'Into the Woods' - Friday & Saturday

"Into the Woods" by Stephen Sondheim and James Lapine

If you know the show .. you probably love it... if you don't know it .. here is an opportunity for a wonderful musical discovery.

"The book by James Lapine interweaves the stories of familiar fairy tales with an original story of a Baker and his Wife, who must enter the woods and collect items from the other characters to undo a witch's curse. Suffice to say they're all searching for "happily ever after." And they get what they wish for - sort of. Scattered throughout is the humor of Sondheim's witty lyrics, slapstick and pratfalls, but there is a darker side. Act two explores more powerful themes of betrayal, loss and responsibility."
