The rise of intolerance

The United States at periodic intervals is subjected to the intolerant propaganda of so-called patriots who would make America "for whites only" and exclude all but a minority of our citizenry. Our 162 years of history are spotted by the activities of these organizations—the Know-Nothings of the 1850's, the Anti-Papists of the 1890's, the Ku Klux Klan of the Reconstruction and Post-World War era, and within our recent memory, the Silver Shirts and the Black Legion.

The Cyclops of intolerance has raised its ugly head again today—this time against the most oppressed race in history, the Jews. Fritz Kuhn, leader of the German-American Bund, has proclaimed a campaign to rid the nation of Jews. Father Coughlin, demagogue and byword for intolerance, has supported this idea.

There is a notable absence on the campus this year of any outlet for student expression, an organized bullhorn where one may, if he so desires, talk, argue, discuss, debate, and even yell at, and with each other. Student unions have not reached the stage of alert working minds. They should be an integral part of our education. The regular college curricula cannot possibly hope to expose the average American man to all sides of the American problem, or at least to the just side of the man which should at least be able to discern intelligently.

Thus it pleased us of the I.N.A. artistically, at least, it should also be recreation, must come through some extra-curricular activity. The venture should be in the form of an organized, yet informal, forum open to all Alfred students and Faculty. With Sunday afternoon at the Social Hall might be the time and place. We hope we've started the ball rolling. The success or failure of the plans depend on the support of the student body.

What do you think of the idea? Drop a line to the Fiat and let us know what you think—R.Z.E.

Floggies plan reunion, will paint toasts

Delta Sig, Theta Nu hold dances for newest pledges

By Ruth Davis

Delta Sigma Phi and Theta Nu became rejuvenated Friday evening at a little kids' party for all the pledges "kids" and their daters at the chapter houses. Multi-colored streamers and flags adorned the walls, and the committee, under the guidance of E. Lobaugh, president, made sure that all of the pledges had enough to eat and drink. The pledges held a dance at the chapter house with music provided by their own radio and some kindly kids' games and dancing. The food was provided by the home-makers committee.

Sherwood's new "Lincoln" wins critics' praise

By Ruth Greene

Sherwood Anderson's "Lincoln," a biographical drama of the 16th President, has opened on the big screen. The movie, which is based on a novel by the same author, has received good reviews from both the critics and the public. The film has been praised for its accurate portrayal of Lincoln and his times, and has been hailed as a classic of American literature.

"Lincoln" is directed by John Ford and stars Henry Fonda as the President. The movie, which has been well received by audiences, has been described as a "dramatic rendering of one of the greatest characters in American history."
Barreca, Lennie Dauenhauer, and Bill MacIntosh were among the team-mates imparted to their shots by a rhythm that Ray Manohan and his assistants had deliberately fostered. Perhaps some of the students of Hartwick College handed out copies of the book. It follows:

Some furniture was temporarily loaned the center by the YMCA NYA until shipments of goods arrive.

Mrs. Stahl will be assisted by Miss A. R. Hennessy of Elmina and Miss Mildred Strong, president of the NYA. Girls will be in the basement. Some furniture was temporarily loaned the center by the YMCA NYA until shipments of goods arrive.
