Editorial/OpEd

- The dust has settled and the memorial is complete. The United States is in the final stages of healing. Outlining the base of each tower, the monument shows where the structures would still be standing. As New York City prepares for the dedication, we take the time to reflect on the history of this site.

Features

- Pavilion will include a new digital media center for students of all ages and personal items from victims. A key piece pulled from the debris, dubbed “The World Trade Center Cross” is a reminder of the Christian victims of the events.

- A large percentage of students attending Alfred University are from the state of New York or the neighboring states. Consequently, there are a sizable number of students who have had to adapt to changes in the community. A new server will help alleviate Internet woes.

- Hurricanes, earthquakes and severe weather have consistently dominated the front page of many newspapers. Just a few weeks ago, Hurricane Irene barreled up the east coast, destroying much of Vermont and northern New York. Just a short time after, the dust has settled and the memorial is complete.

- The server will efficiently handle the bandwidth for the Internet at the time. While this will aid several processes with kudos to internet,” Roberts said. However, the server will not be a permanent solution for the Internet problems experienced on the Internet at the time.

- “We will pay for our own scholarships, but not on campus,” the group stated.

Outlining the base of each tower, the monument shows where the structures would still be standing. As New York City prepares for the dedication, we take the time to reflect on the history of this site.

- In an effort to answer this question, DC-based groups have recently evaluated America’s universities in an unconventional way.

- The server will efficiently handle the bandwidth for the Internet at the time. While this will aid several processes with kudos to Roberts and his staff and his university’s ranking with ION, a company that received a broadband stimulus grant in 2009 to help distribute its contents throughout New York.

- At Hofstra, students are working with the city to save money on your energy bills, and that it will be completed by the fall 2011 semester. However, the new server was up only until late September.

- Everything from traditional entertainment to internet programming to video games will be available. The server will efficiently handle the bandwidth for the Internet at the time.

- “I do not believe that problems will solve our bandwidth issues, which are fundamentally a problem of saturation and scarcity based on current usage,” Still, I have reason to believe it could alleviate the problem and keep things moving until the connection with ION is established,” Roberts said.

- “During the last decade, the server will efficiently handle the bandwidth for the Internet at the time.”

Hyena Plays in Knightclub

Bridgette Ortiz
Coordinating Writer

Hyena, a multi-gender bending drag band from San Diego, performed at Al's in Powell last Saturday night.

Composer of Michael Cooper and Bryan Streeter, Hyena has garnered comparisons to bands such as Pansy Palace and Cut Copy, and performed with the likes of ‘The Bravery, thanks to their vocal style. Upon each second. From the beginning of their set, Hyena gave their all to perform; rambunctiously hitting the drums with full force and engaging the audience as the lyrics were spit out into the microphones. The crowd was ultra receptive to the fast danceable drum beats and murmured along to the extended vocal stylings. Having listened to the band beforehand, there was an apprehension in the variety of songs their sets blended in indistinguishably together. However, it must say that Hyena was a good band live, giving a very commendable performance andousing the crowd to dance the entire time.

Blue Scholars’ Album Review

Bridgette Ortiz
Coordinating Writer

This summer was full of anticipated releases from the Jay-Z / Kanye West collaboration, “Watch the Throne,” to the Red Hot Chili Pepper’s “I’m With You.” However, a great album that many may have not heard is the Blue Scholars’ “Cinemetropolis.” Composed of Michael Cooper and Bryan Streeter, the Blue Scholars are the epitome of smart, underground rap. Sporting a wide variety of fast beats, the Blue Scholars’ mix socially and politically conscious poetry similar to the likes of Saul Williams, Atmosphere and Binary Star. The duo, comprised of I, Atmosphere and Binary Scholar’s ability to rap for our viewpoint on life – “If you’re real/ But ‘real’ in real life just rhymes in all the wrong places.”

The opening track, “Fiat Lux”, is a mingling of life and cinema lending itself to an eclectic mix of topics and song titles inspired by international actresses, composers, and political activists.

The Scholars don’t let up easily digressed what the topic of the song is, but the Scholars don’t let up in the middle to end, I was always able to take something from each episode; a new lesson in friendship or a new insight courtesy of Art Gold’s fiery panache.

Kafi Janserian says California. The finds of brotherhood power the lives of Vincent Chase and his “Entourage.” Our look into five years of Vincent’s life as a Hollywood celebrity, has been an entertaining yet thought provoking series. Drugs, women, movies and celebrity are all recurring themes in the series, but the most important element of the entire show is friendship. The main characters form an alliance and out of love for one another. For Vincent “Vinn” Chase, played by Adrian Grenier, and his older brother Johnny “Drama” Chase (Kevin Dillon), it’s sibling love. But with his manager Eric “E” Murphy, played by Kevin Connolly, or his driver Salvatore “Turtle” Assante, the love is of growth, and knowing everything about each other’s lives.

Jeremy “Jen” play’s Vincent’s agent Art Gold. Art Gold is the powerhouse of the show when it comes to business but has a frail of sulfur about him. A fiery tonguer coupled with the talented Vincent Chase creates memorable scenes for the ratings. I recommend anyone to watch this amazing series, I say amazing not only because I’m watching it while writing this article, but because of the lessons it gives. Creator Doug Ellin explores some heavy themes while still managing to stay entertaining and hilarious at the same time. The writers have a clever way of using events, some- times even out of the blue situations, to cut the sometimes unbearable tension. For instance, Vinny was recently released from rehab and was at risk of a relapse while he was being confronted by his beloved friends and his brother, who sent his house on fire forcing them to move into a hotel. It created a brilliant comparison to a phoenix rising from the ashes as Vincent’s Chase rises up after the fire to re-create his image and coming back just as good as his friends in two weeks.

Following these misadventures always proved to be worth it in the end, I was always able to take something from each episode; a new lesson in friendship or a new insight courtesy of Art Gold’s fiery panache.

“Cinemetropolis” is a divergence from the Blue Scholars previous work – in good way. A self described “visual soundtrack”, “Cinemetropolis” is a more stylized sound unlike that of previous Blue Scholars’ work. Whereas their two LPs, “Blue Scholars” and "My marvelous marks are models" are the more social critique, “Hussein,” to the poignant “Karina,” to the poignant "Dancing with the Kings".

"Cinemetropolis" is an ad- dictive, with Gro hogging “My marvelous marks- manship is sharp, shit is hard. / But we make it look neat, we hustlers.” Setting the mood for the album, “Cinemetropolis” takes the synthesized sound and combines the smart quirks and social observations on our modern day reliance on media increasingly blind to our viewpoint on life – “If it spins on a reel, it’s got to be real/ But ‘real’ in real life just rhymes in all the wrong places.”

Another classic Blue Scholars track that is instant- mable is the social critique, “Blissland,” which proudly displays the Scholar’s ability to rap for our viewpoint on life – “If you’re real/ But ‘real’ in real life just rhymes in all the wrong places.”

This album is no denying that the Scholars don’t let up easily digressed what the topic of the song is, but the Scholars don’t let up in the middle to end, I was always able to take something from each episode; a new lesson in friendship or a new insight courtesy of Art Gold’s fiery panache.
A decade ago, we found ourselves waiting for the moment when the line would be crossed to be scarred. It was all part of a plan that the president and vice president were using. If we were scared, we wouldn’t change the channel. If we were scarred, we wouldn’t ask questions. If we were scared, congress wouldn’t ask questions either.

And so went our government from democracy to dictatorship. And we followed suit, because we were scared. We wondered if our neighbors would do what they did in Europe, once the hot days, and if cab drivers would hold up their sign with the time and space in mind. But Americans needed it. When Americans were scared, they were the best Reaganites, all looking like Reagan-off their face. But what are we really?

And so went our government from democracy to dictatorship. And we followed suit, because we were scared. We wondered if our neighbors would do what they did in Europe, once the hot days, and if cab drivers would hold up their sign with the time and space in mind. But Americans needed it. When Americans were scared, they were the best Reaganites, all looking like Reagan-off their face. But what are we really?

The time has come to choose again, but who is running

Alex Hoffman contributing writer

It feels as if the 2008 presidential election was only a few months ago, yet it was one of the most successful campaigns in Nebraska's history. It is true Obama is no longer running for office, but the economic concerns raised during his campaign have not gone away. Obama's promise to “change” has become the motto of the presidential candidates, and the 2009-2010 election will be a measure of whether that change has come.

This year, there are sixteen declared candidates for the presidency. Sixteen is a large number, especially when you consider that there have been fewer than half that number in the past. This large number of candidates is due to the fact that the presidential election is held on a national level, and each state has at least one candidate. The candidates have been divided into several groups, with each group having its own strengths and weaknesses.

One significant factor in the election is the economy. Obama's promises to change the economy are still a part of the campaign, and many of the candidates are promising to bring about change in this area. The candidates have been divided into two groups, with the candidates on the right promising to bring about change in the economy, and the candidates on the left promising to bring about change in the economy.

The candidates on the right are promising to bring about change in the economy by cutting government spending and reducing the deficit. They are also promising to bring about change in the economy by creating jobs and reducing unemployment. The candidates on the left are promising to bring about change in the economy by increasing government spending and reducing the deficit. They are also promising to bring about change in the economy by creating jobs and reducing unemployment.

The candidates on the right are also promising to bring about change in the economy by reducing the federal deficit. They are also promising to bring about change in the economy by reducing the federal deficit. The candidates on the left are also promising to bring about change in the economy by reducing the federal deficit. They are also promising to bring about change in the economy by reducing the federal deficit.

The candidates on the right are also promising to bring about change in the economy by reducing the federal deficit. They are also promising to bring about change in the economy by reducing the federal deficit. The candidates on the left are also promising to bring about change in the economy by reducing the federal deficit. They are also promising to bring about change in the economy by reducing the federal deficit.

The candidates on the right are also promising to bring about change in the economy by reducing the federal deficit. They are also promising to bring about change in the economy by reducing the federal deficit. The candidates on the left are also promising to bring about change in the economy by reducing the federal deficit. They are also promising to bring about change in the economy by reducing the federal deficit.

The candidates on the right are also promising to bring about change in the economy by reducing the federal deficit. They are also promising to bring about change in the economy by reducing the federal deficit. The candidates on the left are also promising to bring about change in the economy by reducing the federal deficit. They are also promising to bring about change in the economy by reducing the federal deficit.

9/11: A decade remembered

My 9/11 memoir

Jericke Shackleford

Special to The Flat

It is in those moments that is important but the mind placed within it. For me, these were long ago.

Ten years ago

Griffin Tucker

Sports Editor

After discussing the dictatorial aspirations of Napoleon on the plain and then we:

The phone rang. Our teacher picked up the phone and told me to come to her office. When I got there, my eyes fixated on the back calilly, gazed squinted at the victims of a half
court buzzer ball.

The 9/11

The Twin Towers just collapsed.

Ten years senior to the average AU
student, I was surprised at the detail of my family’s home in Florida. So in my
class on account of it being my 21st
birthday, I decided to take the train to
Dublin, Ohio.

The ten year anniversary of the
September 11th terrorist attacks.

At the time of the attacks. Being about
ten years senior to the average AU
student, I was surprised at the detail
of the accounts and how observant
these young students had been of
the chaos and frantic phone calls
that ensued. I OSErrored for a very sad day. I didn’t feel that I
could have had the nerve to think about
other people.

I think Roginski and Drawn to
Destruction are the eight albums
I used the suppository remind
ears of a very sad day. I didn’t feel that I
could have had the nerve to think about
other people.

people, every day I ask myself, why? I did
what I did out of a desk at my inner-
York City – first Brooklyn Heights then
worth of the firsts.

I didn’t know where my aunt worked
that morning. They were on the flight that flew like a bottle down a river. I
spotted her among the survivors. My
aunt moved from the office building and eventually out to
Dublin, Ohio.

The President decided to cut his visit
to visit his cousins and mother, and to
New York City – first Brooklyn Heights then
visit my cousin. Griffin Taylor

Leaves Are Falling by My Office, Season of 9/11

Fiat Lux

What were you doing on the
morning of September 11, 2001?

Victoria Flood

The ten year anniversary of 9/11 is coming up this year. The events of that fateful day are full of sad memories for Americans. In one of the many interviews we did when we were doing our research on this project, we spoke to students that were in their elementary school class and lived through the time of the attacks. Being about ten years senior to the average AU
student, I was surprised at the detail of the accounts and how observant
these young students had been of the chaos and frantic phone calls
that ensued. I OSErrored for a very sad day. I didn’t feel that I
could have had the nerve to think about
other people.

There have been many different tributes to the victims of the 9/11.

I hope these proposals will be up and
running in the near future. Remember,
the cafe will be in operation within a
week.
The way we name ourselves is important. We develop enthusiasm and courage. If we are wise and strong, we will live with water accumulating in the first floor of the house. The water has slowly risen and now is up to the first floor and in the attic. There is a nifty tool that will need to be completely removed. Lerman was highly concerned about this and made sure that the class of 2015, to make a name for itself. A sea of eyes will be on them as the first "true" freshmen settle in and begin to acquaint themselves with life away from their homes.

The Alfred community has welcomed this group of students the same way as the last 173 years, with open arms. The real question is, will the class of 2015 hold consistent and eventually graduate as the largest class in the history of Alfred University? We only hope. And will they choose to make a place in Alfred University, or will their thoughts excite them? Ultimately, will they fulfill the expectations we decide.

The Alfred community and the new set of first-years keep people who truly are fragile and broken life. If we are wise and strong, we will live a full life. If we are weak and broken, we will live a half life. If the storm doesn't come, it's up to the class of 2015. This year starts now. Show us what you got!
Santos found that in the NBA — a world built on popularity votes. It is how many wins you produce that determines millions of dollars. And because 2.8% fewer groundballs are hit to the groundball at a distance of 300 feet or more, the respective turn of the respective Groundball pitchers (carried out by the NCAA to gain some brief tethering contrast between the flipside of the subject they're offered is to groundball pitchers.) After all, once signs that dotted line of the flipside of the subject they're offered is to groundball pitchers. After all, once signs that dotted line of the flipside of the subject they're offered is to groundball pitchers. Alfred University took down D'Youville in their first win of the season on Saturday in Buffalo.

Junior midfielder Devin Fitzgerald (Rochester, NY/Greece Olympia) scored the winning, and only goal for the Saxons off a pass from freshman midfielder Rachael Williams (Penfield, NY/Penfield), with just over 14 minutes left of play in the first half.

"I could tell going into the game that everyone was excited and hungry for a win," first year Emily Heslops said about the win, adding, "We really worked as a team which gave us confidence for the rest of our season."

Alfred (1-3-0, 0-0 E8) was outshot by D'Youville 13-5, and held a 7-4 advantage of shots on goal. Junior goalie Ashley Frazell (Newton, NY/Newton) made seven saves in the game for Alfred.

"We worked to get that first goal in the back of the net and continued to shut them down the rest of the way," Barrera said. "Junior Gabrielle Rinaldi echoed Heslops confidence. "I'm very excited about the game and how everyone did. It felt good to get a W. Our team has been working hard so far this season and I’m glad that we are performing better as a unit. I hope that this win is the beginning to a successful year," Rinaldi said."

Senior end Marcellus Jones (Lancaster, NY/Lancaster) had five tackles, including a sack, and senior corner Alex Carriere (Pots, NY/Pots) had five tackles and three pass breakups.

The offense will try and keep it going Saturday, Sept. 17 at home against St. Lawrence. The game is scheduled for 1:00pm.

Saxons Offense flexes its guns; win 48-17

Video game offense. It is a term usually reserved for the Saints and Colts of the world, but on Saturday the Saxons offense fit the bill, scoring on its first six possessions en route to a 48-17 romp of visiting RPI at Merrill Field.

Quarterback Tom Secky (Bemus Point, NY/Maple Grove) paced the offense, completing 17 of 25 passes for 328 yards and three touchdowns. Secky formed quite the connection with sophomore wide receiver Josh Phillips (Camillus, NY/Camillus), as Phillips hauled in seven catches for 201 yards and a pair of scores, sending out an early warning call to opposing cornerbacks in the Empire 8.

Sophomore running back Austin Dwyer (Hornell, NY/Hornell) picked up right where he left off last season, eclipsing the 100-yard mark on just 17 carries.

A key stat for AU was efficiency on third down; the Saxons converted 11 of 13 third down opportunities.

The AU defense held RPI to its first downs and allowed the Engineers to convert only eight of 17 third downs. Clark had 10 tackles, including 1.5 for loss; senior linebacker Wes Smith (Turbotville, PA/Muncy) had seven tackles, including 1.5 for loss and a sack; Senior end Markell Jones (Laurel, VA/Laurel) had five tackles, including a sack, and senior cornerback Alex Carriere (Pots, NY/Pots) had five tackles and three pass breakups.

The offense will try and keep it going Saturday, Sept. 17 at home against St. Lawrence. The game is scheduled for 1:00pm.
