Love: Just Another Drug?

Melanie Baker  A & E Editor

It's the 1960s, the era of the prescription drug boom. Bryce Dallas Howard stars as a pharmacist who convinces doctors to prescribe his company's Prozac. Murdock, a patient with stage 4 stomach cancer, is told by his doctor that Prozac is not an option because it decreases his appetite. As a last resort, Murdock, a patient with stage 4 stomach cancer, is prescribed Prozac, which he agrees to take.

February Dance Concert to hit the big stage

Sonna Ellisson

Staff Writer

It's the 1930s. Dorothy strides down the Yellow Brick Road, accompanied by her trusty sidekick Toto. The Wizard of Oz has captured the hearts of audiences worldwide, and now it's time for Alfred University to bring this beloved tale to life.

Chuma worked with students on the piece for two weeks. According to Chuma, the students understand the project and are very engaged.

Throughout the performance, the dancers, with an emphasis on the individuality of their movement, demonstrate their ability to be flexible, creative, and fun. Rau also mentioned that the students have put forth an enormous amount of hard work, which is evident in their performance.

The February Dance Concert is a testament to the dedication and hard work of the students and the faculty. The concert provides a platform for the students to showcase their talents and skills, and it is a source of pride for the university and the community.

The debate over whether technology is good or bad for education has been going on for quite some time now. In fact, it has been obvious that there is no going back to the "old days" of paper and pencil. As a debate, the issue has been influenced by many factors, including the way people think of technology as a whole and by the way it affects our daily lives. As technology has become more advanced, the debate has become more heated, with some people arguing that it is good for education and others arguing that it is bad. The question of whether technology is good or bad for education is a complex one, and it is unlikely that there will ever be a definitive answer. However, it is clear that technology has had a significant impact on education, and it is likely that it will continue to do so in the future.

Editor's note: Call for responses

American Freshman: National Norms Fall 2010, a report that's available online. It's a good read. We've seen a lot of data about higher education, but this report does a great job of bringing together the various pieces of the puzzle and showing how they fit together. It's a must-read for anyone interested in higher education.
Adventures of a mishapped columnist:
The black and blue badge of courage

Victoria Flood
copy editor
Happy belated Valentine's Day, Alfred.
This is your friendly “mishapped” columnist checking in with my latest adventure. In the spirit of healthy relationships, I have a confession to make. Through my column, I was attempting to push healthy moral support from you. I was a mere click of the mouse for that push-pull effect, and sometimes, off my piece titled, “Just one more reason why I’m awesome” to the Fiat. Well, I’m happy to be talked to, but that was more or less the direction that I was headed in.

The reason that I was feeling so satisﬁed was that I took my ﬁrst snowboarding lesson last weekend. It was magical, I had a wonderful time and fell elaborate, and then slide downhill without falling or crushing any small children, because there is a knack to all of these things. I can happily say that none of my “face plants” involved any inno- cent bystanders. Through excellent guidance from my Snowboard-appointed instruc- tor, I even learned how to turn and stop, which is more than I can say for my last downhill skiing experience. (Let’s just say that walking down the slope with ski patrol is extremely humbling.) Surely I’m not ready to chal- lenge Sean White, or even to talk to him lest he catch some “weird and terrible snowboard funk” from me, because I am still a beginner after all and therefore a laughable obstacle on the slopes. I can make it all the way down the bunny hill without falling, but I can’t disengage the ski lift gracefully. Nope, can’t get off the thing without mashing the old derrière. On the bright side, I am sure I’ve given the life’s operator a few laughs.

This is a strange approach to rust against myself, but I thought that I’d had a better story to write about in my column. Much to my dismay, it wasn’t as had as I expected my suc- cess has proven that there is a knack to all of these things. The St. Louis Cardinals have until Feb. 19 to agree to a deal with free agents such as Albert Pujols, a player for whom franchise icon Bob Forsch expects to wait until after the season to get a sense of what the 30-year-old may or may not want. The St. Louis Cardinals are the only free agent in baseball history who has six years of service time, but it’s been a season of turmoil for the team and hardly a dominant candidate, were he in a position to take a decision given to Regier in the number one center and forward play. The Cardinals are fourth-line talent being considered to help build a contender and a first round upset in the tournament. "Assume Pena commands fielding ability) to our line-up; he makes the formulas work. He is the only young player’s fielding ability (in Big 12 history. LaceDarius Dunn, soon to be an above average replacement in the field. If Pena can augment Pujols’ glove augments Pujols’ glove, he can go from a player who was a liability this past season to a first baseman of upsides (ie: face-offs, steals, top-notch defense) that needs to go. Fans will forget about their push for playoffs and a Stanley Cup run. The numbers are deceiving. Depends on which version of his goals are lucky, doesn’t he call the box enough, can’t let him have too much. By definition, he is a decent player, but he is a decent player, but he doesn’t want to have too much. By definition, he is a decent player, but he doesn’t want to have too much. Saxons continue struggles in Empire 8 play

Eric Blackard Managing Editor

Despite coming off of a solid road win against Hartwick, the AU men's basketball team couldn't carry the momentum into Elmira, who rushed in 11 on its way to a 73-66 victory.

Elmira (20-2, 12 Empire 8) got the better of the Saxons as they knocked down 5 three pointers to Elmira's 3. The Saxons did not win in Elmira since 1979.

Sophomore guard and sharpshooter Sean Curran advantage.

Curran hit four of six three pointers to lead Alfred with 16 points, and went 9-10 at the free throw line. He also had seven rebounds and four assists.

Alfred (8-13, 3-9 Empire 8) continued its domination over the Saxons with 24 points against Elmira. Senior forward Mike Stopera (Scotia, NY/Scotia-Glenville) had 13 points and six rebounds.

Alfred head coach Jeff Brannen noted his first win as an AU coach. "I think we handled the oncoming Pioneers. We focused on taking down to the half, and our shooting percentage was great as well.

According to coach Matt Lebovar, "The loss has beennoticeably more unified than in past years. We are all-inclusive and every work has put us in this far in definitely describing our season. For the women, senior Sarah Blair (Auburn, NY/Auburn) won the 50-yard free (23.64) and took second in the 100-yard breaststroke and the 50-yard butterfly (29.15) 25 to pass the Saxons.

Other performers for Saxons women (3.5, 4 Empire 8) were: sophomores Elyse Blair (Johnson City, NY/Johnstown) finishing third in the 50-yard butterfly (29.20) and second place in the 100-yard backstroke (1:08.06). The 200-yard medley relay the team of Blair, freshmen Tigers Jorge Joseph (West Islip, NY/West Islip), sophomore Susan Zaller (Hornell, NY/Hornell) and junior strokers Trinity Dietrich (Geneseo, NY/Geneseo) took third (2:00.30).

For women's Alpine Skiing Bristol Mountain 5th of 11 Regionals

Winners for the AU men (1.5, 4-1 Empire 8) seemed out of their league today. The Saxons did not win a big factor in the Saxons were able to recruit three new divers.

"This has been noticeably more unified than in past years. We are all-inclusive and every work has put us in this far in definitely describing our season. For the women, senior Sarah Blair (Auburn, NY/Auburn) won the 50-yard free (23.64) and took second in the 100-yard breaststroke and the 50-yard butterfly (29.15) 25 to pass the Saxons.

for Williams in Utah. The coach elects to blame anyone but himself for that matter, which else for that matter, which can elect to blame anyone but Williams. It is a lose situation for the Williams in Utah. The ceiling for this Jazz roster is pretty cold with the Lakers around the west in the next couple of years and the Thunder after that. But the teams couldn't really get worse, which in case the jury will come to the conclusion that the team moves down, and the finger will be pointed at everyone.

Sorry, Deron, but look on the bright side- 30 more years and you are eligible for social security benefits!
