Indianapolis, June 27, 1908

Professor Charles F. Burns

Alfred M. G.

Dear Friend,

I am in the trail of a job of mold making. I tried here in town with the U. S. Eucraustic Tile Co and failed because of the hard times to get on tho I secured a promise for future consideration.

Of course I can get something to do some place and will survive. But I think that the next job I take should bear some permanence, that is be with a good company and of a nature that would insure something like a place to tie to. I'm tired of moving.

Yours very truly
Paul C. Cox.

East Liverpool is dead just now I am told.
