

Labor Attorney Will 'Changing Values in College' Is Topic Speak at Assembly For AAUP Panel Discussion Tonight

Attorney Nathan P. Duff will speak on "My Experiences as a Labor Attorney" at the assembly this Thursday.

Duff is General Counsel for the United Brick and Clay Workers of America, an international organization with branches throughout the United States and Canada.

He has also been attorney for various district councils and local unions in New Jersey, New York, Pennsylvania, Delaware and the New England States. In 1952 and 1956 he was a delegate at the National Conventions of the Democratic Party.

Duff's speech for the assembly is being sponsored by the Student Branch of the American Ceramic

Society. A luncheon will be held in Duff's honor following his address.

This is Duff's second appearance on the Alfred campus. In 1957 he spoke at the Structural Clay Products Symposium sponsored by the Ceramic College.

Hope to see you . . .

This will be the last issue of the FIAT LUX this semester. We will resume publication next semester.

Lost . . .

If anyone finds a pair of dark-rimmed glasses, it would be much appreciated if that person would contact Glen Kunzman, phone 8035, Klan Alpine.

The AAUP will discuss "The Changing Values in College" by Philip Jacob in a panel discussion tonight at 8:00 in Howell Hall.

Participating in the discussion are Dr. David O'Hara of the English department, Dr. Luke Smith of the sociology department and Mrs. Robert Shrlach of the mathematics department. Mr. McIntosh is the moderator. Each panelist will give a fifteen minute report of his ideas on the changing values in college as presented in the book. The meeting will then be opened to the audience for discussion.

Jacob's "The Changing Values in College, An Expository Study of the Impact of College Teaching"

has caused a variety of opinions concerning education. J. Edward Dirks of Yale University has this to say of the book: ". . . it will soften some extravagant claims about university and college education, and will make for greater realism in evaluating higher education, effects and potentialities."

According to Gordon W. Allport of Harvard University, "Many sorts of scholars will be grateful to Philip Jacob . . . for securing a unique reference work. The bibliography alone is a significant contribution."

"I believe Philip Jacob's presentation is balanced, moderate and that its conclusions are supported by the evidence that he offers. The

report is not one that will give comfort to most college educators because I believe that it demolishes or at least challenges a number of its prized assumptions . . . it will oblige all of us to share responsibility for all academic programs, to re-examine our own intellectual premises and, too, curricular arrangements that we have erected on these premises." This is the review given by Lawrence H. Chamberlain of Columbia University.

Last year the AAUP discussed "The Organization Man," by William Whyte, Jr. The year before they presented a panel on David Reisman's "The Lonely Crowd."

The meeting tonight is open to the public.

Robert Howat Gives Concert; Sponsored by AU German Club

by Vilma Gieger

Students of German have organized a German club under the direction of Dr. Edward Sittler. The club is to serve both as a language workshop as well as a social organization.

As one of its first activities the club sponsored a performance last night by the concert pianist, Robert Howat. Mr. Howat made his New York debut in the autumn of 1957 in the Town Hall, and now is a member of the music department.

of the University of Chicago. Recently he has made two long playing records of the piano works of Bartok, Faure, and Tscherepnin. Mr. Howat of a known recording artist in the Music Libraries Records. This is one of the few times he has played for a college program.

The German club will place its main emphasis upon the understanding of Germany, its people and particularly its language. Films, language records, and magazines are some of the devices which will be used as aids to increase the student's knowledge of the country.

The Office of the Consul General of the Federal Republic of West Germany is supplying the organization, weekly, with films of current events in Germany. Similar films are to be supplied for regular use at meetings of the club, throughout the year.

Officers of the new club are: Vilma Gieger, President; Thomas Schulkind, Vice President; Ronna Stitely, Secretary; and Floyd Moon-ey, Treasurer.

Forensic Finals Finds Foster First: Next Is National Contest in Chicago

The annual Student Speaking Contest, sponsored by the Alfred Student Branch of the American Ceramic Society, was held last Thursday night in Binns-Merrill Hall.

The contest, open to all ceramic undergraduates, featured in-

dividual seven minute talks on subjects related to ceramics.

First prize was awarded to Brian Foster for his talk "The Crystallization of Titanium Oxide." His prize is an all expense paid trip to Chicago to participate in the National Student Speaking Contest in May and a cash award of twenty-five dollars.

The second prize winner, Robert McKinley, will receive a copy of the book, "Ceramic Fabrication

Processes" from Dean McMahon. His winning speech was entitled "Flame Spraying."

Joseph Finlayson was awarded third prize for his talk on "Research on Sensitivity Test for Detecting Discontinuities in Porcelain Enamel Steel." He received a copy of the book, "Phase Rule Diagrams for Ceramists."

The top ten contestants will also receive a one year's subscription to the magazine "Ceramic Industry."

Opportunity Unlimited

The library is now remaining open during the dinner hour from Monday through Thursday of each week.

These extended hours will be in effect through January and February on a trial basis, and will be continued the rest of the year if there seems to be a real need.

Business Seminar Will Probe Trends of Customer Shopping

The Eighth Annual Invitational Seminar of the economics and business department will be held on January 21 at Howell Hall. The present trends of customers' shopping patterns will be discussed.

Some 250 Alfred businessmen, representing an area of 35 miles, will hear a panel speaking on the theme, What is the customer doing? The four men on the panel will be representing food, appliance, soft goods, and service businesses. They will try to analyze the consumers' demand for their products.

Each member of the seminar will fill out a questionnaire regarding his own personal business affairs. Those attending will be given a written report on economic conditions in the area.

The Alfred Study Area is used in the teaching and research programs of the Department of Business and economics. This program

not only enables businessmen to discuss local trends but gives students an opportunity to become familiar with current business thinking.

Award Citations For Long Service

Two members of the AU faculty were presented Twenty-Five Year Service Citations in December, at the annual President's dinner at the Brick.

Robert M. Campbell, professor of ceramic engineering, and Lester Ray Polan, retired associate professor of mathematics, received the Service Citations from President M. Ellis Drake.

Campbell has been associated with the University since 1919 when he enrolled as a freshman. In 1933, he was appointed professor of ceramic technology at A.U. In 1944, Campbell was appointed chairman of the department of ceramic engineering.

Polan's citation recognizes his service to the University since 1931, when he became instructor of mathematics. He was promoted to assistant professor in 1932 and to associate professor in 1943. Except for a two-year leave of absence during World War II, he taught continuously until his retirement in 1957.

Dean of Men, Fred Gertz, presented President Drake with a plaque and seal in recognition of his service to the University, also at this dinner.

IFC Ball Features Joe Williams and Rhythms of Count Basie Orchestra

by Kathy O'Donnell

Friday night members of the University and Ag. Tech. fraternities and their dates danced to the music of Count Basie at the annual IFC Ball.

Co-chairmen of this year's affair were Dave Hoffman of the Ag. Tech. IFC—Cliff Hanlon, president and Max Lilling of the University IFC—Paul Carton, president.

The chairmen report that it was a record crowd that danced and listened to the rhythms of the Count and his orchestra and to the magical crooning of the blues by vocalist Joe Williams.

At 11:00, prior to the intermission parties at the various fraternity houses, the coronation ceremony took place. Queen candidates were chosen by a house vote in each of the seven Ag. Tech and University sororities. The Queen's Court, which was escorted to the band stand prior to the climactic announcement of the Queen's identity, was made up of: Mary Cavanaugh of Sigma Chi Nu, Karol Edwards of Alpha Kappa Omicron, Harriet Fowler of Pi Alpha Pi, Muriel Hendie of Theta Theta Chi, Delphine Jendrysek of Alpha Beta Chi, and Elva Newman of Delta Chi Omega.

The Queen, Rosalie Nash of Pi

Count Basie at the piano

Nu Epsilon, followed her court to the platform to be crowned in a ceremony which was under the di-

rection of Master of Ceremonies and IFC Publicity Chairman, Steve Chaffiff.

Class Tours New York City as Part Of 'World's Great Religions' Studies

by Jerome Reicher

(Jerome Reicher was a participant in a tour taken by Chaplain Bredenberg's World's Great Religions class during the Christmas vacation—Ed.)

Classes started early for Chaplain Bredenberg's class in World's Great Religions. With inquisitive minds and a prearranged schedule of lectures in hand, the group met in New York City on the weekend of January 3.

The purpose of this meeting was twofold: first, to hear people who are practicing the religions which are being studied in class and secondly, to get answers to some of the questions that evolved from classroom discussion here in Alfred.

The trip and all the lectures were planned well in advance by Chaplain Bredenberg who also arrange that everyone had proper quarters in New York.

The class met on Friday evening, January 2, for the first time, at the China Institute of America. It was here that Dr. Chih Meng, the host, lectured to the students on the Chinese religions in general. Most of his talk, however, was concerned with Confucianism and the family structure of the Chinese culture.

The following day, the students met at The Vendanta Society where Swami Pavitrnananda was the host. The Swami's talk pertained to Hinduism, or more specifically, the Vedas. He impressed upon the students that Hinduism is an all inclusive religion. "Truth is one, men call it variously."—the Veda.

After a brief break for lunch, the caravan moved on to the Islamic Mission of America. On arrival, they were met by their host Reverend Sheikah, Daoud Ahmed Faisal, a dynamic speaker, to say the least.

To the dismay of the class, they were informed by the Reverend that there is no such subject as comparative religion. Islam, he stated, is the only true religion. All others, such as Christianity and Judaism, are philosophies of life.

With the passing of time and the sounding of a gong the students were transferred from a mosque in Brooklyn to a Buddhist church in Manhattan where the Reverend Yoshikama greeted them. Here the class was informed that Buddhism is basically a pessimistic religion where there is no god or almighty.

After some hours of meditation, in true Buddhist fashion, in one of New York's Japanese restaurants, the class moved on to the Yoga Institute where Sachim Majumdar

was their host. "Yoga," the host declared, "is basically the control of the mind and body." At the request of some of the students, Sachim Majumdar performed some of the exercises that are characteristic of Yoga.

With this demonstration and some active discussion, the group dispersed to meet again Sunday morning at the First Zen Institute of America. It was here that the students took an active part in an actual service.

Following an informative lecture and discussion, the class broke up and each member made his way back to Alfred with many new thoughts in mind and many questions answered.

Letter

TO THE STUDENTS:

Recently, your Student Senate representatives have discussed with you the desirability of a "free day," after the last day of classes, before the first day of exams. A vote of the student body, taken according to residences, indicated that a majority of the students favored the proposal.

Working toward this goal, our members of the student government met with representatives of the faculty and administration on two different occasions. Many aspects of the question were discussed, primarily the problem of scheduling.

Since the calendar for a school year is prepared during the second semester of the preceding year, the only way to obtain a "free day" would be to delete a day of classes. If this course were taken, those members of the faculty who allot their time carefully would be unable to complete their lectures. Therefore, the free day cannot be scheduled for the present year.

However, the administration has assured the student government that the free day will be included in the 1959-1960 schedule. We regret that we were unable to obtain this privilege at the present time, but we are confident that it will become a reality in the future.

Nancy Cashmere
President, Student Senate

Brown Speaks At Psych Club

Ronald Brown of the Speech and Dramatic Department of Alfred University was the guest speaker at the Psychology Club meeting on Thursday evening.

Dr. Brown's topic was Speech Therapy and the Relation of the Therapist to Psychology. He devoted the main part of his talk to a discussion of organic speech defects and their therapy. Among these defects are cancer of the pharynx, cleft palate, cerebral palsy, and stuttering.

The program included a recording of various patients of mental institutions. This was of interest to the group as it showed the speech patterns of several mental deficiencies.

Prof. Malcolm MacDonnell of the Psychology Department will speak at the next meeting on his doctoral dissertation.

Greek Student Classical Music Fan; Former Teacher Is Planning Diplomatic or Legal Career AKAO Housemother

by Alfred Sugarman

Though diffident and modest, Demetrius Cutsuras has participated in many activities on the Alfred campus, and has become well liked.

Demetrius was born in Tripoli, Greece in 1939, in a department called Arcadia. There he completed four years of elementary school where he studied language, and biology. Many times the well-disciplined classes might be held on Saturdays, affording the student more opportunity to keep up in his work.

Demetrius came to the United

States soon after the fourth grade and continued his schooling here. Though he masters the English language very well now, he still remembers how difficult it was to speak to somebody during the first two months he was here.

From elementary school, Demetrius attended Poughkeepsie High School. As a freshman, he joined the Dramatic Club, the tennis team, mixed chorus, and debating team. In fact, Demetrius was second in a state-wide speaking contest.

Here at Alfred, Demetrius has

continued many of his diversified interests. He is proud of Alfred because it stands for almost everything he desires in a college; smallness, friendliness, and a good academic rating. Demetrius is a good student and is majoring in political science. He plans to go into the diplomatic service or law, from the training he intends to obtain in a graduate school.

Besides "burning the midnight oil" often, he works in the Union, is a member of the debating team, French and German Clubs, political science club occasionally works in the kitchen in Bartlett. Demetrius is also an avid fan of classical music and an ardent collector of coins.

Demetrius has been in this country for eight years and feels pretty well adjusted to our way of life.

by Emmalyn Heed

"Each day at Alfred University is a fresh, interesting and challenging experience."

These are the words of Mrs. Florence Robinson, housemother at Alpha Kappa Omicron who has been with AKAO for two years and enjoys her position very much.

She feels grateful for the opportunity to know the girls and especially proud to be associated with a sorority that is dedicated to its aim; that of increasing tolerance and understanding of all racial and religious groups.

Mrs. Robinson was a teacher in the elementary schools for over fifteen years before coming to AU. She taught in Genesee County for four years and spent the remainder of the time at what is now the Hammondsport Central School. She

has lived for the most part on one of the Finger Lakes, Keuka.

There are many things Mrs. Robinson likes about AU. One is the beauty of the countryside at all times of the year. She also thinks the friendliness of the people is outstanding and feels very much at home among them. And, too, she enjoys the fine opportunities which are available on campus and feels that these and more have contributed richly to her life at AU.

New Scholarship Established Here

A new \$850 annual scholarship has been established at Alfred University to encourage research in the field of high tension electrical porcelain.

Dean John McMahon of the College of Ceramics said that the new award has been provided by the Hartford Faience Co., of Hartford, Conn. A check for the first award to be made next fall already has been received.

Faculty members will choose a member of the senior class next fall to receive the initial fellowship. The student chosen will work on a problem pertaining to the electrical insulator industry in preparing his senior thesis.

Civilization Class Sees Annual Presentation of 'Dr. Faustus'

Alfred University Theatre's Footlight Club presented its ninth annual readers-theater production of Marlowe's "Dr. Faustus" as part of the Civilization program last Wednesday.

Under the joint direction of Prof. C. D. Smith and Prof. R. M. Brown of the department of dramatic arts, the Alumni Hall audience of 350 freshmen witnessed the tragic parable of man's overreaching, his magical penetration of nature's secrets at the cost of his soul, in a

form designed to demonstrate the text.

The production featured spotlighted readers in modern dress contrasted with colored projections on a motion picture screen of performance scenes from the Footlight Club's full production of the play in 1950. Harrison Gilbert was in charge of lighting.

The student-faculty cast was as follows: Faustus, Jules Leon; Wagner, Cyrus Berlowitz; Old Man, Ronald Brown; Lucifer, Glen Van Ingen; Mephistopheles, Melvin Bernstein; Good Angel, Carol Rosen; Evil Angel, Bonnie Sussman. The chorus included James Chase, Pride, Dickson Shaw; Covetousness, Larry Kurlander; Wrath, Chororos; Envy, Judy Chase; Gluttony, Fred Engelmann; Sloth, Myron Sibley; Lechery, Lisa Finelli.

Eyes Right

The Alfred University Rifle Team is now engaged in firing their rounds for the Intercollegiate meet now in progress.

The team is competing against all the ROTC units in the nation and possessions.

There will be separate awards for the individual and the team winners. The results will be announced with two months after the completion of the firing by all the schools.

Cwens Initiate New Members

Monday evening January 5, Kruson Lounge was the scene of the formal Cwentessence initiation.

Ten of the twelve members were initiated at the ceremony presided over by Judy Alsberg, former president, and attended by Dean Klitzke and Miss Creighton, the group's advisors.

Those initiated were Marjorie Davidson, Diane Dollistoski, Kathy Erb, Carolyn Erickson, Elaine Feinberg, Louise Medovich, Mary Newton, Nona Serlen, Ruth Silverman and Jackie Zinke.

Each girl received flowers and the organization's colors. Two sophomore nurses, Patrica Sharp and Judy Weinman, were not present.

Goals for Business Enterprise Are Explored by Honors Group

The Honors Group of the economic and business department will hold its next meeting at the home of Professor Daiute on the 17th of this month.

Thorstein Veblen's "Theory of Business Enterprise" and Galbraith's "The Affluent Society" will be the two books which will be discussed at this meeting. The first book read by the group was "Scientific Management" by Frederick Taylor.

At subsequent meetings, Hayek's "Road to Serfdom," Mayo's "So-

cial Problems of Industrial Civilization," and Boulding's "Organizational Revolution" will be covered.

These discussions are concerned with the formulation of suitable goals for business enterprise. Those taking part are Savo Jevremovich, Henry Langer, Mrs. William R. Thomas and Robert Daiute, representing the faculty, and Richard Engel, Mary Cavanaugh, Franklin Boylice, Herbert Nanno, Carl Siegel, and Joseph Cameron of the student body.

Student Outlook

by Paul Weiss

INQUISITIVE

More than 200 of the most inquisitive-minded college seniors and recent graduates in the country will be sought for Federal scientific research positions through an intensive, nation wide search, the Civil Service Commission announced.

Mechanics of the search is a nation-wide, written service examination which will be given in February at more than 1,000 examination points across the nation. Qualified applicants may file for the examination from December 1, through March 3.

"The college seniors or graduates who make the grade can be paid a starting salary of \$5,430 a year and can set their career sights on the highest-level research positions in the Federal Government . . ." the Commission said.

The persons elected will be working with some of the nation's outstanding scientists and will be given opportunity for further training to help them along the career ladder. Only research positions will be filled through this examination.

POSTDOCTORAL ASSOCIATESHIPS

The National Academy of Sciences-National Research Council has announced a program for Postdoctoral Research Associateships to be offered for 1959-1960. The Air Research and Development Command is also participating in this program at four Air Force installations. In addition, the ARDC is sponsoring a program at twenty-one universities in the U.S.

The resident research associateships have been established to provide young scientists an opportunity for advanced training in basic research in a variety of fields. Modern facilities are available in

specified areas of the biological, physical, and mathematical sciences and engineering.

Application materials may be secured by writing to the Fellowship Office, National Academy of Sciences-National Research Council, 2101 Constitution Ave., N.W., Washington 25, D. C.

by Gail Kopper

The '59-social season at A.U. began Friday night as students, alumni, and guests gathered for the Interfraternity Ball.

Fraternities were the scene for dinner, intermission, and punch parties.

Delta Sig had a pre-Ball party and an intermission snack party on Friday night.

Lambda Chi had a punch party before the Ball and a b.y.o. party on Saturday night.

There was a champagne-Playboy party at Klan Alpine Saturday night. Leroy Odinov '58 came back to help the boys celebrate.

At Kappa Psi's party Saturday night, Pat Whitney of Floral Park became engaged to Walter Dill '59.

Kappa Nu began the weekend with a dinner Friday night. At the party Saturday night, Al Tuckman '59 and Elaine Lederer of Brooklyn became engaged. Bob Cohen '59 and Jan Rose '59 have been accepted at Syracuse Law School and Seton Hall Dental School, respectively.

Tau Delt had a buffet on Friday night and a formal dinner party on Saturday. Pinnings at the House include Mike Grund '61 to Kathy

Alzmann of Liberty, and Tom Schulkind '60 to Hilda Frischman '60.

At Pi Alpha those engaged are: Sue Baker '59 to midshipman Herbert Mossman of Annapolis, Vilma Gieger '61 to Ronnie Goetting, and Brenda Kaufman '59 to Jack Monene. Diane Smith '58 was back for the weekend. Tonight's dinner will be served by Pi's Honoraries.

At Sigma Chi those engaged are: Elsa Reckwell '61 to Ron Gibbons '61, Joan McMaster '59 to Ken Schumaker Jr., and Linda Goldenberg '61 to Steve Cohen '59. Those pinned are: Janie Ricklind '60 to Jim Fassler '60, and Dottie Schwaeger '60 to Don Robelen '59 of Tufts. New pledges at Sigma are: Hilda Frischman, Nancy Reap, and Sue Rhodes.

Back for the weekend at Theta Chi were: Anne Clift, Marion Lyons, Margaret Roters, and Gail Sutcliffe. Nancy Haus '61 is engaged to Charlie Wickwire '59.

Buffalo Bullies Warriors, 64-45; Seventh Straight Saxon Setback

by Shelly Fagan

Playing before a highly partisan Buffalo crowd, at the Buffalo Gymnasium, the Saxons attempted to begin the New Year on the right foot by ending their 6 game losing streak. With Girmindl and Wagner unable to play, and Bresnick and Green playing in spite of their injuries,

In the first half, the Bulls out-rebounded, outthrustled, and out-scored the Warriors with ease. Buffalo won the opening tap and opened the scoring when Kirchberger, 6' 4" forward, hit with a hook shot. Sutton, bringing the ball down for the Saxons, drove in and sunk a layup to tie the score at 2 all. Seconds later, after a foul shot by Tontillo and a set shot by Schaper, the Bisons had a three point lead. The Purple and Gold fought back with two foul shots by Steinberg and Bresnick, making the score 5-4 in favor of the Bisons. Then Kirchberger hit again with his hook shot and Buffalo led 7-4. That was the closest the Saxons came to Buffalo all night.

On offense the Bulls had trouble working against the zone defense that the Saxons set up. On defense, with Sutton bringing the ball down for Alfred the Bisons easily out-rebounded them (47-39) although Sutton picked off 23 to raise his average to 20.55 per game. During most of the half, Buffalo steadily increased its lead from the 17-6 margin that they enjoyed at the 7 minute mark, to 37-22 at the intermission. Leading the first half breakaway for the Bulls were Tontillo, who was the leading point getter on both sides with 17 for the evening, Kirchberger, and Kurowski. Buffalo hit 50 per cent of its shots in the first half as compared with only 23 per cent for Alfred. Buffalo just had too much

The lone bright spot in the first half for Alfred, was the offensive play of Freshman Steve Steinberg. He drove around Shaper and Dumpkowski with ease, and finished the first session with 9 points.

At the start of the second half, the Saxons went into a full court press, but the Bisons continued to play smooth ball, and the best Alfred could do was to draw to within 12 points of Buffalo during the half. Then, with the help of fouls on Alfred, Buffalo opened its lead to 16 points, and Messieurs Ohstrum and Steinberg were out of the game with 5 fouls each. From that point, the Bulls just coasted to the buzzer and an easy 64-45 win.

The depth problem was painfully obvious after Ohstrum and Steinberg were removed by fouls. With

four of the team's first seven men injured, Coach Smith must ask his inexperienced reserves for too much. If the Saxons are going to salvage what is left of the season, the injuries must heal quickly.

In the preliminary contest the Buffalo Freshman walloped Coach Seigels young Saxons 83-44.

Tonight, Alfred will meet Hamilton away from home, but will return on Saturday night to meet Buffalo State.

VACATION ROUNDUP

Alfred	53
Kings Point	68
Alfred	49
Wagner	57
Alfred	76
Upsala	83

Grapplers Sock Union, 19-11

The Saxon grapplers started their 1959 campaign in good style last Saturday as they toppled the matmen from Union College 19-11 at the Men's Gym.

Alfred lost the first two matches of the day as Ralph Gutierrez lost on points to Charles Bruce in the 123lb class, and Jim Tenzel was pinned by Clem Crow at 2:35 of the second period in the 130lb class.

The Saxons bounced back, however, winning on points in the 137, 147, and 157 categories. Frey beat Adasek in a close match, and Larry Wander and Ron Carmichael took their matches 3-0 and 5-2 respectively.

By far the most exciting match of the day was the 167lb contest between Lyle Wiedeman of Alfred and Pete Levesque of Union. The crowd was on its feet throughout most of the struggle. The climax

of the match came in the last minute of the last period, when Wiedeman was apparently pinned. Although he was completely exhausted at the end of the second period, he bridged for more than 60 seconds to avoid the pin. At the end of the match the crowd roared its approval as both wrestlers lay dead to the world on the mat. The fact that Wiedeman lost the match on points in the final minutes did not seem to dampen the enthusiasm of the crowd.

The Saxons finished the meet by sweeping the final two matches. Dennis Kohler scored a pin in the 177lb class at 2:10 of the second period and Herman Lederberg won by forfeit in the unlimited class.

The matmen will meet Cortland tonight at Cortland and return home on Saturday to meet Colgate.

The Sports Corner

by Jay Henis—Fiat Lux Sports Editor

Pete Smith's weary, bleary Saxons limped up to Buffalo last Saturday after a heart breaking, bone breaking, ligament tearing, muscle pulling trip to New York City during the Christmas vacation. On the road tour to the big city, the Warriors played Kings Point, Wagner College, and Upsala College on successive days and in the process of losing all three games, three of the five starters and one of the first line substitutes were injured.

Most seriously injured were Gary Girmindl, Alfred's leading scorer, who is out for the season with a broken radius in his left hand, and Warren Wagner, who is also out indefinitely with a severely sprained ankle. Also on the injured list are Art Bresnick, third high scorer for the Saxons with a 10.0 point per game average, and promising Freshman Joe Green, who pulled a muscle in his left thigh. Both Bresnick and Green will be available for duty, but whether they will be able to perform up to par is questionable. The slew of injuries afflicting the Warriors has put a serious crimp in the expectations of the team.

But while Christmas was anything by merry for Coach Smith, there was one bright spot in the otherwise gloomy picture. The bright spot is 6 feet 3 inches tall, and is the second leading rebounder in the nation, averaging 20.3 rebounds a game. His name is Warren Sutton. Sutton averaged over twenty points a game on the three game swing, scoring 39 of his 62 points against Upsala, to set an Alfred record in that department. He also hauled in 28 rebounds and had 9 assists (another record) in the same game. The astounded Upsala coach said after the game, "No one has played as well against us in my six years as coach."

Sutton Second

According to the latest figures released by the national Collegiate Athletic Bureau, Alfred's basketball star Warren Sutton is the number two rebounder in the country.

Sutton's average of 20.3 rebounds per game ties him with Bailey of Pasadena and Bell of North Carolina for second place honors. Jackson of Iowa State Teachers College is the current leader with an average of 20.5 per game.

In the eight games thus far played, Sutton has hauled in 163 rebounds and scored 102 points to lead his team in both departments.

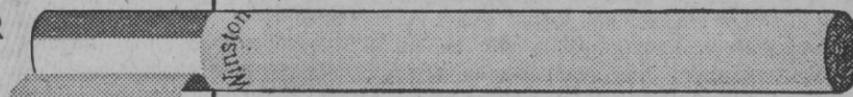

Save A Life?

These girls will receive American Red Cross certificates for having successfully completed the Senior Course in Life Saving and Water Safety at Alfred University during the first semester, 1958-59:

Patricia Poore, May Rosenfeld, Brenda Bernstein, Priscilla Bush, Linda Venezia, Sandra Kaplan, Jan Puellen, Rose Ciullo, Deborah Dixon and Miriam Brass.

Two other girls, Maxine Neustadt and Sue Firth, were members of the course but were absent during a part of the tests. The course was sponsored by the Women's Physical Education Department.
