COLL: State of the University

President Edward G. Coll Jr. has pledged to maintain Alfred University's strengthened admissions standards in the face of fiscal pressures confronting the school.

In his first state of the University address, Coll acknowledged that both private and public criticism of education in the United States were growing through a difficult period of financial pressures—no question about it. He went on to say that he did not intend to proceed over a "devaluing or decimating institution," and he added that "we are going to continue to stress quality in students and faculty.

Admissions requirements throughout the country, including at Alfred University, have been increased in the early 1970s as colleges competed vigorously for a swelling supply of students and the tuition income they represent.

In 1975 Alfred University broke step by tightening standards and requiring students admitted for undergraduate study to have a minimum high school average of 90, a 40 percent increase in the college's test scores.

President Coll predicted that billions of dollars eventually would be poured into American colleges and universities. He added, "We will solve our problems by maintaining quality, by not diluting the higher education experience any further than we have to.

By Bob Knowles

President Edward G. Coll, Jr., Alfred, New York

The 1982—83 Bergren Forum season opened on September 8 with Professor William Hall from the Division of Social Sciences' Criminal Justice Department. Hall's topic: 'Dumping Children: Juvenile Injustice in New York State.'

Hall opened his presentation by justifying his topic title of Dumping Children—rather than Placing Children—by explaining that although children are "dumped", they are still "in the system". He raised the question of whether, in the 19th century, we were better able to handle the care of children.

New Counselor Peg Kurtz

By Mary Mastrogiorgio

Kurtz joins Staff

Peg Kurtz is our new counselor in the Career and Counseling Services Offices in Bartlett Hall. From Kalamazoo, Michigan, she has joined Bob Kazis and Chuck Shultz this semester to help out with the large number of students who come in for counseling.

"We are not going to sacrifice quality by lowering our standards," Coll asserted. "We are not going to accept lower standards in our standing.

The President spoke August 24 at a breakfast meeting of faculty, administrators and staff.

President Coll predicted that billions of dollars eventually would be poured into American colleges and universities. He predicted, "We will solve them now.

Coll said Alfred University would redouble its recruitment efforts by reaching farther afield for qualified students. Kazis and Chuck Shultz decided they needed someone to help with the number of students coming in. Kurtz was hired in July.

Kurtz now lives in Alfred with her husband, Roy Steele, who is enrolled in the Master of Fine Arts program in ceramics.

Kurtz believes that students who seek guidance do have self-awareness. Students seem to be seeking role models because they are aware of themselves.

President Coll predicted that billions of dollars eventually would be poured into American colleges and universities. He predicted, "We will solve them now.

Coll declared that Alfred 'has always had problems,' but that they had always been susceptible to solution. And he said: 'We will solve them now.

Letters to the Editor

CUOMO Fights Reaganomics

As you return to school this Fall, some of your friends from last year will not be joining you. They are victims of Reaganomics. Instead of supporting the nuclear freeze most Americans want, Reagan has cut funds for Pell Grants and student loans while pouring money into America's nuclear arsenal. He has denied students equal access to education while cutting taxes for the wealthy. The Administration cries, "We must make America strong again", and then attacks the root our strength — our educational system.

At a time when the President is keeping students out of college, the Governor should be working to keep students in school. No deserving student should be denied access to an education. What can the Governor do? In New York, our state-based system of financial aid must be expanded to make provisions for part-time students, and for those who are financially independent of their parents. In addition, we must re-establish our commitment to a high quality, low cost education at the State and City Universities, as well as maintaining aid to independent institutions (Bundy aid) at existing levels.

In 1980, I joined with students opposing Reaganomics while Democrat embraced the Administration. This year we should renew that effort. Students prove that they can successfully mobilize a political movement toward higher education, legislators will be more likely to pay heed to student concerns in the future. It is my hope that a reinvigorating student activism will continue long after we have reversed the policies of the present administration. After all, while the state has a responsibility to educate its citizens, our recent history shows that politicians have something to learn from students, too.

Student Senate

The Student Senate of Alfred University secures and maintains the rights of the students, promotes leadership and acts as the spokesman for the students when dealing with the Administration. Senators are elected by and represent the population of their living area. Senators have been elected during the past week and begin their term on Tuesday, at the first Student Senate meeting.

The President and Vice-President were elected by the student body at elections held last Spring. Glenn Niles and Dot Sencer hold the positions, respectively. The Secretary, Treasurer, and Publicity director will be elected at the Student Senate meeting tomorrow night. Barre Cantra, the Financial Committee Chairperson was nominated by the Financial Committee and approved by the Senate.

Membership to any of the Senate Committees is open to students, as is attendance to Student Senate meetings. Please attend these meetings as your support is needed and your ideas, valuable. We hope to see you at the first Student Senate meeting, Tuesday, September 14 at 7:00 pm.

The Student Senate

FREE PERSONALS

The Fiat Lux will print FREE PERSONALS beginning in the next issue. Leave your personal, name, address and a phone number where you can be reached. The deadline for the next issue is September 20, 1982. Leave your personals in the FIAT LUX mailbox in the Campus Center.

Air France Provides Youth Fare

The workers of Allegany Helpline (OZ) would like to take this opportunity to familiarize the student body with this service we provide. We are essentially a County-wide referral agency. We also provide 24-hour crisis intervention. Our files are equipped with referrals to deal with many types of problems including: medical, psychological, sexual, drug and alcohol problems. Volunteers are trained students, all calls are CONFIDENTIAL and ANONYMOUS.

If you have a problem or need a referral, give us a call. Our number is 71-2112. Or, drop by — we are located at 6 Sayles Street (four doors down from the Gothic Chapel).

We will be having an Open House for students interested in becoming involved on Sunday, September 19 from 7 to 8 p.m. — All are welcome.

OZ: Provides Student Services

Students considering going to Europe next June can go for about half the regular economy fare by taking advantage of a new fare being introduced by Air France this fall.

The Youth fare, $629 (subject to government approval) roundtrip from New York to Paris, is effective October 1 through June 25, 1983, and is available to young people between the ages of 12 and 22 at time of departure. The student must stay for a minimum of two weeks, but can stay for a maximum of one year. Both outbound and return bookings must be made at the time of reservations and ticketing; however, the return policy may be left open for a $50 additional payment. There is also a $50 surcharge for students departing the U.S. between December 11 and 31.

The special Youth fare is available on all Air France flights departing New York at 7 pm weekdays, and all 9:30 pm departures except Tuesday and Wednesday. Ask for more details from your travel agent or Air France.

SALES EXHIBIT

A major retrospective featuring the work of eighteen ceramic artists in the United States will be on view September 11 through October 2 at the Fosdick-Nelson Gallery in Harder Hall.

Potters include Beth Lipps, Laura Andrea, Shoji Hamada, J. L. Jones, F. Carleton Ball, Margarette Wildehahn and Rudy Autio.

Pottery exhibits are 8:00 a.m. to 4:00 p.m. weekdays, noon to 5:00 p.m. Saturdays. Admission is free.

Auditorium. Nineteen artists will be represented in the show, each by a single example of pottery. They are Gloria Lamon, Laura Andrea, Shoji Hamada, J. L. Jones, F. Carleton Ball, Margarette Wildehahn and Rudy Autio.

Also Peter Voulkos, Robert Sperry, Betty Fawes, Paul Sollner, Dorothy Hearnson, John Takehara, Tony Prieto, Vivka Holled, Herbert Sanders, Robert Fritz, Ken Stevens and Daniel Rhodes.

According to Richard Raves, the gallery director, most if not all of the artists at one time lectured at Alfred University. Rhodes, who has a graduate art degree from Alfred, taught at the institution for three years. His work is held in the permanent collections of a number of major museums including the Brooklyn Museum and the Museum of Contemporary Crafts in New York City.

PA&SS Geared Toward Success

Matt Dubai, coordinator for the Performing Artists and Speakers Series, is looking forward to another successful season of presentations. In addition to the usual variety of speakers and performers, Dubai feels the Alfred audience will enjoy the season.

With four sellouts last year, Dubai urges people to buy their tickets in advance. The box office hours have been extended so people can purchase tickets. A special package deal of five programs for the price of three is available. Dubai calls the package, “the best deal in town.”

Programming has been geared towards these responses. The 1983-84 competition for grants for graduate study abroad offered under the Fulbright Program and by foreign governments are available to 50 countries. Most of the grants offered provide round-trip transportation, tuition and maintenance for one academic year; a few provide a research grant for ten months or more during the academic year.

Creative and performing artists are not required to have a bachelor’s degree, but they must have four years of professional study or equivalent experience. Social work applicants must have at least two years of professional experience and must have an M.S. at the time of application. Application forms and further information may be obtained from the Fulbright Program American Achievement Office, 1835 Eye St., N.W., Washington, D.C., 20006.

The Washington Post has added 1983 news positions for current college juniors, seniors enrolled or graduate students interested in newspaper journalism careers.

If you would like to be part of an active learning experience in state government, consider a spring semester at the Capitol. The New York State Assembly and Senate need full-time interns for college junior, seniors, and graduate students. The positions begin in January and continue through the semester. Most college awards a semester of credit for participation in the Assembly Intern Program. Applications and supporting materials must be submitted to Dr. Thomas Rasmussen, Science Center 423G, before November 1. Applications from all majors are invited.

The New York State Assembly has a ‘Time Series Analysis of Mean Placement’ to prove that ‘regionalization’ is merely a term and not an actual function. He has worked for the Division For Youth and has been a Family Court observer.

Hall developed a ‘Time Series Analysis of Mean Placement’ to prove that ‘regionalization’ is merely a term and not an actual function. Regionalization gives the legislature control over PINS. Hall said that he has never seen a law change because of regionalization.

Hall ended his topic with an introduction of next week’s lecture. It will be on the topics of Good Government. What Would it be like? Bill Hall has been employed as a police officer. He has worked for the Division For Youth and has been a Family Court observer.

The Washington Center for Learning Alternatives, 1705 DeSales St., N.W., Washington, D.C., 20036, 202-659-8510.

Hall developed a ‘Time Series Analysis of Mean Placement’ to prove that ‘regionalization’ is merely a term and not a solution. Regionalization gives the legislature control over PINS. But from Hall’s findings, he has proven that the communities do not place them in residence, they just relay PINS, designate and continue to place them in institutions. Hall’s suggestion: commitment to our community, taking responsibility. Things are not going to change. The jumping point for change is the community changes. Hall ended his topic with an introduction of next week’s lecture. Maybe you’ll understand what a good government is, in next week’s topic entitled, ‘Good Government. What Would it be like?’. Bill Hall has been employed as a police officer. He has worked for the Division For Youth and has been a Family Court observer.
LASERIUM

Dancing laser images and the sounds of The Police, Pink Floyd, and Led Zeppelin are coming to Alfred University. Laserium II, the newest laser show brought to you by Laser Images, Inc., will present its premiere performance on Tuesday, September 13 at 7:00 p.m. Admission is only $3.00 A.U. students and $5.00 general admission. For only $2.50 if you buy it in advance. Tickets are available at the box office. Note also that tickets are sold on a first-come, first-served basis. Box office will close at 6:30 p.m. Laser images and soundtracks are prepared specifically for the laser show. 

Laserium II was created by a skilled staff of musicians, actors, artists, and engineers. The show is produced by SAB, a skilled staff of musicians, artists, and performers. The show is exclusive and intended for audiences of all ages. The show features fifteen songs and twelve rock superstars. Laser beams play on all of the performers. Laser beams play on all of the performers and the stage lights up. The performers wear special effects and the audience is entertained by the entire show.

AU Business-Women's Assoc.

Alfred University's Business-Women's Association is looking foruan, returning, and new students. If you are a junior or senior and interested in business, the Professional Society will be holding an open meeting on Tuesday, September 13 at 7:00 p.m. in the McNamara Room of the campus center. The meeting will be open to all interested students and the public. For more information, please contact Dr. Elizabeth Johnson, director of Women in Management.

The yearbook staff will be signing up Seniors in the campus center for their yearbook picture on Monday, September 12. All students who are seniors and have not signed up for their yearbook picture will be asked to do so. This includes those who were absent or not present on the day of the yearbook picture. The yearbook staff will be in the campus center from 9:00 a.m. to 1:00 p.m. and from 2:00 p.m. to 5:00 p.m. All seniors who are interested in having their picture taken should come to the campus center during these hours.

Canada Day

The Performing Arts Guild is a student organization whose purpose is to provide a forum for student performers to perform in their free time. The Guild is open to all students at Alfred. Our main goal is to involve all performers and audiences in the performance of a variety of shows. Whether you're interested in music, dance, theatre (both the performing and technical aspects), or music, the Guild would like your support. Our programming for this year includes a Talent Show on January 23, a Concert on January 30, and a variety of neighboring cities for plays, concerts, and lectures, active support for the Performing Arts Council, and more.

C.A.S.T.

C.A.S.T. (Coalition of Alumni and Students Together) is a student organization concerned with keeping current students, parents, and alumni in touch with each other. New members are always welcome. Our meetings are held every Tuesday at 5:00 p.m. in the McNamara Room of the campus center. For more information, please contact Chris Dekleva at x140.

Monroe, Rauch Receive Grant

Two Alfred University students recently received an $11,000 grant from the New York State Health Research Council for a continuing investigation of a specific material that could be used as a possible substitute for teeth and bone.

Eugene A. Monroe, associate professor of ceramic science, and Dr. James P. Rausch, associate professor of chemical and environmental science, will conduct research on how to make ceramics that are biocompatible with human tissue. The research is aimed at developing a ceramic that can be used as a substitute for bone and teeth. The grant will fund research on the mechanical properties of ceramic materials that are compatible with human tissue.

Arthur L. Smith, chairman of the Department of Ceramic Science, said that the research will be conducted at the University of Buffalo. The research will be conducted in collaboration with researchers at the University of Buffalo. The research will be conducted in collaboration with researchers at the University of Buffalo.
Creativity and imagination allow us to break from our everyday obligations and let our minds wander free. When we express ourselves through art—work and writing we are not only satisfying our individual needs, but when shared, the needs of others. ZEPHYR is a new section designed for the sharing part of creative work.

Poems, prose, short stories, photography, prints, thoughts, drawings or maybe even a quote you would like to share...that is what ZEPHYR is all about. There is no one judging what is or is not published. All submissions will be printed repeatedly, we will publish as much as we have space for. With all submissions, we ask you to include a name, address, and phone number where you can be reached. If you wish to remain anonymous or use a pseudonym please include that information. All entries should be left at the Campus Center desk in sealed envelopes with Zephyr written on the front.

The Alfred Review has a vast store of creative talent. With the exception of the Alfred Review (which is published only once a year) there has been no place to print the work we are capable of producing. It is the intent of the Fiat Lux to open the door to whatever creative urge you may have.

Looking inside a mirror that reflects beneath the surface
A silhouette begins to shape
I see the resemblance
Closer to the mirror I can reach
And see a friendship in the distance
Pressing my lips against the mirror
I give you a kiss of warmth and love

-Laura Reichler

The Alfred Review is now accepting entries for a Print and Photo Competition. The winning entries will be published on the cover. Also, they are accepting submissions of poetry, prose, photos, and short stories. Leave all entries at the Campus Center desk.

Look for announcements for Writer's Guild meetings. It is sponsored by the Alfred Review and is a workshop for discussion and feedback on writing.

New Poetry Contest: A $1,000 grand prize will be awarded in the upcoming poetry competition sponsored by the World of Poetry, a quarterly newsletter for poets. Rules and official entry form available from the World of Poetry, 2631 Stockton Blvd., Dept. D, Sacramento, California, 95817.

AU Pub Reopens
By Neil Gleit

On Wednesday night, September 1, the Saxon Inn held its grand re-opening, attracting 500 students. The Pub is starting off this year with a series of improvements aimed at creating a more pleasant atmosphere and increasing business

The new full-time manager, Joe Sullivan, said that four nights of good turn-outs at the Pub are encouraging signs that the improvements have been worthwhile.

A new game room, which is open all day; a new entrance door, paint and new signs are additions that give the Pub a different atmosphere than in past years. The general renovation of the Pub has been reversed through minor physical improvements, and a more thorough effort to keep it clean.

In past years, the Pub has been managed by students who just worked part time. This year the Pub is run by the A.U. Food Service, under the direction of Michael Linehan. This change was the result of a move by the school's administration to close the Pub after hearing students' views and receiving a petition signed by approximately 90 students. The Pub was given the fall semester as a trial period to raise its standards and financial status.

The Saxon Inn is open on Wednesday and Thursday nights from 9 p.m. to 11 p.m. and Friday and Saturday nights from 9 to 1:30 a.m. Happy Hour is from 4 to 7 p.m. The entrance to the Pub can be reached through the main entrance of the Campus Center.

Snodgrass Awarded Grant

The New York State Council on the Arts has awarded a $11,100 "co-production" grant to an Alfred University video artist, Harland K. Snodgrass, and the Experimental Television Center in Owego.

Snodgrass, associate professor of media in the College of Ceramics, will use the grant to develop more advanced image-processing technology by linking computer technology to video imagery to manipulate colors, shape and light intensity. Snodgrass recently won the Buffalo Evening News Award for his 10-minute computer-generated videotape on the theme of nuclear proliferation as part of the 39th Western New York Exhibition at the Albright Knox Art Gallery in Buffalo.

In addition to equipment, Siemens awarded the Ceramics College a $20,000 grant for X-ray diffraction research. Snyder will be the principal investigator.

In addition to equipment, Siemens awarded the Ceramics College a $20,000 grant for X-ray diffraction research. Snyder will be the principal investigator.

Ceramics College Receives Gifts
The New York State College of Ceramics at Alfred University has received gifts of computer and laboratory equipment valued at $160,000, according to a campus spokesman.

The largest single gift, approximately $83,000 in computer and color graphics devices, was from the Digital Equipment Corp. of Maynard, Mass. The United Technologies Corp. of Hartford, Conn., donated a $40,000 X-ray diffraction generator. A similar device, valued at $10,000, came from TAM Ceramic of Grand Island.

The Corning Glass Works donated computer controls valued at $15,000 and Siemens USA of Cherry Hill, N.J., a subsidiary of the giant West German Siemens electronics conglomerate, provided a $12,000 color-graphic computer terminal.

All of the equipment will be used in continuing research by Dr. Robert Snyder, associate professor of ceramic science. Snyder is a specialist in the computer and X-ray analysis of material and a consultant in the field to the National Bureau of Standards, Gaithersburg, Md. In addition to equipment, Siemens awarded the Ceramics College a $20,000 grant for X-ray diffraction research. Snyder will be the principal investigator.

Riding Club Organizing

The Alfred University Riding Club was started in 1974 and is currently a member of the Intercollegiate Horse Show Association. The club competes in hunter seat competition against other schools in our region such as Skidmore, St. Lawrence, SUNY Binghamton, and Cornell. Classes at the shows are divided according to a rider's experience, starting with beginner walk-trot right up to a Medal level open division.

Membership is open to any full-time undergraduate who is willing to take a minimum of two lessons per month at Brentwood Riding Center in Angelica, N.Y. Weekly two-hour lessons will cost about $50 a semester. Expenses for traveling to horse shows and entry fees are funded by the Student Senate; members need only to pay for coaching and food.

Horse shows begin in October and there are four or five during a semester. The Riding Club will be organizing early in September. If you are interested, inquire at the Campus Center desk or contact Lisa Fuller.
