Professor Chas F. Binns

Alfred

Dear Sir,

I regret bothering you so much but necessity compels.

I was informed by Mr. Oswald Speir that they had abandoned their terra cotta scheme for the present.

Our plant at Carbon was taken in as I thought it would be by the man with the mortgage. This plant here closed and I am entirely out of work.

I will be glad indeed if you can direct me to anyone in need of me.

Yours truly,

Paul E. Cox
