Uploading Credit Card Receipts

In March, an announcement was made regarding changes to the MasterCard administrative process. In an effort to allow individuals time to become familiar with the new program features, scanning and uploading receipts was optional. It was noted at the time that "we will review the process again in August and it is our hope that cardholders will be more comfortable with this new Smartdata system feature."

Over the course of the past several months we have been monitoring the activity and working with individuals. We have determined that the majority have found the scanning feature to be convenient and have continued to upload their receipts. Therefore, beginning in September (for the August statement), we will no longer accept the hard copy submission of receipts. That is, all individuals will need to upload receipts into the Smartdata system.

A printed copy of the statement will still be required to have the cardholder's initials for submission to the card manager and receipts should be maintained until you have been notified by Office and Procurement Services that your information has been verified. All other requirements, including the completion of missing receipt forms should be followed.

Should you require additional training, Office and Procurement Services does offer monthly trainings every second Wednesday of each month from 1-3 p.m. located in the Banner Training room at the side entrance of Howell Hall.
