Reverend Ryan To Address Seniors; Will Receive Degree at Graduation

The Reverend William G. Ryan, President of Alfred Hill College, will deliver the commencement address on Sunday, June 9. Miss Goldstein will announce that Father Ryan will receive an honorary degree of Doctor of Laws at the annual convocation.

Reverend Ryan has been president of the College since 1943. A member of several learned societies, the speaker has served on the advisory board for the Institute of Judaeo-Christian Studies and the Institute of Catholicism in Paris, France, and a member of the Latin Club at the University of Pennsylvania.

Reverend Ryan has served on the board of the Liturgical Arts Society. He has also served as president of the Presbyterian Church in the United States and has been a member of the class of ’59. Bob is a member of Lambda Chi Alpha and the Latin Club.

Senior Nurses to Receive AU Pins

The senior nurses will officially become graduate nurses at the pinning ceremony on Sunday, May 26, at 3:00 p.m. in the Seventh Day Baptist Church at 3:00 p.m., in Greene Hall.

The pumps are open to anyone from the University and to partake of speeches and friends of the graduates. The seniors urge all underclassmen to on or near the campus in take part in the ceremony in their full uniform.

AU Fine Arts Festival Continues Until June 9

Presented jointly by the departments of music, drama, and design of the liberal arts college and the department of the design of ceramics college, the 1957 Fine Arts Festival will extend through June 9. Last Friday night's presentation of Henry Ford's "A Doll's House" opened the activities.

Dr. Ray W. Wingate will present a lecture on Monday, May 26 at 1:00 p.m. at Merrill Hall. The Quartet, composed of Adolph Pursglove, viola; Allen Norton, viola; Walden, cello; and Cleveland, piano, will present Haydn's Symphony No. 104, Beethoven's Symphony No. 9, and Brahms' Symphony in F Minor.

AU Fine Arts Festival continues until June 9. The annual Reserves Officers Training Corps review will be held 6:30 p.m. Thursday on Merrill Field.

This review is held in connection with the annual convocation. The drill is in progress, and a review of the 241 cadets.

Book Drive Closes

The International Club has concluded its book drive for the World University Service with excellent results. The cadets filled with books are being shipped to Israel. The club wishes to thank the students and faculty who participated in the drive for their cooperation.

Rochester Review Thursday for Annual Spring Inspection

Lieutenant Colonel Edward A. Hennessy, Infantry, USAR, Training Center, Rochester, and Major Lawrence W. Laughi, Infantery, USAR, Training Center, had those is inspecting the ROTC battalion.

This review will be Major Avery's last at Alfred. He will leave in July after having been here for four years, the last three as commandant.

Major Avery will go to Fort Lawrence, Kansas, where he will take the Associate Command and General Staff Officers course for sixteen weeks. After his training period, he will be off for Germany for three years.

Alfred sectarianism statement released

The faculty and administration of Alfred University are opposed to discrimination clauses which control fraternity membership. We will uphold the right of fraternities to select their own members. We are on record as opposing discrimination clauses which prejudice a student before his arrival on our campus.

It is our considered judgment that a student should be accepted on the basis of his individual merits rather than the basis of race, religion or color. It is expected that the fraternities at the University campus will work toward the elimination of discriminatory clauses through negotiations with national officers and local advisory groups.

The faculty and administration of Alfred University is vitally concerned about the progress made toward the solution of this problem and will review the matter again during the coming semesters of '58-59.

M. Ellis Drake

Piet Elects Bell, Gorewitz; Best FIAT Articles Selected

Alfred's choice of Piet Elects Bell, Gorewitz, the national honorary jounalism fraternity, has selected May 26, 1957. "Maxene Gorewitz" was also selected along with the editorial by Mary Bell in last week's FIAT, "Tell Them Centers . . ."

Stories entered in the news section are the sports story of October 31, "Penn State and Field Merritt Mariner E 34" by Allen Gipio, along with "Jims Murray's article, "Discrimination Discussed at Meeting; Committee System Adopted by Group." This article referred to the meeting held in Greene Hall in connection with sectarian friction.

A story by Johnson Allen, in connection with "1500 ADOPTES FRENCH YOUTH Through Parental Program," was selected from the March 26 issue while "A Lot of Political Awareness in Today's Basic Issues: Cohen," written by Maxene Gorewitz, was a story dealing with Dave Cohen's talk to the Political Science Club.

The Fraternity has also announced that they are going to recommend the presentation of the annual Medal of Merit Award to former President Blank. It is feeling the outstanding work during the past year.

Green Cheney conversational

Charles H. Greene was made a Fellow of The American Ceramic Society at the 25th annual meeting, May 6, in Dallas, Texas. He is professor of glass technology and chairman of the glass department at the state College of Ceramics. Dr. Greene has received many, his significant contributions to glass science. His profile glass standards have been selected leading technical journals. He also is the author of papers on glass articles and drawing glass tubing.

A native of Troy, P. D., Dr. Greene was awarded the PhD degree from Haverford College, and the M. A. and PhD. degrees from Harvard. Before his advent as an alford staff, he was a research chemist and technical consultant at Borsig Glass Works, and a Chemistry Instructor at Harvard.

The American Ceramic Society elected 142, 1942, Dr. Greene has been a frequent contributor to "Ceramic Abstract" magazine. He is also a member of Phi Beta Kappa, Sigma Xi fraternity.
Fraternity adjudication in a democracy is something to be concerned about. The faculties and administration of the University have made their stand clear. Now it is up to a world of action.

The fraternities in question have told that they are directly violating the principles that Alfred University stands for. Therefore, they want to continue their present dual role as a matter of personal evaluation.

We know where the faculties and administration stand, and we have a feeling that the student body feels the same way. In any case, we are inviting the student body to participate in the future, or what-have-you from every member of our campus community.

If enough campus comment is forthcoming, it should be, an extra edition of the FIAT LUX will be printed.

A Poem was requested, if expressed within the limits of good taste, regardless of viewpoint or simplicity or elaborate-ness of statement.

Letters to the editor should be addressed to Box 754 or left in the FIAT LUX office. All letters must be signed, although names will be withheld by request.

"FIAT LUX" - Let there be light. Letters to the Editor

Dear Editor,

I have been asked to write a letter to the editor of this paper. I am an Alfred, "Alfred Review," the literary mag-azine produced annually by inter-ested students from various parts of the world, and which, in its next issue, will appear soon. I should like to take this occasion to make some general remarks about the nature.

Helping the editorial staff to read and choose the words for this issue, I am impressed with the capacity of young people to pass on something. Some of this material was unsure technically but always interesting; some were confusing; but many of them were exciting and meaningful.

Artistic creativity is, I believe, a form of love: and since love is an idea by which we may measure the worth of the human, the possibility that it may become real is always important.

Respectfully yours,

Leonard Sadowski

ABANDONED CASTLE!

Dear Editor:

It has been over fifteen years since the Castle, the only coopera-tive house for independent women, was founded in the Alfred campus, was founded. During these years the house has slowly become a part of the forces that maintain the world. The girls who have been members of this faculty feel that such an experiment in living as a part of the world is not possible without the support of the individual and the community.

It seems impossible that such a project, which offers girls a chance to assist themselves and others, and to gain valuable experience in living and working as a group, should have to be abandoned. If it seems impossible, that out of the several hundred girls who have been members of the house, a handful cannot be found who could recognize the value of such an idea. Girls have always shown the power to persevere in the house, and I be-lieve that this will happen again.

Any girl of any class is urged to communicate with the house or its attendant to find out more about the opportunity for cooperative living...

Joanne Muhsaberg

Alfred University's Student Newspaper

Published every Tuesday of the school year by the students of Alfred University and edited by the senior editorial board. The advisor of the student newspaper is Assistant Professor of English, Mr. James Lincourt. The office is located in the Seidlin Building, Alfred University, Alfred, N.Y. 14802. Telephone 271-1144.

Blood Drive Short

The Bloodmobile, desired its bi-annual visit to the Alfred cam-pus, on May 8, in hopes of re-ceiving 100 donations of blood. This is a goal of this campaign, for, of the 159 people who pledged, only 100 showed up.

The blood collected will be given to the Hospital on campus in 11 counties of this region. The hospital in turn will distribute it to pa-tients, charging them only an "administration fee" for the lab work.

Poet-Veteran Froomes Anthology is Published

by Maxine Davis

"If the mark of a true poet is the concentrated magic of his own words, woven with flawless sense and with an al-most musical effect, Charles Froomo may well be ranked with the best of the younger American poets."

This is what was written about Charles Froomo, a veteran of the Korean War, in 1954. He has since produced a body of work which is extending their influence and fame. Froomo's book, "The Sound of Distance," was published in 1954, and since then his collection of poems written mainly while in the army, and deals with the experience of young men on life and the war. But whether he is dealing with the horrors of war or love in the South Seas, his poems are filled with the warmth and the composure of the human soul that he so often and so sensately from the hard world of real fact and action to touch those inner kernels—the sorrow, joy, despair, desire, and triumphs of life in a small way.

Respectfully yours,

Leonard Sadowski

The Nation’s” McWilliams Talks on American Conformity for A.A.U.P.

(Continued from page 2)

Our characteristics of the American scene. People have their interests so committed to meeting economic problems in the future as to have lost their incomes. Mr. McWilliams described our economy as being a “welfare-war” type of economy. This type of economy creates a sort of mediocrity. We desire peace but make no peace movements.

However, the speaker did allow for a bit of optimism. He believes we are getting a new politics, which will result from boredom and resentment. People feel they are taken too much for granted by large scale organizations of all types.

Mr. McWilliams ended with a rhetorical question: isn’t it a bit complacent on the part of management to feel that the public is satisfied? As for his own opinion, the “Nation” editor doesn’t think the public is satisfied with the current state of affairs.

It appears that this topic of political discontent and social conformity is one of top priority among campus speakers. The purpose of this topic, it seems, is to challenge the complacency of the university population into an acceptance of necessary responsibility.

**“Business and pleasure do mix...”**

ROBERT H. WENTORF, JR., Ph.D., University of Wisconsin, 1951

"Until I joined General Electric's Research Laboratory in 1951, I never realized science could be such a challenge — or so much fun. My job involves research in physical chemistry — the investigation of new ideas which can lead to new and better products people can use. In a company of this size, I have the unique advantage of having the honors and facilities I need and the experience of others close at hand. And in return, of course, I'm expected to apply myself to the best of my ability in each new job. As I see it, if a big company like General Electric invests time, money and faith in my creative ability, and if I respond by creating, then we both benefit. To me, General Electric business and pleasure do mix."

The achievements of 31-year-old Robert Wentorf speak well of his ability to make the most of the opportunities offered at General Electric. He recently created borazon—a completely new, diamond-hard substance which promises far-reaching effect on industrial processes and everyday living.

There are more than 37,000 college-graduates at General Electric. Each is provided the opportunity for self-development in the hope that his creative ability will bring forth new ideas. As General Electric sees it, these new ideas, stemming from man's native curiosity, will lead to the development of countless products as yet undreamed of for our nation's defense, industry, and homes.

A physical chemist at General Electric conducts studies of the atomic structure of matter, and of the way atoms and molecules interact under a wide variety of conditions.

Disa and Data

The end of the trail is just around the corner. After four years we are down to the final chapter. Rather than get down in the good old nostalgia, we should like to have one more fling at some of our past experiences.

During four years we have had the pleasure of working with a great crew of people while covering the sports beat and we should like to thank all of them for their cooperation.

Alfred has come a long way during the past four years. This despite the fact that we had the likes of the now infamous Buffalo Invitational.

During his football campaign we urged the formation of a Through the Past years we have enjoyed watching the Alfred community. In this period little has been done to alleviate this problem. We hope that there will be four additional tennis courts constructed during the summer. If this be true, it is a step in the right direction. However, much more should be done. At the fine intercollegiate athletic program, but much more should be done. At AU there are falling by the wayside — the top sports and the minor ones are falling by the wayside. At AU we compete in all the major sports and the minor ones are falling by the wayside.

Reynolds Speaks on Research

At Meeting of Alfred Sigma Xi

The "Story of Research" was the dominant topic of Dr. R. M. Reynolds at the Sigma Xi meeting last Thursday night.

Dr. Reynolds is the chairman of the department of Anatomy of the University of Illinois. He visited Alfred under the auspices of the American Institute of Biological Sciences.

The guest speaker whose field is physiology showed how new ideas in research lead to another by using as an example his own research work on the physiology of fetal circulation.

Having been introduced to this part of his field purely by accident, in 1945, when he was asked to help an associate, Dr. Reynolds went on to do his own research.

Through the use of x-rays and a film, Dr. Reynolds showed the results of his experiments. At the time of birth, there is a coming in of the septum in the heart, the deterioration of blood vessels used for gas exchange at a series of clinics in Germany. Word also had it that a good chance that Saxon miler Frank Flannery might hit the A.M. mile record against some stiff competition in the State meet.

Conch Jay McWilliams will also handle the head basketball coaching chores at Trinity next year.

E. W. CRANDALL & SON JEWELERS
Trackmen Cop UB Invitational; Finnerty Breaks Two Records

It was a cold and dismal day for six teams competing in the fifth annual University of Buffalo track meet at Rotary Field, but the rain failed to cool off the veteran team, as the red-hot Saxons romped to an easy victory.

Frank Finnerty led the way in the middle distance events as he saw new field marks in the mile and two mile runs, clocking 4:02.1 and 9:28.2. Despite the adverse conditions, four records were toppled, as spectators saw Alfred outpoint their closest competition, the University of Rochester, 63% to 55.

Beginning double wins for Alfred besides Finnerty, were Dick Kappus and Willie Clark. Kappus clocked in at 17.0 in taking the 120 yard lows in 26.01. Clark's sea-set was his seventh team, as the red-hot Saxons got off to a poor start and trailed Rochester by ten yards at one time. But the cindertrack men scored their initial triumph on the two mile in 10:05.2. Dick Shaw, Bob Good and Marty Neuflotimn took his first this time with 4:21.9.

Clark captured both hurdle races, and Kappus the 100. Clark set a new University of Buffalo invitational record in the hurdles.

Wellsville course last Friday. The Saxons got off to a poor start and trailed Rochester by ten points at one time. But the elder statesmen, who were out in only two events, managed to overtake the Yellowjackets midway through the meet. First and second place scores in the 190 and 220 gave Alfred a commanding lead which was never threatened.

The Alfred track team ran away with their second dual meet victory of the season, as they crushed the Ithaca College forces 102-29 last Wednesday.

Double wins went to Frank Finnerty, Willie Clark and Dick Kappus. Flnnerty, who is bearing down on the Alfred mile record of 4:19.4, took his first this time with 4:21.9, run without the spark of serious competition. The Saxon middle distance man came back to win the two mile in 10:05.2.
