

Chicago, Ill,  
May 3, 1904.

My dear Professor:—

Will you kindly inform me where the little frit kiln is made and if possible its cost?

I suppose that you will see about having a certificate made out for me, so when I come East in September I can get it together with the picture of that large vase.

If you should learn of a good position any where and don't have any one to fill it, that is if it is a very profitable one, I would be pleased if you would place me in communication with it.

I haven't talked with Miss Hollister about the possibilities of this position but will do so before long. I do not believe that the inducements will be very big for some time, so I am not

2.  
planning to stay any length of time  
if some thing better turns up.

I received Hugh's letter to-day.

I'm feeling real well at present  
and am enjoying the work fairly  
well. The only trouble is, I haven't enough  
to keep me busy. The kiln works  
very nicely and <sup>we</sup> have some very good  
matt. glazes from the first firing.

Remember me to Mrs. Binns.

Yours Respectfully

Ed E. Doalrath,  
356 East 3-6 St. -
