

Chicago Heights – Ill.

Nov. 24, 1905

Dear Professor Binns,

I am just winding up a turn at taking care of my brother who has had typhoid fever. He is up and around again. I will take a position with the non craze people the 1st of the month. Duties rather crazy (?) as yet in all our minds.

However I want an artist. Walrath won't go. I would like Miss Randolph if she would begin soon. Thomas could suit too. I think it would mean a case of going in right away at any rate by the first of the year.

If you know of any summer school people who are fit, let me have their names. It is not necessary that they know anything but the painting and some little modeling.

Yours very truly

Paul E. Cox
