Anton Reijnders Lecture

Date: Thursday, November 14

Time: 7PM

Location: Binns Merrill Hall Room 106

For seventeen years, Anton Reijnders was director of the materials research program at the European Ceramic Work Center in 's-Hertogenbosch, The Netherlands. In that role, he worked with many well-known artists, including Tony Cragg, Anish Kapoor, Johan Creten, and Jun Kaneko. Many Alfred University alumni have participated in the EKWC residency program. Reijnders was a Visiting Faculty in the Division of Ceramic Art at Alfred University in 2006. He is a member of the International Ceramics Academy and has exhibited throughout the world. His work is in museum collections in Europe, Asia and the US.

Reijnders is the author of "The Ceramic Process, A Manual and Source of Inspiration for Ceramic Art and Design." Based on his research at the EKWC, the book covers ceramic materials in process in great detail. It is one of the essential texts that should be on every ceramic artist's bookshelf.

On his website, www.antonreijnders.nl, Reijnders describes his artistic practice:

"My work stems from a fascination with questions of meaning and how we make sense of what is around us. I want my work to offer an opportunity for concentration and to provide an alternative to images that are increasingly subservient to quick effects."
