Wireless access to increase on campus

Dear Campus Community,
Last year, ITS, students, and representatives from Student Affairs studied wireless access on campus and made a recommendation that Alfred University should increase the availability of wireless hot spots on campus. ITS is moving forward to increase the WiFi coverage across campus.

This summer and fall, ITS will be working on campus to install new wireless access points. By early in the spring semester 2008, students, faculty and staff will be able to surf the Web, chat and retrieve e-mail wirelessly in all academic, residential, and administrative buildings.

Director of Information Technology Services
