According to the revised policy, the salaries of elected officials are too high. An official might compromise his position to increase his salary or his influence, which could lead to serious inflexibility and damage to the tenured faculty system, and the university would not be able to avoid it at all possible.

The revised policy, in agreement with the tenured faculty's requirements, has been designed to strengthen an excellent faculty at Alfred University.
Foreign Medical Schools Last Hope

(College Press Service by Paul Fere)—Each year at Indiana University the Department of Foreign Medicine, 800 to 1,000 freshmen are pre-med as a major. By their senior year 3 out of 10 are accepted.

Nationwide 40,000 students will apply for up to 4,000 openings in American medical schools. While students with less than a 3.0 average have little chance of acceptance, as many as 15 percent of those with over a 3.5 average may be turned down by their own national accrediting organizations of their choice.

Because the many language and cultural problems seem insurmountable, a foreign student has been the victim recently of a new system of entrepreneurs who promise students intensive language study, orientation and a "placement" in a medical school.

The Journal of Medical Education warns that "while most of the 'arrangements' appear on the surface to be helpful, the catch is in the size of the fee levied by the entrepreneurs," which range from $400 to several thousand dollars.

AFTER GRADUATION

Once a student earns a degree at a foreign school he may apply for certification by the Council for Foreign Graduate Degrees (BCFMG) before taking residencies in the U.S. or even take an internship in a foreign field. In this case the time given will be at the student's earning and expenses.

Recently, however, that test has come under fire by a task force of the American Medical Colleges as being too easy. The AAMC task force charged that the present system for accepting foreign medical graduates into the U.S. and even taking an internship in a foreign field is "weak" and that the time given be two-yearly throughout the world and there is no way for a foreign physician to be permitted to take residency in the United States.

He is better off considering a second language. How much do you know about water? Do you know who pollutes the water or what is being done about it? If these questions are of interest to you, then it could be of benefit to you to attend the Allegheny County Water Workshop. This event is sponsored by the Environmental Studies Program at A.U. and the Environmental Resource Center at Genesee State University with the support of the United States Environmental Protection Agency. It will be conducted by Health Forum of the Environmental Resource Center. It will be held on October 8 from 3:00 to 7:30 P.M. in Room 34, Myers Hall. All Environmental Studies majors and minors are invited. There will be a dinner for all at the Workshop's conclusion. Your participation will help to increase the effectiveness of citizen participation in cleaning up national waters.

The Afro-American Awareness Society will hold its meetings for the year 1974 edition of the World Health Organization's Publications Department will be available for $4 from the

STUDY ABROAD IN SCANDINAVIA

Scandinavian Seminar is now accepting applications for its study abroad program in Denmark, Finland, Norway, and Sweden for the academic year 1975-76. This living-and-learning program is designed for college students, graduates and other adults who wish to explore another culture while acquiring a second language.

In an initial 3-week language course, followed by a family stay, will give the student opportunity to practice the language on a daily basis and with the local community. For the major part of the year he is separated from his fellow American students, living and studying among Scandinavians in the People's College (residential school for continued adult education) or some other specialized institution.

All Seminar students participate in orientation week and Midyear and Final Sessions related to their studies experience. Individual progress is reviewed. The focus of the Scandinavian Seminar program is an Independent Study project in the student's own field of interest. An increasing number of American colleges and universities are giving full or partial credit for the Seminar year. Tuition, housing, cafeteria and language courses will be held.

For further information please write to SCANDINAVIAN SEMINAR, 500 East 85th Street, New York, N.Y. 10028.

foreign medical school advisors is that unless a student is extremely dedicated and willing to endure substantial red tape and language problems, he is better off considering another occupation.

Droppers Clarifies Noteworthy Points

Dear Editor:
Some points of clarification can be made in reference to "Alfred divides: The pro and con of the new system." Fall Lux, 9/26/74, p. 3.
In the third from last paragraph, "number of classes" may be translated number of courses, then I am teaching fewer classes. (Two full courses per term, rather than three.) The resulting "released time" is to facilitate administration of the division. (Other chairman need more "released time" because of division size. Thus part of the superfluous time, combinable to form divisions, more available teaching time, is defeated.

The number of faculty in Human Studies is presently eleven (including faculty on leaves and replacements), not fifteen. My point was a division of more than about fifteen is complex to administer and stands the danger of splitting. The resulting "released time" because of division size. Thus part of the superfluous time, combinable to form divisions, more available teaching time, is defeated.

The number of faculty in Human Studies is presently eleven (including faculty on leaves and replacements), not fifteen. My point was a division of more than about fifteen is complex to administer and stands the danger of splitting. The resulting "released time" because of division size. Thus part of the superfluous time, combinable to form divisions, more available teaching time, is defeated.

Secret intelligence reports warn, however, that the Turks will retaliate against Greek guerrilla activity with ground or air attacks on Greek positions. The intelligence reports, whose information is based on Tunisian reporting. Jews, Greeks, and the Turks are veteran intelligence reports warn that President Ford recently when he turned the tables on President Nixon, asked federal employes to do without a pay hike to fight inflation. He has said that President Ford's days were numbered by the end of July, when he became President he's the player at the University of Michigan. People who love people don't encourage the people they love to smoke.
Perpetual Motion Comes to A.U. Stage

Students Begin New Drama Group

Fresh Flavor Proves to Be Tasty

Alfred audiences witnessed a new experience in campus concerts last Friday night. Sept. 27. Through the courtesy of the Black Awareness Society, a four-piece group called Fresh Flavor performed in the Harder Hall auditorium.

Originally from New York City, the band featured an apt bass guitarist, two impressive male voices, baritone and bass, and a talented female vocalist who also played electric piano.

Prior to their A.U. appearance, Fresh Flavor had just completed a tour of the West Coast and Hawaii, and in the past had made extensive tours through Europe. Now the group is anticipating a trip to Africa within the next five months.

The attendance at Friday's Concert was small but the crowd was fairly receptive, clapping along to many of the selections. Although Fresh Flavor was definitely talented, they had a tendency to be a trifle repetitious. However, they seemed to realize that the audience might tire of too much of a good thing and did not prolong their set.

All in all, it was a refreshing program, heightened by the unusual atmosphere of the auditorium. The Black Awareness Society plans to sponsor more events in the future which hopefully will be equally as enjoyable.

Student Tickets for additional meetings will be posted. We need your support!! Dig it!

D.I.G.I.T., the new drama organization, is now offering two full length plays this semester—Paul Sill's Story Theatre and Neil Simon's The Last of the Red Hot Lovers.

The four roles in Story Theatre have been scheduled for November 2, 3 and November 9, 10 and 11, respectively. Story Theatre, in essence, is a collection of Aesop's fables and Grimm's fairy tales to which Paul Sill has added a contemporary touch. Try to imagine "Henny Penny" as a social comment on Viet Nam or "The Little Peasant" as Monty Hall. The result of Paul Sill's genius is a witty, fast moving anthology of vignettes which are sure to please all.

Barney Cashman is the subject of Neil Simon's comedy, The Last of the Red Hot Lovers. Barney is 47, married, and is described by many as being a "gentle, sober soul with a true-blue wife of 23 years and absolutely no experience in adultery."

Well, Barney decided that the sexual revolution has passed him by long enough. He, after all, is entitled to his share of the free love that is being handed out, too. The result is a three act play in which Barney has three sexual encounters with three entirely different women. Alfred students, this one you won't want to miss!

The four roles in Last of the Red Hot Lovers and the eight roles in Story Theatre have been cast and we are pleased to see all the new faces—along with the drama majors, we have acquired art majors, English majors, a number of freshman and one dedicated football player. Our thanks to everyone who came out for the shows—please stay tuned for auditions to be held throughout the semester for student directed activities.

General meetings for D are the first Thursday of every month in the Performing Arts Annex at 6:30 p.m. and all directors' additional meetings will be posted. We need your support!! Dig it!
It’s not drugs. It’s not suicide. And it’s not cancer. It’s automobile crashes. More American people between the ages of 15 and 25 die in automobile crashes than in any other way.

At least half of those deaths are alcohol related. And the drunk drivers who cause most of them are under 25. Sometimes, many times, they kill themselves.

One of the most dangerous things you can do is get drunk and drive home. You can change it. You have to.

You march against war. You fight for clean air and clean water. You eat natural foods. You practice yoga. You are so much for life. And you are so much against killing.

It would be unthinkable for you to wittingly kill another human being.

So then, why is this happening?

STOP DRIVING DRUNK. STOP KILLING EACH OTHER.
A Second Guesser's Delight

Football games like last Saturday's are a second guesser's delight. Alfred finally scored with under three minutes remaining in the game to cut the Albany State lead to 7-0. Coach Oberfell decided to go for two point conversion instead of settling for a tie. The pass attempt was failed and the armchair coaches and quarterbacks repented with a cheer of "what ifx" and "I would've...".

In the driving rain Alfred fumbled the opening kickoff. Albany recovered it on the Alfred 29. On the first play from scrimmage Albany quarterback Dave Ahonen hit Bob Baxter in the end zone. This was the only pass Albany would complete the entire game. The extra point was successful. The score remained 7-0 until midway through the first quarter.

Alfred had several good chances to get on the scoreboard earlier than they did. Twice during the first quarter Alfred got the ball in the Albany thirty. Once the Saxons gave up the ball on downs or the Great Dane (seriously) 22. Six plays later Albany intercepted a Kristoff pass in the end zone. Early in the fourth quarter Alfred moved the ball to the Albany 30, however they fumbled and the drive was cut short.

Both team's passing attacks were nominal. The adverse weather limited the game's total passing yardage to 45 yards. twenty-nine of which came when Albany scored.

Chris Kratoff completed only three of twelve pass attempts. He has three pass intercepts.

The Saxons ground attack supplied almost all of their offense. Chuck Stanley gained 76 yards and Doug Earle had 67 yards. Jay Ewanich supplied some punch too as he faked two kicks and ran for first downs.

Alfred scored in the fourth period after recovering a fumble on the Albany six yard line. On fourth down the Saxons scored when Kristoff passed to Gregg Thomas in the end zone. With 6:37 left Alfred went for the two point conversion and failed.

Alfred plays R.I. and Saint Lawrence on the road before returning home for Homecoming on October 19 against Hobart.

Saxons Stung by Yellow Jackets

Coach Oberfell's soccer team is still looking for its first victory of the season. The Saxons were swamped 5-0 by the University of Rochester nine days ago. Last Saturday R.P.I. beat Alfred 3-2 at Troy. The U. of R. game was decided with only six and a half minutes gone. Reed Martin scored his first of two goals in the afternoon for Rochester on a penalty kick. The Yellowjackets scored twice again before the end of the half. The degree to which U. of R. outplayed Alfred was indicated by their outshooting Alfred 29-14 throughout the contest. Rochester improved their record to 3-0 by defeating Alfred.

R.P.I. dissolved Alfred's hopes of a first victory by coming back from a one goal deficit to win 3-2. Goals by Brain Partika and Gen Cousins (his third of the season) gave the Saxons the lead momentarily during the first half. However, the successful conversions of two penalty kicks by R.P.I. spelled doom for the Saxons for the fifth time this season. Goalie Andre Tremblay made fifteen saves, as the Saxons put together their best defensive effort of the season allowing only three goals.

DOUBLE CROSS-UP

By Lara W. Rodström

Consider the clues from all angles, they may hold a clue to the identity of the word wanted, or an antonym of the word itself. A clue may be a synonym, a homonym, or a caterpillar (similar) as well as a cryptic representation of the word. Certain words may stand for letters, in short, any word may represent any word. A word could also be a word which is a synonym, opposite, antonym, etc. Also, a clue for a word may be a clue for a word.

Write the letters over the numbered dashes and then transfer each letter to the corresponding numbered square in the diagram. Black squares indicate where letters are. The completed diagram should read from left to right. The first letter of the answered words will give you the author's name and title of the work from which the quota came.
