St. Lawrence Rolls Over Alf As Saxson Skein Scrapped

Saints Go Marching; Alf Forces Crumble Under Backfield Pressure
by Ronald Belvoir
Playing host to an overflow homecoming audience of over 5,000, Alfred University, in what was probably the greatest football game this season, finally found its first victim, St. Lawrence University, 14 to 7. Back to average last year's homestanding loss at their home field, the Larries made no bones about the whole affair. They appeared bigger, stronger, faster, and, without a doubt, looked like the better team.

Their faces coupled with an unwavering future aura, a series of tension lines was deliberately held back the startling Larries, showing Alfred with the first gale in the list fifteen games.

But with a supreme effort, the St. Lawrence Larries, the Larries at last, had the final whistle blown. Second quarter over, 19:40 remaining, 17 seconds on the last play. The Larries finally scored their first touchdown of the game.

Out Of Bounds

Homesteading and homegrown vines have, some passed, and passed out of sight for another year.

The party continued from after the game was over.

Shirley Danielson, Gert Zampetti, and Nancy Richman, among others, were present.

They'd use it anyway, prof. You'd have it anyway, whether or not you'd thought of it.

They all boiled down to this: there are two kinds of bitching - the kind that is done at home and the kind that is done in public.

The key to successful relationships is to accept the fact that virtually all persons and things are imperfect.

Sometimes it was just reasoning with his name and the reason for thinking lately. Tuesday and Wednesday evenings.

I had a sense that he was going to do something in the near future that would affect the whole world.

To quote a certain ex-student: PLEASE TELL ME how this happened.

If the fluctuations of life become too much to bear - why, then patience is the key to successful relationships.

If you had time to sit around and think, it was good to do it with someone else.

As soon as he opened the door, it was, I think, just as though he had been called.

Sometimes it was just reasoning with other persons.

Aren't we, therefore, conscious of this at this time.

Now there were certain tasks which might have seemed easy.

How the stars got started

The theme of the program was "The Fabulous Twenties." The stars who were featured were: Gene Autry, John Wayne, and John Garfield.

The program included a discussion of the history of the motion picture industry, with emphasis on the development of the sound film.

There was a showing of a short film about the history of the industry, followed by a discussion of the role of the Motion Picture Association of America in regulating the content of films.

Students were encouraged to participate in the discussion and to share their own experiences with the history of the industry.

The program was sponsored by the Student Council and the Department of Speech and Dramatic Art.

The event took place in the Student Center, and was open to all students.
