Students look on as construction gets underway for the new McLane addition. One student mentioned, "from the looks of it this is going to be a very good looking building."

McLane gets a new gym thanks to a generous alumnus

SEAN CURRAN | Sports Editor

Alfred University received a gift which will allow it to construct a renovated McLane Athletic Center that student athletes will be proud to play in.

The renovation, which is scheduled to be completed by the fall of 2014, has been made possible by a gift from Terry Galanis Sr., and his son, Terry Galanis Jr. Galanis Sr. is a 1940 alumnus of AU, and Galanis Jr. is a member of the University's board of trustees, and founder of Sealing Devices of Buffalo. With the donation, AU will be able to replace the floor, bleachers, second court and renovate the walls and floor of the Galanis family/AU Director of Athletics Paul Visscher said, "This renovation has been a long time coming."

With additional state funding, the school can also build the health and wellness annex to the McLane Center, according to administration.

"I'm just happy to see that facility that serves so many purposes will have a great new look. This was a much-needed and sincerely appreciated gift to renovate a major AU asset."

FIA MCCOY | sports editor

The addition, at the north end of McLane, will include an indoor track lane and three basketball courts, men's and women's locker rooms, storage areas and an elevator leading to the street level entrance of McLane.

This is the first major renovation to the gymnasium since it was built in 1971. It is part of the overall effort to increase the appeal of the sporting facilities at AU in the plans known as "Score one for AU."

"Along with the new softball field and the arena, this addition will really impact the culture of sports here," said Visscher. "Basketball has sometimes been challenging, but now we will have a destination for student-athletes."

The renovation come will be a benefit and welcome addition to the AU and Alfred community at large, it will be open to the public, providing a facility to host a number of activities promoting health and fitness. The center will also feature a training facility for the AU track teams and the courts will help accommodate the University's intramural programs. Since the track teams will no longer need Davis Gym to train, this will free up the gym for more clubs around campus.

Here at Alfred, every student has a story in the food.

Some eat at the Hall in memories of scoring up dishes that made me a datetime. The Knight's Furn is in welcome change, until you've tried everything on the menu.

The food here likely isn’t much different than a lot of colleges, but with little to choose, it’s good to find anything else in one of such tiny areas. Visscher said, I often find myself eating the same thing more and more again, and I don’t have any kind of limitations on my diet."

For the sake of curing my problem I decided to be vegetarian. The infamous lack of vegetarian options, I sympathetically get used to about two and a half months. I sympathetically get used to almost all the vegetarian food in the food.

The food here likely isn’t much different than a lot of colleges, but with little to choose, it’s good to find anything else in one of such tiny areas. Visscher said, I often find myself eating the same thing more and more again, and I don’t have any kind of limitations on my diet."

The recreation center will be a major addition to the AU and Alfred community at large, it will be open to the public, providing a facility to host a number of activities promoting health and fitness. The center will also feature a training facility for the AU track teams and the courts will help accommodate the University's intramural programs. Since the track teams will no longer need Davis Gym to train, this will free up the gym for more clubs around campus.

In honor of Constitution Day, professors at Alfred University formed a panel to discuss U.S. Inter- nation in the Syrian conflict which included Dr. Susan Ostrower, professor of politics; Dr. Jeff Sluyter-Beltrao, assistant professor of his- tory; and Dr. Robert Heineman, professor of political science. Also joining the panel was Joseph Hampel, a graduate student completing his dissertation at Yale University and working in Rep. Tom Reed’s office.

The main question on minds of the panelists was the credibility of the Uni- ted States foreign policy. Dr. Ostrower presented her analysis with a historical background of the constitution including what was powers were origi- nal. Scholar in Campus
time on the history of United States Foreign Policy (VPR). Dr. Churchill continued

Harold Hall is another obstacle; the building wasn’t accessible at all. A new project to renovate it has been nominated and is now in its planning stages.

The campus acts across both physical and academic as an institutional barrier for students with disabilities. Andrea D. Bush, Director of Special Academic Affairs, stated the act referred to the American Disability Act (ADA), which was signed into law in 1990 and took effect in 1992 on the standard for accessibility with the board of public, private, state-run, and federal-based board.

Private universities and schools around the U.S. do accommodate requirements for students with disabilities and activities accessible; however, according to the ADA section 36.406(e) says, “Housing at a Place of Education, which includes living arrangements and activities accessible.”

The act she referred to is the America with Disabilities Act (ADA). “In the past 10 years there is not a single year that Neiderbach has stated that the university has increased ADA. “It’s incredible,” Neiderbach capped persons.

The 177 years the university is actively aware of the large problem with access not improving hold-ups in the planned improvements of the university. Perhaps the most important thing that dictates renovations. Shay’s performances have come through Alfred but none have captured the audience like Dani Shay. Shay is a young emerging singer songwriter who was featured on America’s Got Talent and The Glee Project. She is also a True-Color sensation, who got immediate attention because of her singing performance. Shay has performed at various events and concerts, including her most recent concert which was very successful, opening for a well-known artist. Shay’s voice was articulate and vibrant, and the audience was fully engaged throughout her performance.

The concert had a turn-

Before Shay took the stage, the audience was drawn in by the anticipation of her performance. Shay, a young singer/songwriter from Canada, has gained a lot of attention in recent years. She has connected so much with the audience like Dani Shay.

Dani Shay performs in the Kinclub on Friday Sept. 27 to a full crowd. Going along with the theme of “Express Yourself,” Shay shared her experiences with Alfred. She is openly gay and has not been discriminated against because of it in her field. She is known for her singing skills and her ability to connect with the audience. Shay’s voice was a nice blend of heartfelt and energetic, with rap and some experimental elements.

Shay’s voice was a nice blend of heartfelt and energetic, with rap and some experimental elements which she has with Justin Bieber. She has a clear strong voice, which was interspersed with rap and some experimental elements with the rhythm and sounds of her voice. She was very well received, and the audience was fully engaged throughout her performance.

However, Shay had a distinct voice which easily could be compared to the likes of Lindsay Lohan and Regi-

Shay’s videos on Youtube, which were sitting in the ICU watching her, were very moving. Shay’s videos were made with care and attention, ensuring that they are well received. Shay’s presence was felt throughout the concert, and the audience was fully engaged throughout her performance.
