

White Hall III. Mch. 9, 1905

Prof. Binns.

Dear Sir,

In reply to yours of the 9th I may say that the essay can be ready very shortly, say in a week or ten days, but the pictures are yet to make, owing to various interfering duties. If you so desire I can send in the essay itself very soon.

Turnbull does not write to me very often and I am not sure where he is. I think however that he is in East Liverpool, Trentvale St.

As regards the stoneware plant in the east I may say that I would think that an up-to-date plant there would succeed rapidly. I would like very well to be put in touch with the parties you have in mind. I am ready to furnish estimates at any time.

I hardly think that any very substantial thing will come of this in White Hall for at the end of two thirds of a year I have little to spare for my time beyond my college work and a feeling of security concerning the value of the course I have had.

So I will gladly talk with your people.

Yours very truly,

Paul E. Cox

I should mention that these people here saw fit to cut me to \$50 per month until the actual making of jardinières is begun. And they don't hurry very fast.
