### Work Needed for Auction Benefiting New Student Gallery

The Robert C. Turner Gallery will be holding an 8.5" x 11" and Cup auction this Friday and Saturday. All proceeds are going towards helping the gallery to help the student body and every show that enters its space.

We need work from all mediums. We would like most of the work to be 8.5" x 11" or a cup but we are not picky and will take anything anyone is willing to donate.

To donate either email [turnergallery@alfred.edu](mailto:turnergallery@alfred.edu) or just come in during our normal hours (11 .m.-4

p.m. on weekdays) and drop off a piece.

Thank you to all who contribute.

### **First Boffer Club (Foam Sword Fighting) Meeting This Thursday!**

Our first meeting is this Thursday in the Kenyon-Allen room at 7 p.m. The first 20 or so minutes will be used to introduce the club, the rules and other such business-type things.

Once we're done the introduction we are going to do a sword-building workshop. We're going to buy a lot of supplies out of pocket for people to build their first foam swords.

We're charging \$3 for the parts to a basic, one-hander sword. If you want to buy your own supplies and bring them, that is fine too. If you want us to pick you up something special on our shopping trip email us.

Saucer sleds to make Spartan shields are currently \$5 at Walmart so contact us if that is something that interests you. Tools will be available though if you have scissors/saws/tape you are encouraged to bring it along. If you already have swords please bring them to be approved/used as an example.

For more info join the facebook group and/or sign up for our email list by emailing [alfredboffer@gmail.com](mailto:alfredboffer@gmail.com).

This club definitely follows the age-old principle of the more the merrier so bring your friends.

### Stories and Science of the Flood of 1972

Speaker: Courtney Waters  
Tuesday, Feb. 7 at 7 p.m.  
Nancy Howe Auditorium  
David A. Howe Public Library  
155 N. Main St., Wellsville  
585-593-3410

Born several years after the Flood of 1972, Courtney grew up hearing the stories from her family. In college, for her senior thesis, she researched the story of Hurricane Agnes from another perspective—the scientific facts. Tracking the water from the Upper Genesee River, through the Mount Morris Dam, and into Lake Ontario, she was able to show how the Mount Morris Dam spared Rochester from the damage that occurred in Wellsville.

Come and hear her illustrated story of Hurricane Agnes and share your stories and experiences. This library-sponsored lecture is free and open to the general public.
