

Howard, N. Y.

Nov. 5-1907,

Dear Professor:-

After receiving a half dozen telegrams and meeting the managers of the Grueby Pottery Co. in N. Y. last Friday at their expense, they have finally come to the conclusion that they need me there, ^{and} are now in a great hurry to have me come. But as I had just taken a school and had hardly got started it will take me this week to get out of that deal; so Monday Nov. 11, I shall start for Boston.

Mr Belknap said, they fired a kiln of 900 pieces and it was a complete failure and that was the reason they came to the conclusion that they needed me.

Will let you know how I get along.

Sincerely
F. E. Walrath.
