred University. Also at Cornell he had employment in a well-known tutoring school near the campus.

DOING GRADUATE WORK

David Clarke '41, is doing graduate work this year at the Graduate School of Theology at Oberlin College, Oberlin, Ohio.

Football Team's Sugar Daddy Is Moriatis

No one has ever stood in dispute as to the identity of Alfred's No. 1 gridiron fan. He's Nick Moriatis, proprietor of the Collegiate Lunch.

Nick feeds the team every pre-season period for four weeks, plying hungry pigskin chasers with good substantial steaks and the like—and then tops off the season with a theatre party. It's getting to be an Alfred tradition, and this year has been no exception.

Friday night Nick placed the usual dinner before the squad, then announced that everyone was to pile into vehicles provided for the occasion, and the team journeyed to Hornejl. First they were guests of Mr. Peters of the Majestic Theater who announced that the show was on the house for the entire 30-man entourage. Then they adjourned to a restaurant where Nick sat in pride watching his charges-for-a-night eat again. And if anyone is in doubt about the collective appetite that 30 football men can run up, Nick can personally testify that he's the No. 1 Saxon fan by displaying the bill.

Aspiring Netmen Asked to Register With Minnick

Although no definite time has been set, Coach Dan Minnick, new director of Intramural Athletics, has announced that a men's tennis tourney is being planned and that eliminations will start soon after the school year is begun.

All of Alfred's aspiring netmen are requested to register for the tourney with him in his office at the gym as soon as possible, thus facilitating an early opening of the round-robin play for the championship of Alfred University's racquet wielders.

Fall CAA Program Limited to Ten Students

The fourth Civilian Pilots Training course will start with the opening of the Ag-Tech School, Wednesday, W. B. Harrison, coordinator, announced this week.

Students successfully completing the course will receive a private pilot's license to operate an airplane weighing not more than 1,300 pounds.

"Three semester hours credit will be awarded for the course and it will be considered as a regular elective subject," Mr. Harrison stated.

There will be ten students permitted to enroll for the flight training and 12 for the ground school training. The extra two in the ground school group will act as alternates in event a student drops out of the flight training.

Principal qualifications for the course are the physical examination and the age limits. Applicants must have attained their 19th and not their 26th birthday by September 1, 1941.

Mrs. Case Assumes Duties As NYA House Mother

Mrs. Carolyn Case of Williamsville took over the post of assistant supervisor of the NYA resident centers last week. The vacancy was made by the transfer of Mrs. Minna Stubbs to the Woodstock Boys and Girls resident center.

Coming here from Williamsville where she taught industrial arts in the high school and supervised the recreation, Mrs. Case will act as supervisor of the girls center and of the combined boys and girls dining hall at 19 North Main street.

Previous to the position in Williamsville, Mrs. Case managed the cafeteria at the Starin Art School in Buffalo.

After studying at Iowa State College, Mrs. Case taught Industrial Arts in Dunkirk for a number of years and it was there that she first became connected with the NYA program. Following that position she was Matron of the Thomas Indian School at Iroquois, N. Y.

WINS CLOUT TITLE

Phyllis Chamberlain '43 shot in the New York State Clout Tournament held at Letchworth State Park in August and won the State Clout Championship for Women.

Mike Greene, Veteran Tackle

Big Mike Greene, burly lineman stocked with two years experience is one of the five returning veterans who will bid to make the Saxon line a stubborn impregnable wall.

Saxons, Rivermen Meet In Rochester Practice

They were a bit mixed up for a while when Coach Dud DeGroot's backfield pulled its razzle-dazzle ball handling tactics, but after solving things by sharpening up their eyesight a little Alfred Purple and Gold Gridmen took matters into their own hands and displayed a pretty good brand of football themselves Saturday afternoon in a practice scrimmage with the University of Rochester at Rochester.

The Rivermen were able to do very little with Frank (Pike) Trigilio when he made up his mind to take a jaunt down field, and the 200 lb. Pike once outran the opposition for 40 yards off-tackle to score, tore off another dash of 65 yards before he was dumped, and was on the tossing end of two pass plays that went for touchdowns.

The practice was controlled, and was held mainly for the benefit of Coaches DeGroot and Yunevich, both of whom experimented all afternoon. No official score was kept. Saxons who showed up well all afternoon were Trigilio, Big Mike Greene, easily the best lineman on the field; Jimmy Kehoe; John Ledin, whose line play was excellent despite a broken bone in one hand; Andy Kulakowich, an artist at pass-snatching; Ed Chrszan, blocking back; Guard Reggie Miner and End Bob Jolley, both of whom were consistently breaking plays up in the Rochester backfield.

Argosy Issues Recruit Call

With plans for the 1942 Argosy, Ag-Tech yearbook, already under way, Jerry Smith '42, co-editor, today issued a call for recruits.

"A large part of our staff was graduated last year," he said, "so there is an excellent opportunity for both experienced and unexperienced workers in the advertising, editorial or layout departments."

He also pointed out that those students who are accepted on the staff will receive a shingle for one year's work and for two year's work, they will receive the Argosy key. The experience gained working on school publications has proved of great value too, he said.

N.Y.S. Ceramists to Hold Meeting Here in October

Ceramists will meet here Friday, October 17, for the annual meeting of the Ceramic Association of New York.

The program will consist of reports on the research work of the Ceramic Experiment Station for the past year, a question forum on ceramic problems patterned after "Information Please," an address by a prominent outside speaker, and the usual business meeting.

HOLD FACULTY MEETING

The first faculty meeting of the new college year was held last night in the lounge of the main building of the College of Ceramics, at seven o'clock. President J. Nelson Norwood addressed the faculty.

Vacation Sends Four to Archery Camp in Vermont

Both teaching and learning have been among the activities of Alfred University archers this summer.

Attending the Teela-Wooket Archery School in Roxbury, Vermont, in June, were Mrs. Ray Wingate, Peggie Wingate '42 and Phyllis Chamberlain '43. Miss Wingate also took riding instruction there, while Miss Chamberlain won first place in the June, 1941 Teela-Wooket Archery School Tournament, Women's Section. June Chisholm '42 won this tournament in June, 1940.

At Archery School at Tella-Wooket this month was Grace Schilsman '43, the first of the Alfred archers to receive a third class Teacher Rating Certificate. Only six third class ratings were given this month, and only four second class certificates. There were 56 archers at this session of the school.

Other Alfred archers who have attended this school in other years are Lois Creighton '43, June Chisholm '42, Peggy Wingate '42 and Eloise Bassett '42.

Two archers taught archery this summer. Miss Chisholm was archery counselor at Camp I-Wa-Su. Campfire Girls' Camp of this vicinity, at Lake Demmon. This position was held by Miss Bassett the previous summer. Both later taught archery at the two summer religious conferences held here.

McLane Calls Meeting Of Intramural Board

With an eye toward introducing a fall Intramural Athletic program for the men of the campus, Coach James McLane is calling together a meeting of the Intramural Board at the Gymnasium next Monday night at 7:30 o'clock.

All fraternities and groups wishing to participate in this year's Intramural program should be represented at this meetin, the purpose of which is to organize the league and discuss new suggestions and ideas for its betterance and moother functioning than in previous years.

Norwood, Holmes Attend Budget Hearing in Albany

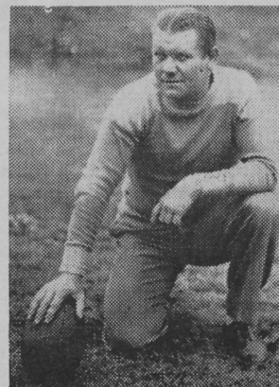

President J. Nelson Norwood and Dean M. E. Holmes were in Albany, Friday, for the annual budget hearing before the budget committee of the Board of Regents considering the College of Ceramics budget for 1942-43.

Dr. J. Hillis Miller, Associate Commissioner of Education, was in Alfred, Tuesday, September 16, in conference with officials of the College of Ceramics regarding its program and needs. Doctor Miller recently went to his present position from the presidency of Keuka College. He is acquainting himself with his new duties which involve the fostering of the state-supported colleges, including the College of Ceramics.

Veteran Line Expected To Shine; Boasts Five Returning Lettermen

Saturday afternoon at 3:00 o'clock down in New Brunswick, N. J., three of Alfred University's football institutions will undergo heavy fire for sixty minutes when the Saxons pit themselves against a heavy Rutgers University team in the opening grid battle of the season for both squads.

Football Mentor

Coach Alex Yunevich

Those three institutions include a line, a backfield, and a goal line uncrossed by the opposition for five consecutive games.

Coach Alex Yunevich of the Purple and Gold squad has few worries about the first, his line, which looks to be even better than it was last year—and only six points crossed Alfred's goal line last year. Big Mike Greene, left tackle; Reggie Miner, left guard; Bill Hurly, center; Jerry Schwartz, right tackle; and Bob Jolley, right end, are all back in uniform with another year's experience behind them. Only two spots are unknown quantities, right guard and left end. Either Jim Aina, a freshman, or John Ledin, a veteran, will hold down the guard slot, with Andy Kulakowich, Bill Kopko, Red Fenton and Andy Cusimano waiting for the nod at left end.

Trigilio Is Triple-Threat

Second on the list comes the backfield, built around the only one of last season's regulars, the colorful Frank (Pike) Trigilio, 200 pounds of triple-threat activity. Trigilio will do the bulk of the kicking, passing and running, holding down the left halfback post, and calling signals. Quarterbacking the outfit will be Ed Chrszan, who has seen service off and on for two years as a reserve in that slot. Probably starting at right half will be Bob Meyer, star of last year's freshman team, a fast, tricky runner. Jimmy Kehoe, another frosh, has been the outstanding fullback candidate and may start at that post. Reserves include Cliff Clay, Julie Opacinch, Bill McKenna, Stan Fistik, John Barone, and Larry Scudder.

Line reserves are present in the persons of Don Rozumalski, Paul Kopko, Dutch Dutkowski, Tom Grove, Chuck Taylor and Bernie Horowitz.

Rutgers Outfit Unknown

Little news has reached the Saxon camp concerning the Rutgers outfit. Rumor has it that the charges of Harvey Harmon have been hard hit by the draft, graduation and ineligibility, and that the squad is weaker than it has been in the past few years. Forecasters predict an off season for the Grid Fathers. Rutgers will however, enter the game with the odds in their favor, thanks to a line that reputedly averages 191 pounds.

The squad will leave on Friday by bus from the Atlantic filling station, will return Sunday, leaving New Brunswick at 9:00 o'clock in the morning.

To Represent AU

Beals E. L. French, A. U. '13, B.S., Ph.D., has been appointed the official representative of Alfred University and the personal representative of President J. Nelson Norwood to the celebration of the fiftieth anniversary of the foundation of the University of Chicago, September 27, 28, and 29.

Doctor French earned his Ph.D. at the University of Chicago in 1925, is a member of the National Education Association of the State Teachers Association (Illinois), Phi Delta Kappa, Sigma Psi, Sigma Nu, is listed in American Men of Science and Who's Who in Science.

Perrone, Voorheis Share War Memorial Scholarship

Recipients of the Alfred University War Memorial Graduate Scholarship for 1941-42 are Patrick D. Perrone '27, and Claude H. Voorheis '28.

Mr. Perrone will be a graduate student in the University of Arizona, and Mr. Voorheis is in his second year of graduate study in the Boston University Theological School.

JOINS NAVAL RESERVES

George Ploetz '41, joined the Naval Reserve in Annapolis, Md., September 17. Ploetz had formerly been employed by the Owens-Illinois Glass Co. in Clarion, Penna.

DO YOU NEED MONEY?

We are now appointing our college agents for 1941-1942. Very profitable spare-time work. Apply at once. State class and activities. Dept. C. N., Marlboro Co., 102 Fulton St., New York City.

Frosh X-Country Candidates to Meet With Coach McLane

A call for all varsity and frosh cross country candidates has been issued by Coach James A. McLane, athletic director and harrier coach. All candidates are requested to report to him at the gym next Monday afternoon at 3 o'clock or as soon after as is possible.

Three of last year's varsity squad are definitely returning with another trio on the questionable list. Returning veterans include Dave Nordquist, Ira Hall and Larry Caverley. Those in question are experience men in the persons of Roger Marks, Larry Scudder and Heinz Rodies. Scudder is tied up with football obligations while Marks and Rodies are awaiting arrangement of their schedules before definitely reporting for active work.

As usual the Frosh squad is of unknown quantity, and probably will remain in the class of unknowns until their first outing against the R. P. I. greensies at Alfred on the eighteenth of October:

- The Varsity Schedule:
 Oct. 11—Army at West Point
 Oct. 18—R. P. I. at Alfred
 Oct. 25—Cornell at Alfred
 Oct. 31—Colgate at Alfred
 Nov. 8—Buffalo State at Alfred
 Nov. 17—I C 4-A at New York
 Nov. 24—NCAA at East Lansing, Mich.
 The Frosh Schedule:
 Oct. 18—R. P. I. at Alfred
 Oct. 25—Cornell at Alfred
 Nov. 17—I C 4-A at New York

Frosh Football Men To Play Three-Game Schedule this Year

Freshman football candidates are urged to report Monday afternoon at the field-house at Merrill Field to Coach Dan Minnick in order to get their togs and instructions for workouts.

Contrary to rumor, the freshmen will field a squad and will play a three-game schedule, opening on the 25th of October against the Buffalo Frosh at Buffalo, and following on consecutive Saturdays against the U. of Rochester Frosh at Rochester and Scranton-Keystone Junior College at LaPlume, Pa.

In accord with the waiving of the freshman rule, several frosh will be kept in reserve for the Varsity and will not play the freshman schedule unless cut from the Varsity. Last years freshman, playing the same schedule, failed to turn in a victory, tying Buffalo 6-6, and losing to both Rochester and Scranton-Keystone by a 6-0 count. This year the Greenies will be in the hands of Coach Dan Minnick, who succeeds Frank Lobaugh in that position. Coach Lobaugh resigned from the staff last year.

Wins Herrick Award

Doris M. Hill, who is entering Alfred University as a freshman this week, has been awarded the Anna Grace Herrick scholarship here. The scholarship has a cash value of \$300 a year for four years to aid in the pursuance of a Liberal Arts course at Alfred.

Ceramic Industry Scatters Graduates Among 14 States

New York State Ranks Highest Claiming 16

Forty-six recent graduates of the Ceramic College are now scattered through 14 different states.

Of the graduates, 16 are employed in New York State, 7 in Ohio, 4 in New Jersey, 3 each in Pennsylvania and Connecticut, 2 each in Missouri, Maryland, Washington, D. C., and West Virginia, while Florida, Massachusetts, Georgia, Tennessee and Illinois have claimed one apiece.

The list of graduates and the companies by whom they are now employed follows:

Engineers—Seymour J. Barr '41, is employed by Vitreous Steel Products Co. in Cleveland, Ohio; James H. Carpenter '41, by the Titanium Alloy Mfg. Co. in Niagara Falls; Fred L. Cuneo, Jr., '41, by North Penn Gas Co. in Port Allegany, Penna.; Terry Galanis '41, by J. T. Ryerson Steel Co. in Buffalo; Alphonse J. Kirsch '41, by Curtis Wright Co. in Elmira; George H. Mann '41, by Titanium Alloy Mfg. Co. in Niagara Falls; Lawson E. Mason '41, by U. S. Gypsum Co. in Staten Island; Lloyd W. Mason '41, by Kaul Clay Mfg. Co. in Toronto, Ohio; Frank P. Maxwell '41, by U. S. Gypsum Co. in Oakfield.

And Morris C. Musgrave '41, by U. S. Gypsum Co. in Oakfield; Russell E. Pardee '41, by Mexico Refractories Co. in Mexico Mo.; Richard R. West '41, by Big Savage Refractories Co. in Frostburg, Md.; Arthur J. Heacker '41, by U. S. Gypsum Co. in Staten Island; Cranson B. Shelley '41 by Exolon Company in Bladell; Robert A. Whitwood '41, by Electro Refractories & Alloys Corp. in Buffalo; and James F. Wygant '41, by Mo. Portland Cement Co. in St. Louis, Mo.

Glass Technologists—John S. Brietenstein '41, by National Lead Company in South Amboy, N. J.; Mario A. Carota '41, by U. S. Air Service, Jacksonville, Fla.; Edwin J. Kelly '41, by Ferro Enamel Corp. in Cleveland, Ohio; George L. Ploetz '41, by Owens-Illinois Glass Co. in Clarion, Penna.; Joseph L. Utter '41, Fellowship, Massachusetts Institute of Technology, Cambridge, Mass.; Clarence E. Washburn '41, by Babcock & Wilcox Co. in New York City; Leo M. Schifferli '41, by Linde Air Products Co. in Buffalo.

Industrial Ceramic Design—Joseph S. Cutrona '41, by Hawkinson Porcelain Co. in Hartford, Conn.; Bernard Fried '41 by Van Hornsville Craft Center in Van Hornsville; Louise Schafhirt Burnside '41, by National Youth Administration in Atlanta, Ga.; Robert Brownell '40, by U. S. Bureau of Standards in Washington, D. C.

Others employed are: George M. Colucci '40, in Architectural Tile Co. in Keyport, N. J.; Donald D. Faulkner '40, by Tyler Glass Corp. in Paden City, W. Va.; Everett Thomas '40, by Titanium Alloy Mfg. Co. in Niagara Falls; Jack Feuerstein '39, by U. S. Bureau of Standards in Washington, D. C.; Joseph Proe '39, by Carborundum Company in Niagara Falls; Herbert Berry '37, by Trenton Potteries in Trenton, N. J.; Maynard Jones '37, by National Fireproofing Co. in Canton, Ohio; Jack G. Merriam '37, by Titanium Alloy Mfg. Co., Bureau of Mines Station, in College Park, Md.; R. E. Cooley, J., '36, by W. A. Case & Son in Robinson, Ill.; Bruce Thorgate, by Ceramics Development Co. in Trenton, N. J.; Mark Sheppard '15, by E. I. duPont de Nemours Co. in Morgantown, W. Va.

And Richard Vernooy '41, by Mullite Refractories Co. in Shelton, Conn.; George Ward '41, by Mullite Refractories Co. in Shelton, Conn.; Allen Smith '41, by Knox Porcelain Co. in Knoxville, Tenn.; William O. Young '41, by a firm in Barberton, Ohio; Howard E. Cooper, Pitney Glass Works in Cleveland, Ohio; and John S. Young by Nava Crucible Co. of Pittsburgh in Zelenople, Pa.

Treasurer Crandall To Act as Manager in Reorganization

Reorganization of the administration of plant affairs of the University for the coming year has been made according to a statement made by President J. Nelson Norwood this summer.

Under the reorganization, Treasurer Burton B. Crandall will be acting plant manager, with Ward C. Tooke, chief engineer of the heating plant, as assistant plant manager. George A. Bunnell, who has been assistant to the former plant manager, the late C. Loomis Allen, has become manager of the University dormitories and dining halls. Harry C. Greene, long-time superintendent of buildings and grounds, will assist Mr. Tooke in caring for the University plant.

Faculty Changes

Continued from page One
tion fellowship. Mr. Tuttle graduated from this institution last June.

Paul T. Whelan has been appointed to the fellowship sponsored by the Electro Refractories and Alloys Corporation. Mr. Whelan is a senior student in the General Ceramic Engineering Department.

On the Liberal Arts faculty, the new members are as stated below:

Dr. Elsworth Barnard will be chairman of the English department, a position left vacant when Mrs. Beulah Ellis resigned; Dr. Roland Leslie Warren will be chairman of the department of philosophy and sociology, filling the position formerly held by Dr. A. E. McGuire; Dr. Katherine Allen Clarke will substitute in romance languages during the leave of absence of Prof. Eva L. Ford.

Dr. Barnard is a New Englander with his bachelor's degree from Massachusetts State College, and his master's and doctor's degrees from the University of Minnesota. He has taught at his Alma Mater, at the University of Tampa, at Williams College, and, last year, was lecturer in English at the University of Wisconsin.

Dr. Warren is a native of Islip, N. Y., a graduate of New York University, and of Heidelberg University, receiving the doctor's degree from the latter in 1937. Since his return from Germany he has been teaching at Hofstra College, where, "he has made an excellent record as a teacher," says President Norwood. He was also Director of Student Activities and Adviser to Men at Hofstra.

"I can recommend him to you with great enthusiasm," writes Professor Spahr of New York University to President Norwood.

Dr. Clarke is a graduate of Goucher College with the master's degree from Middlebury and the doctor's degree from Grenoble in France, the latter with honorable mention.

Her translation of Pean Giono's novel, "Que ma jole demeure," was published in June by Viking Press under the title, "Joy of Man's Desiring." She is now translating another book by the same author.

Mrs. Ernest Guy of New York City will fill the position of substitute instructor in Spanish and French in the Department of Romance Languages, succeeding Mrs. Walden Boyle, resigned. Mrs. Guy (pronounced "Gee," the "G" being hard) was born in Madrid, Spain, and got her education there, training specially in the French and Spanish languages. Her background was conducive to the development of real culture, her father being until his retirement in 1927, President of Supreme Court (Spain). She has traveled extensively and lived in different foreign countries. From 1931 to 1939 she resided in the United States, while her husband was Commercial Attache in San Francisco for the French Republic. Mrs. Guy has successful American teaching experience, having recently completed a period of substitute teaching in Goucher College, Baltimore, Maryland. She holds the Master of Arts degree from Mills College.

Miss Augusta O'Neal, recently of Columbus, Indiana, will fill the position of Instructor in Business and Secretarial Studies, succeeding Miss Agnes M. Pearson, resigned. Miss O'Neal received her Bachelor of Science degree from Indiana State Teachers College at Terre Haute, and her Master of Education degree from Harvard University. At various times she has studied also at the University of Colorado and the University of Cincinnati, as well as at the University of Indiana. She has had many years of successful teaching experience. Miss

Mrs. McDermott To Supervise Infirmary

Mrs. Alice McDermott, R. N., has been appointed to the position of superintendent of the Clawson Infirmary at Alfred University, following the resignation of Miss Lydia Conover in June, because of poor health.

Mrs. McDermott has had experience in institutional infirmary work with the Dayton Wright Airplane Factory, Dayton, Ohio, and with the Beechnut Packing Company at Canajoharie. She started the First Aid and Welfare department of the latter company several years ago. She received her training at Little Falls Hospital and at the New York Medical School.

The Board of Trustees of Alfred University used the appointment of a new superintendent as an opportunity to revise the supervisory system at the infirmary. At the June meeting they abolished all existing committees dealing with the infirmary and appointed a Board of Supervisors. This Board, as appointed by Dr. Orra S. Rogers, president of the trustees, includes: Dr. Marcus L. Clawson, honorary chairman (Dr. Clawson, the donor of the infirmary, asked to be transferred from the active to the honorary list of trustees at the June meeting; he had been an active trustee since 1916); Burton B. Crandall, chairman; Dean Dora K. Degen; Dean M. Ellis Drake; Prof. James A. McLane; and Dr. R. O. Hitchcock.

The Board of Supervisors, as a part of the business already left to it, recommended the appointment of Mrs. McDermott.

O'Neal is not only well trained in commercial subjects, but also she has a major in English. She has given a good deal of attention to physical education and is much interested in sports, in club work, dramatics, church affairs, and summer camps. She has traveled widely in the United States and Canada. Miss O'Neal comes to Alfred University highly recommended by those under whom she has studied and taught.

Ag-Tech School Lists 3 Courses To Meet Needs Of Industry

Three new subjects, advanced nutritions, business law and economics, will be taught in the Agricultural division of the Ag-Tech School beginning with the opening of the first semester, Wednesday, to "meet the demands of industry," Director Paul B. Orvis announced today.

Advanced nutritions will be taught by George S. Robinson, head of the poultry husbandry department, and will include nutritional problems and ration making, digestive systems, classification and characteristics of food nutrients, using quality food materials in feeds and rations, milling and mixing.

The department of agricultural business education now offers diplomas in two major courses. The first one, agricultural business, trains for farm supply store managers and various other types of rural retail distribution. The secretarial training course combines business training with specialized work in dairy industry or floriculture.

In order to make the agricultural business course more comprehensive,

Allen Dies

(Continued from page one)
Aircraft Board, in Washington, D. C., which was under the chairmanship of Howard E. Coffin, and also became a director of the War Board of the American Electric Railway Association. After the war he resumed his activities in the management of public utilities. In 1932 he virtually retired from business life when he took over his various offices at Alfred University, where he has served since with distinction and success.

On October 11, 1894, Mr. Allen married Florence Worster of Syracuse, and they became the parents of two children, Alfred George Allen and Mary Brown Allen, now Mrs. Frederick A. Morse of Keuka.

Mr. Allen died of a heart attack following a long illness. Private funeral services were held September 9 at Oakwood Cemetery in Syracuse, following cremation.

Mr. Allen is survived by his two children, his wife having died just 14 months previous to his own death.

Two new subjects have been added for the coming semester. Business law will emphasize the legal phase of the problems associated with distribution, and business economics will offer specialized training in business cycles, pricing problems and budgeting.

"Special attention will be given to a number of case studies closely associated with the work of the Institute," said K. B. Floyd, head of the department.

Norwood Stresses College Men Needed After Emergency

"Training yourself for future usefulness in your chosen field is patriotism. Stick to your college plans," stated President J. Nelson Norwood in a recent letter to all present and prospective men students of the Liberal Arts and Ceramic College.

"You are going to be an active individual in life's affairs for the next forty or fifty years," he stated in offering points for college men to consider in choosing between what may be temporary employment during the present emergency and college training for a life time of progress.

"For defense purposes," he continued, quoting President Roosevelt, "there is a special need for individuals qualified in physics, engineering, chemistry, mathematics, biology, statistics and economics," but beyond this a successful democracy must be assured of an adequate supply of highly trained and skilled citizens to carry on its normal peace-time functions when the present crisis is past.

"Young men, therefore, are rendering a definite patriotic service in preparing for that post-crisis period."

Ceramists Have Reorganized Curriculum

Announcement has been made by Dean Major E. Holmes of the Ceramic College of curriculum changes in Glass Technology and in General Ceramic Engineering which will take effect with the opening of school this week.

The foreign language requirement in Glass Technology has been replaced by courses in optics, enamels and additional electives.

In the General Ceramic Engineering curriculum, three major changes are noted. The course in Mechanics is being changed from a 6-hour to an 8-hour course, and greater emphasis is being laid on Strength of Materials. Coincident with this are radical changes in the Equipment, Design and Plant Layout course, intended to more abundantly meet the standards of the E. C. P. D.

The reorganization of the course in Enamels will eliminate the deficiency in enamels instruction which has been noted here.

Dean Holmes states, "We propose to eliminate that deficiency by increasing the enamels course from a 2-hour to a 6-hour course and emphasizing research upon this subject."

Calls for Candidates For Business Staff

Call for candidates for the business staff of the Kanakadea, Alfred University year book, was made today by Cliff Reader '42, associate editor.

Reader stated that all freshmen, new students, or others interested should report at the Kanakadea Office on the ground floor of Burdick Hall, Monday night at 7:00 o'clock. Anyone who was interested but could not go to that meeting should call Reader at Kappa Nu.

RECEIVES M.A. DEGREE

Francis Hutchins, B.A., '29, received a master of arts degree at Ohio State University's convocation, Friday, August 29.
